Every one is allowed to have hi own pet scheme on taxation, and Th Astorian has the floor till some one els comes forward with a new racket."

But, seriously, why is The Astorian'. pet scheme a "racket?" It is a feasible practical plan with very much in it, a we have already shown, to commend I self to the thinking public. More that this, it is not an experiment, but a flour labing success in at least three states i the Union.

Mr. Castle, one of the commissione of the Hawalian provisional governmen made a rather serious blunder in Wash ington yesterday, if the wires report his correctly. ### Big Guns For Chicago.

Herr Gillhausen, chief engineer of the Kropp gun works, with Richard Abe, arrived last week at Chicago to open Krupps monster display at the fair. The advance section from the celebrated gun works at Essen reached Baltimore some time ago, and was started to Chicago Jan. 26. The removal of Krupps exhibit from freight cars to the building especially onstructed for it is the most difficult problem presented to the bureau of installation. The sensational feature of the exhibit is a cannon weighing 124 tons-the seavlest single article ever offered to a railroad for transportation. There are other heavy ordnance pieces, but in comparison with the leviathan they are light weights. Several pieces weigh sixty-five ons each. Herr Gilhausen will discus the plans for handling these exhibits with Mr. Holcomb, Chief Engineer Shankland and other officials of the park.

The Krupp exhibits are coming to Chieago over the Pennsylvania road. They are due in the park now and have been expected every day this week. For a time it seemed that the display would be abandoned, because none of the raliroads were willing to undertake to bring the guns to Chicago. Engineers of severni roads said the load would wreck every bridge between Baltimore and Chicago. Much difficulty was also experienced in persuading any of the ocean lines to put their vessels to the test of carrying the guns. Krupn's engineers tept at work, however, as Emperor Willam had specially requested that a great showing be made by the Essen works. After contracts were made for ocean transportation the next thing was to secure a place to unload. After a long search the German engineers selected Sparrows' Point as the only place along the Atlantic seaboard having shears of sufficient lifting power to unload the exhibit. The Maryland Steel company indertook that part of the work. The Pennsylvania Railroad company made a contract to deliver the goods in Chicago.

It is the biggest job ever undertaken by the engineers of that company. In order to bring the guns to Chicago. he Pennsylvania company built cars almost entirely of iron and steel especially for the purpose. These cars are in the form of wide flat trucks, placed on thirty-two exceptionally strong and leavy wheels, made for the occasion. One car is to be used in bringing the blg gun. The other car, to be used in bringing smaller ordnance pieces, really in the form of two cars, joined by an iron bridge. It presents the appearone long car with sixty-four wheels. Herr Gillhausen is confident that the exhibit will reach Chicago safely. He has inspected the cars and says they appear to be amply strong to hold the

one of the attractions of the fair. It is almost twice the length of the largest ordnance piece owned in the United States. The gun is 87 feet long, the biggest one in this country being 45 feet. It will throw a projectile 1614 inches in inches in diameter sixteen miles, the initial velocity being 4,500 feet a second. the gun will not be fired during the exposition. The engineer says it would shatter every pane of glass for miles around

There is hope for all sufferers from Nervous Diseases. Read what follows:

Mrs. Jennie C. Davis, a fine artist and an accomplished authoress, of Westfield, Wis., had been subject to headache ever since she could remember. So severe were her attacks as to cause at times temporary delirium. All treatment had failed to relieve her, but after pains Dr. Miles' Restarnitye Nervine after using Dr. Miles' Restorative Nervine slie writes: "My record is to me, at least, satisfactory. No headache, constantly in-creasing appetite, and a consequent gain in weight of two and a half pounds in just one

Six weeks later she writes: "Have read and sewed immoderately of late, but my headaches do not return."

Mrs. John R. Miller of Valparaise, Ind., was attacked three years ago with turn of life in its worst form. It finally went to her head, and all indications were that it would result either in insanity or softening of the brain. Her husband thus writes; "It would be impossible for me to attempt a description of her sufferings during all this time. She was treated by our very best local physicians, with but temporary benefit. She has taken four bottles of Dr. MILES' RESTORATIVE NERVINE, and is cured. She has gained twenty pounds in weight. I tell you, she often blesses you for what you have done for

her."
Recollect that for the CURE of all Nervous Diseases there is no remedy which approaches Dr. Miles' Restorative Nervine. It is free from dangerous drugs and opiates. Sold by all druggists, on a positive guarantee, or Dr. Miles Medical Co., Elkhart, Ind.
