and will be sold at a sacrifice. Facts tell
more than words. Call and convince
yourselves. **LEE KOHN, Manager.**

**As the Flax Grows,
So the Twine Lasts**

You can't go wrong if you buy

MARSHALL'S Twine.

The 1893 make is now being delivered
to customers. It is made of the flax
crop of 1890.

WHY?

Because the 1891 and 1892 crops have
been inferior. Marshall never uses in-
ferior flax. That is why his twine

IS THE BEST!

FISH COMMISSIONERS APPOINTED

Among the List of Officials Are Brown,
Packard and Fox as Pilot Com-
missioners.

Associated Press.

Salem, Feb. 17.—The following nomi-
nations of the governor have been con-
firmed by the senate:

Board of regents of the State Agricul-
tural College: T. W. Davenport, W. A.
Sample, A. R. Shipley, Bernard Daly to
succeed W. S. Ladd, W. P. Keady, J. K.
Weatherford, J. T. Apperson.

Board of regents of the State University
C. C. Beekman, Henry Failing, A. G.
Hovey.

Board of regents of the Monmouth nor-
mal school: J. V. Butler, F. Haley, J. C.
White, B. J. Daley, Jacob Voorhees, Al-
fred Lacy, Benj. Schofield, W. H. Holmes
A. Noltner.

H. D. Compson, brigadier general, R.
W. Mitchell, adjutant general, Jeff Myers
lieutenant colonel; W. B. Perry, assistant
adjutant.

The senate passed the following bills:
Trullinger's bill for the Astoria sea-wall
Belt's bill defining the duties of stock
inspectors.

Ormsby's bill to establish a Soldiers'
Home.

The senate concurred in the house
amendments to Matlock's bill for a
branch insane asylum in Eastern Oregon.

At 5 o'clock this afternoon, the senate
and house went into joint session for the
purpose of electing men to fill the offices
in the gift of the legislature. The follow-
ing were chosen:

Railroad commissioners: H. B. Com-
pson, democrat, 54; I. A. Macrum, republi-
can, 52; J. B. Eddy, republican, 52. The
others who received votes were Klippel,
2; Wheeler, 3; Sibley, 3; Colvig, 5;
Steel, 2; Sellers, 4.

For fish commissioners: George T. My-
ers, George Gustin, Allen Parker, W. J.
Riley, Joseph Paquet.

For pilot commissioners: J. A. Brown,
John Fox, F. Packard.

For state librarian: J. B. Putnam.

For food and dairy commissioner: Chas.
Holman.

For game protector: Perry Hinshaw.

For boatman: F. F. Bradford.

At the evening session of the senate,
Durham's bill amending the Australian
ballot law was brought up. At this juncture
of the proceedings, while the senate
was working under the regular order,
Weatherford, democrat, protested against
the Durham bill being considered, claim-
ing that it was not in its regular order.

The democratic members joined him in
the protest, claiming that the bill had
only been passed at noon and many bills
were before it on third reading. By a vote
of 16 to 12 it was decided to read the bill
a third time. Motions to adjourn to a
call of the house, to lay on the table, to
indefinitely postpone, etc., were in a like
manner rejected. The previous question
was voted on. 16 voting aye, two were
absent, and 12 who refused to vote were
recorded nay. The bill was then put on
its final passage with like result and the
chair ruled that it had passed, by a vote
of 16 yeas to 12 nays, and 2 absent. Mat-
lock and McAllister were absent and
Beckley and Blackman, Butler, Cog-
swell, Houston, Myers, Raley, Smith, Van-
derburg, Veatch, Weatherford, and Wood-
ard filed a protest against having their
vote recorded "No," when they had not
voted. The senators who had voted "Nay"
filed the following protest and the same
was entered as of record:

Mr. President.—We, the undersigned
senators do protest against the president
directing and requesting the clerk to re-
cord us and each of us as voting "No" on
upon house bill No. 175, for reasons that
not one of us voted "No" when our
names were called, and that the record so
made is untrue and does not represent
the vote as taken and given; that the
present had no authority of law to either
count or record any of us as present and
voting "No," and that only sixteen votes
were cast upon the passage of said bill,
and each and all of said votes were re-
corded in the affirmative and none in the
negative.

The general appropriation bill was next
taken up and received consideration for
several hours. Minor amendments were
made all through the bill.

IN THE HOUSE.

Salem, Feb. 17.—The house today passed
Matlock's bill for a branch insane asy-
lum in Eastern Oregon.

The house receded from amendment No.
5, to the senate bill for a state normal
school at Weston, and concurred in the
senate amendment to the bill for a sea-
wall at Astoria.

Wright of Union, introduced the general
appropriation bill which was set for con-
sideration at 2 p. m.

Shortly after noon the general appropria-
tion bill found its way into the house
where it has been discussed for many
hours. The bill is an enormous one, ag-
gregating more than \$2,000,000. It has
not yet reached the senate, but when it does
come, there will be offered amendments
without end.

As the session nears the end, it begins
to look as if the present legislature has
outdone all that have preceded it in the
way of appropriations. By the way of sum-
mary, and aside from the general appropria-
tion bill may be mentioned the following:

For the World's Fair, \$50,000.

For a jute mill, \$50,000.

For a branch insane asylum, \$50,000.

Militia, \$100,000.

State University, \$50,000.

Agricultural College, \$25,000.

Weston Normal School, \$25,000.

A few good general laws, and only a
few laws, except of local nature have
been passed. Among them may be men-
tioned the assessment and taxation law.
Fixed levies have been done away with.
There will be no deductions for indebted-
ness and no tax on mortgages.

The senate has agreed to virtually ad-
journ at midnight, but is not likely that
even the appropriation bill will be settled
by that time and an all-night session
will probably be held. Final adjournment
has been decided upon for 10 a. m. to-
morrow.

A large number of bills were passed
this afternoon in both houses.

The house resolved itself into commit-
tee of the whole with Mr. Paxton in the
chair to consider the general appropria-
tion bill. Wright, chairman of the com-
mittee on ways and means explained the
provisions of the bill. The bill was read
by sections and the various provisions
considered and the bill as a whole adopted.

The consideration of the general appropria-
tion bill was interrupted at 4:30 by the
approach of the senate according to a
joint resolution adopted this morning
to go into joint convention for the elec-
tion of railroad commissioners and other
officers. After the joint convention had
been dissolved the house adjourned to
7:45 p. m. At that hour the house met
and acted upon some senate amendments to
house bills.

Mr. Bishop, on the part of the house
presented to the speaker, Mr. Keady, a
large and beautiful picture containing the
photographs of all the members of the
house. Accompanying the presentation,
he made an appropriate speech. Mr. Keady
made a feeling response.

The house then resolved itself into
committee of the whole for further con-
sideration of the general appropriation
bill. At 9 o'clock the bill was finished in
committee and reported to the house. The
bill was then placed upon its final pas-
sage under suspension of the rules. The
vote was yeas, 33; nays, 22.

Paxton moved to reconsider the vote
by which the committee on salaries and
messenger, relating to compensation of
clerks was adopted. The motion was
adopted. Paxton then moved an amend-
ment fixing the compensation of short-
hand clerks at \$5 per day; chief clerks
on enrolling and engraving committees,
\$5 per day, and all other clerks \$4 per
day. Ormsby moved that the pay of
pages be \$1.50 per day; both motions were
passed and the report was then adopted
by a vote of 34 to 17.

The senate bill to repeal the act estab-
lishing a state board of charities was
taken up and passed by a vote of 33 to 12.

The third reading for senate bills was
made a special order for 10 o'clock, being
the senate concurrent resolution for the
free coinage of silver. The same was taken
up and its consideration postponed till
11:35.

The senate bill providing for the ap-
portionment of state senators was taken
up, yeas 33; nays, none. There not being
a quorum voting, the free coinage resolu-
tion was then indefinitely postponed.

Ford offered joint resolution No. 14, re-
lative to the apportionment of senators
and representatives.

Under resolution of the house, the
speaker with two members appointed by
him will examine and correct the journal.
The speaker appointed Merrill and Miller.
Adjourned till 9:30 tomorrow.

Captain Dexter, of the British bark
Montreal, which recently arrived at New
York from Gothenberg after an extremely
long passage of 77 days, states that it
was one of the roughest in his memory,
and that on two occasions the vessel was
saved from foundering by the use of oil.
During a gale from the southeast the
lower main topsail was blown into shreds,
and the furled sails were blown out of
the gaskets. With every inch of canvas
gone, decks swept of everything movable,
and the boats smashed, the bark scudded
before the gale under bare poles and
went far south of her latitude. South of
Cape Hatteras another series of storms
were met. The dripping of oil over the
bow had a wonderful effect; it broke the
force of the waves and kept the vessel
from foundering.

The disengaged fleet is beginning to
assume large proportions, says the Ore-
gonian, for so late a date in the ship-
ping season, the total amounting to over
10,000 tons register, recent additions being
the iron barks Natania and Hirkdale and
the wooden bark Olympic. The inquiry
for grain vessels appears to be entirely
checked, but whether owing to higher
rates asked for tonnage or from lack of
grain stocks is difficult to say. At any
rate no new charters have been written
lately and immediate prospects are not
very flattering. Probably 75 or 80 would to-
day be a full figure for iron, and it is
not certain whether shippers would char-
ter at that rate. Tonnage to arrive within
a month is not of large proportions,
but when added to free tonnage now on
hand makes the outlook rather blue for
shipowners.
