The True Feeling About Fulton.

Now that the session is over, says the Statesman, it is well to nose around among the debris and see what has been accomplished. Below will be found a continuation of the list of laws passed, together with the action of the governor on the several bills. It is known now, however, that the governor will veto the Durham bill, which created such an uproar in the Senate Friday night. This bill amends the Australian ballot law. Speaking of the scene of Friday night it

is suggestive of the fact that during its closing hours the Senate passed no resolutions of thanks to their president, Hon. C. W. Fulton, for the efficient manner in which he presided throughout the session. Had it not been for the affair in connection with the passage of the Durham bal-lot bill, Mr. Fulton would have been nicely remembered, as indicated by the following, which was found on Hon. C. A. Cogswell's desk Sunday when the janitors began to clear away the papers. The esolution was never presented, however, but there is no doubt Mr. Cogswell would have proposed it Saturday morning had it not been for the ruling in the case of the Durham bill: "Mr. President: The seventeenth bi-

ennial session of the legislative assembly of Oregon is now about to close. Our work for good or ill is nearly done. Though we have met and mingled together as senators with differences of opinion and conflicting ideas upon many juestions, our intercourse has been marred by no personal quarrels, no factional feuds and no strifes that will leave pily, extreme partisan politics seldom had an occasion to disturb our serenity or interfere with our labors; and therefore, while still holding tenaciously to our political convictions, we can part in the sincerest personal friendship and with cordial respect for the opinions of each

pors is in a great measure due to the fair-ness, the wisdom, the forbearance and the good fellowship of our presiding officer. All these qualities he has constantly exhibited, and has thereby contributed largely to make our labors easy and harnius and our sessions successful.

"In this trying position he has ever been impartial, courteous and kind, though firm, and is therefore entitled to the thanks of the members of the Senate.
