### U.S. SENATE ADJOURNS SINE DIE

Every Presidential Nomination but One Is Confirmed.

### THE LATEST FROM HAWAII

The United States Treasury Suspends the Issue of Gold Certificates for the Present.

Associated Press.

Washington, April 15.—In the senate today, the president's nomination of Mr. Roach, of North Dakota, for secretary of the interior, was confirmed by a vote of 72 to 20. The senate also adjourned sine die.

After further speeches in the Roach matter, Lodge offered a resolution directing the secretary of state to inform the senate by whose authority the American flag was hauled down from the government building at Honolulu. On demand of Gorman, the resolution was laid over under the rules. Butler moved to amend by adding the words, "Also by whose authority the same was hoisted on said buildings."

The committee to wait on the president reported that the president said he had no further communication to make to the senate.

Washington, April 15.—In the senate today, Chandler, rising to a question of personal privilege, said he had not distinctly understood yesterday whether the senator from Indiana, Voorhees, had said "he might have heard," or that he "had heard" certain statements concerning his action as secretary of the navy. Chandler said he thought he had kept pretty good track of various attacks made on him from time to time, both personal and official, but he had never heard before that ships built under his administration were defective. The ships were the Chicago, the Boston, the Atlanta, and the Dolphin, and these ships, he thought, were very much afloat at this day. Contracts for those ships were made with John Roach and it could not be to him the senator alluded as one of those who retired "rich, contented and infamous."

Voorhees explained that his remarks yesterday were intended as an illustration of the position taken by the senator from New Hampshire and other senators on that side and the language which he used in reference to Chandler he had heard used by others and not at a very remote period from the present time.

Hashbrough also rose to a question of personal privilege and began by expressing the hope that the senate would not adjourn without giving his colleague, Mr. Roach, the opportunity asked by him yesterday. Objection was made by several democrats and the senate proceeded to consideration of executive business. At 5:50 o'clock the doors were opened and a resolution was agreed to, tendering the thanks of the senate to the vice president of the senate during the present extraordinary session.

A motion to adjourn sine die was then made by Hill and agreed to without division.

The vice president said before announcing the result of the vote just taken,

"I beg to express my earnest appreciation of the uniform courtesy shown me by the members and officers of this body during the session now closing, and for a resolution personal to myself, kindly adopted by the senate, in accordance with the vote just taken, I now declare the senate adjourned without day."

### NEWS FROM HAWAII

What the Returned Commissioner and Envoy Have to Say.

San Francisco, Cal., April 15.—The Pacific mail steamer China, arrived from Hongkong and Yokohama via Honolulu this afternoon. She left the latter port only two days later than the Mariposa so that there was no expectation that she would bring news of importance. Everything was quiet when she left. The provisional government was holding its own without trouble.

The following is from special correspondence of the Associated Press, under date of April 15th:

The steamship Alameda which arrived here yesterday morning, brought among her passengers Paul Neumann and Prince David Kawanaukoa, the deposed queen's envoy to Washington. Neumann stated that he had enjoyed the trip to Washington.

"I went there," he said, "in the interest of the queen to prevent if possible,

any injustice being done. I favored the appointment of a commissioner to examine into the state of affairs before judgement was pronounced and I have secured my point. I have brought back no assurances to the queen, but I believe her best assurance lies in the fact that Mr. Blount was appointed and has been sent here."

Commissioner Castle said that a reaction had set in in the United States, and there was no use in denying it, to a certain extent it was against annexation, but he said there was no reason to infer that Cleveland was hostile to the annexation policy.

### ONE NOMINATION UNCONFIRMED.

Washington, April 15.—The senate held its last executive session this afternoon and every nomination by the president up to date was confirmed with the exception of Hewson Lannon to be United States marshal for Delaware, which was sent in today.

### GOLD RESERVE REACHED.

Gold Certificate Issue Will Be Suspended for the Present.

New York, April 15.—An order was received at the sub treasury at New York today suspending the issue of Gold certificates in accordance with the provisions of the act of congress of July 12th, 1882, which says that when the gold coin or bullion held in the treasury for redemption of United States notes falls below \$100,000,000, the issue of certificates shall cease. The gold certificates in common use are those issued under the act of July 12th, 1882.

The acting assistant secretary of the treasury says that it simply means that he is carrying out the provisions of the law. It does not mean that the government will receive deposits of gold coin and refuse to pay back in kind. Any one who deposits gold coin here will receive legal tender notes. In other words instead of issuing for gold deposits, certificates, which are necessarily redeemable in gold, the treasury will issue legal tender notes for which gold will always be paid if demanded. The only difference which stopping these certificates makes is that the treasury department will not issue them for gold as it has been doing. The secretary is merely anticipating the withdrawal of gold which will probably be made for shipment for the next Tuesday's German steamer. There is no reason for uneasiness because of the step taken by the department. It is the first time the issue of certificates has been suspended, because it is the first time the gold reserve has been almost reduced to the \$100,000,000 point, with immediate exports expected. Under the previous act their issue was suspended by Secretary Sherman in 1879.

Washington, April 15.—The contingent export of gold from this country to meet the Austrian demand has reduced the free gold in the United States treasury to \$1,800,000. It is the belief that gold will continue to be exported for some time, and in order to supply the demand for gold and replenish the depleted stock in the New York sub-treasury, the department has been shipping gold from the treasury here to New York for the past week. The amount thus shipped, it is thought, is not less than \$10,000,000, and may be more. The statement of the condition of the treasury made daily to the secretary of the treasury shows that the net balance is gradually crawling up, being today \$25,593,139. Of this sum, \$12,000,000 is in subsidiary coin and \$13,593,139 in national bank deposits. Secretary Carlisle today directed the sub-treasurers throughout to issue no more gold certificates as present. The announcement for the first time since specie payments were resumed that it is necessary to stop the issue of gold certificates is followed by a rumor that the president has decided to issue \$6,000,000 of four per cent bonds to protect the gold reserve in case it becomes necessary.

Washington, April 15.—The president has sent to the senate the nomination of John H. Wise, of California, for collector of customs of San Francisco; Joseph S. Miller, of West Virginia, for commissioner of internal revenue.

### DESCENDANTS OF COLUMBUS.

New York, April 15.—The steamer New York arrived this morning. The Duke of Veragua, a lineal descendant of Columbus, is on board, accompanied by his wife, son, and a number of Spanish grandees, direct descendants of the famous discoverer.

### SNOW IN NEW YORK.

New York, April 15.—Advises from various points in the western and northern parts of the state are to the effect that snow began falling last night and still continues with no apparent prospect of ceasing. It is already four to six inches deep, and the temperature is down to 20 degrees.

### SNOW IN OHIO.

Cleveland, April 15.—A blinding snow-storm prevailed in the northwestern parts of Ohio since last evening. The snow is six inches deep and is still falling.

### AMERICAN RAILWAY UNION

To Unify the Interests of Railroads and Employes.

### BLOODY RIOTS IN BRUSSELS

A Tacoma Tragedy—Prairie Fires in Kansas—A Youthful Suicide—Chinese Murdered.

Associated Press.

Chicago, April 15.—The men who for several days have been laboring on the formation of an American Railway Union, today completed the first step in the enterprise and issued a lengthy document setting forth the outline of the organization. The union proposes to enlist as far as possible all railway employes of every description and its avowed object is the abolishment of strikes and boycotts and the eradication of the heavy taxes and dues which members of the various organizations are now compelled to pay. Besides the regulation of labor troubles the organization contemplates several issues, such as an insurance department and an employment bureau.

### BLOODY RIOTS IN BRUSSELS.

Brussels, April 15.—There was a bloody riot at Jolimont last night. The strikers attacked the police with sticks and stones, and they were finally compelled to draw their swords and lay about them before the mob dispersed. One woman was killed and three strikers severely wounded. Further trouble is feared.

In Ghent today the strikers, incensed by a number of weavers who refused to quit work, attacked them, severely injuring many. When the police interfered, the mob turned on them and wounded some with stones, and put them to rout, leaving the rioters in possession of that part of the town. Finally a detachment of cavalry appeared on the scene, charged the rioters and scattered them, trampling one and wounding others with their sabres.

### LABOR TROUBLES IN BELGIUM.

Brussels, April 15.—At Trazegnies tonight, a severe conflict took place, the working people strenuously resisting the orders of the police and the military to disperse. The soldiers at length charged upon the mob killing one man and wounding a woman. The rioters then scattered.

At Amsterdam the conflicts between the police and socialist rioters were renewed tonight, the socialists parading the streets and acting in a most disorderly manner challenging the police to combat. The police armed with swords attacked the rioters, several of whom were injured.

### MURDER AND SUICIDE.

Tacoma, Wash., April 15.—A Fair-haven special to the Ledger says: Charles Schmidt aged 40, shot and mortally wounded Henry Horn, aged 48, this afternoon, and then shot himself, dying in a few minutes. Horn lingered till this evening, when he died. The men were running a chicken ranch together and quarrelled over a division of the profits. Horn took a calf to town and sold it today, and on his return Schmidt met him with a double barreled shot-gun and fired a charge into his abdomen. He then beat him to death. Schmidt then fired a charge into his own abdomen.

### A CHINESE MURDERED.

Oregon City, April 15.—Word was brought from Mullino, this morning, stating that a Chinaman had been murdered yesterday, it is thought, by other Chinese. The coroner and sheriff have gone to the scene of the crime to hold an inquest. None of the particulars are known.

The coroner held an inquest today over the body of the Chinaman who was found murdered at Mullino. The coroner's jury found that he came to his death from a gunshot wound at the hands of an unknown person. The officers are endeavoring to find a clue to the guilty parties. There were three bullet holes in the body, any one of which would have been fatal. He is supposed to have been murdered for his money, as he was known to have had a considerable sum in his cabin.

### FIERCE PRAIRIE FIRES.

Topeka, Kas., April 15.—Reports continue to come in of disastrous prairie fires in the western part of the state. The most disastrous one yet reported, occurred in Hodgman county on Thursday. It swept over the southern half of the county destroying everything in its path.

### ALMOST DROWNED HIM.

Tacoma, Wash., April 15.—Joseph Wintermute and J. W. Grygs, proprietors of a shingle mill at Crocker, swore out a warrant here today for the arrest of Frank Carner, John Carner and Chas. Florry, for assault and battery.

The complainants say that defendants shut off water from the mill on Friday and in trying to stop them they were attacked and injured. Wintermute was held under a stream of water until he was nearly drowned. Wintermute claimed that Carners were interfering with the running of the mill to drive him from their part purchased property Carners formerly owned the mill.

### UNION SHIPPING MEN TO STRIKE.

London, April 15.—A meeting of the various union men in the shipping trade in London, have decided to go on a sympathetic strike on Monday, all over Great Britain, in aid of the Hull strikers. It is doubtful if the unions will endorse the action. The Hull strikers, seeing their strike a failure, made overtures to the shipping masters today, but their overtures were rejected.

### UNREQUITED LOVE PROVES FATAL.

Seattle, April 15.—Wm. H. Sarborn, the 18-year old son of a wealthy merchant shot himself through the heart this morning while in bed with his younger brother. It is believed the cause of the deed was a love affair, though no letters have yet been found. The young man's father was formerly in business in San Francisco.

### COST OF THE WORLD'S FAIR.

Chicago, April 15.—The report of the World's Fair auditor to the end of March shows that the work has already cost over sixteen millions of dollars. The cost separate from the opening, will be about twenty millions of dollars.

### COLUMBUS CARAVALS COMING.

Havana, April 15.—Three Spanish war vessels started from Havana at noon today, having in tow the Columbus caravals Santa Maria, Pinta, and Nina, on the way to take part in the great naval review at New York.

### EXHIBITS BEING RUSHED IN.

Chicago, April 16.—The exhibits are now coming into the World's Fair ground at the rate of three hundred cars per day.

### Along the Wharves.

The Manzanita will go out this morning about 4 o'clock to meet the Columbus and escort her into port. The new tender should arrive here between 10 and 11 o'clock if the weather proves favorable.

The steamer Augusta sailed for Tillamook yesterday morning.

The steamer No Wonder arrived from Portland yesterday morning. She will tow a raft of logs up to the Welder Mill.

The schooner Enterprise, lumber laden from Astoria, has arrived at San Francisco.

The ship Ivy, which was towed to Vancouver, B. C., from this port, has loaded lumber for Wilmington, Delaware.

The steamer Haytian Republic arrived in from British Columbia points last evening.

The British ship Olmara, 1355 tons, Captain Brown, is on the way to this port from San Francisco. She has been chartered to load here.

The steam schooner Harrison is at present lying in Neustock Bay.

The steamer R. P. Elmor arrived in from Tillamook last evening.

A crew will probably be engaged tomorrow for the tug Columbia, which will take the place of the Astoria while the latter is undergoing repairs.

The tug Astoria was taken inside the slip at Flavel's wharf yesterday.

The steamer Ocklashama arrived down from Portland yesterday. She will tow the British bark British Army up the river.

The former owners of the wrecked steamer Michigan are once more in possession of their ship, a satisfactory agreement having been reached between them and Collector Milne, says the Victoria Colonist. The owners have chartered the steamer Mascotte to save the vessel and to remove all that can be obtained from her.

The British Admiralty has decided that in the future the standard and steering compasses of ships are to be lighted by electricity instead of by oil lamps. Each standard and steering compass is to be fitted with two sixteen candle power incandescent lamps, capable of being switched on singly or together, the lamps being placed on opposite sides of the interior of the binnacle below the compass bowl.

The court of inquiry into the burning of the British ship King James has exonerated the captain and officers of all blame and find that the coal was very wet when loaded.

### CITY PHYSICIAN'S NOTICE.

The attention of the physicians of the city is respectfully called to the ordinance requiring every case of contagious disease to be reported immediately to the health officer. Only one case has so far been reported.

M. M. WALKER, M. D.,  
City Health Officer.  
Astoria, April 15, 1893.
