AN ASTORIAN INVENTOR. A Marine Propeller That Is Expected

A valuable Astoria invention that will be exhibited at the World's Fair is an improved propeller for vessels. It is patented, owned and manufactured designed by J. L. Lovell, one of the firm. The improvement consists in the manner in which the blades are attached to the hub and the form of the blade. The hub is of cast steel and has as many sides as there are blades. Each side is dovetailed into its corresponding blade; the fitting of the hub and blades being tapered so that a washer and nut on the end of the propeller shaft covers all the sections and on being tightened, forces them all solidly to their seats around the hub. This device does away with all of the oole that are usually used to fasten the blade to the hub and makes the operation of removing a broken blade and inserting a new one easy and expeditious. The inventor claims a great gain in officiency in his improved blade which differs from others principally Every regular subscriber to The in having an opening or slot one quarter of the width of the shank of the cart more freely. people--- To whom we are directly responsible---among whom an equitable distribution of these National heirlooms should be made.

The World's Fair Offer to the American People:

That none of our plans for the people's profit be curtailed we must realize from the sale of 5,000,000 Souvenir World's Fair Fifty-cent Silver Coins the sum of \$5,000,000. This means \$1.00 for each Coin, a much smaller sum than the people would have to pay for them if purchased through an indirect medium. Every patriotic man, woman and child should endeavor to own and cherish one of these Coins, as they will be valuable in future years-a cherished object of family pride. Remember that only 5,000,000 Coins must be divided among

66,000,000 people. These Coins could be sold at a high premium to Syndicates, but we have enough confidence in the people to keep the price at a Dollar for each Coin, as this will make us realize \$5,000,000 -the sum needed to open the Fair's gates on the people's broad plan.
