TODAY'S WEATHER.

Portland, Or., April 20.-For Oregon and Washington: occasional light rains.

Local weather for the twenty-four hours ending at 5 p. m., yesterday, fur- as our city council. nished by the U. S. department of agri culture, weather bureau:

Maximum temperature, 51 degrees. Minimum temperature, 44 degrees. Precipitation, 3.40 inches. Total precipitation from July 1st,

1892, to date, 75.50 inches, Excess of precipitation from July 1st 1892, to date, 7.70 inches.

AN OPEN OPPORTUNITY.

The National Bulletin, of recent date published at Washington, D. C., has an article contributed by Elizabeth Cady Stanton, that contains many suggestions of great practical value. Her remarks are especially directed to this city of Chicago principally as a sanitary precaution during the continuance of the exposition, but they apply with equal force to other cities and towns,

"They will see papers of all sizes and colors, nut shells, apple, orange and banana skins sown broadcast in our sidewalks, cars, and all public places, mixed with catarrhal, consumptive and tobacco expecorations, enough to nauseate anyone not acustomed from in fancy to see these disgusting sights. You mover see papers scattered about in the streets of London or Paris, nor anything on the floors of even a third class car in England. But in our American cities and villages papers are flying in all directions, and our cars, especially in the West, are more like pig pens, at the end of a day's journey, than traveling conveyances for the sovvreign people of a great republic,"

"But to take the nuisances in the easily disposed of, though most glaring in appearance. They are an element of danger, too; blowing about, they frighten horses, and carry diseases from one neighborhood to another."

"Each mistress of a house should atthat all refuse papers in her domain are burned on her premises, either in the range, the furnace, or the pavement in her back yard, or in the gutter in front ash barrel, to be blown through the streets as soon as the ashes are emu tled. Women should teach the mer of their families to do the same in their places of business, and not allow th janitor to sweep out bushels of paper to litter up the streets, as is often the case just after they have been nicely cleaned. If we have any city ordinances forbidding people to throw refuse into the streets, we must ask to have them printed in large letters and posted in all places; in our schools to commence an educational work with our children, and in our kitchens to arouse our servants to some thought on this important question. Women should take sufficient pride in their respective villages and cities to see that the laws are not violated and offenders are reported."

"Having disposed of the papers housekeepers can also burn a good share of the garbage. Egg shells, bones coffee grounds, tea leaves and potato skins can all be easily cremated."

"We must begin a thorough educational work with our children, from New York to San Francisco. Teachers must give some lessons on these points in all our public schools, having cards on the walls, forbidding them to expectorate or throw refuse of any

To assist in securing neatness and cleanliness the organization of sanitary leagues is suggested. The league to

appoint a committee to investigate the water sppuly with its probable or pospapers some plain, simple, practical information about cleanliness, disinfection

It is obvious that such a league could find ample opportunity for labor in any city. And if it would be any encourmay be assured that they would probably be as well paid for their efforts

There will be used in the Spectatorio "The World Finder," which is to be an interesting historical feature. They will be manned by able bodled seamen, and will show all the seaman's manipulation of the three famous boats.

The popularity of the Union Pacific is best determined by the superior service it accords to the traveling public in maintaining two daily through trains to Omaha, 8t, Paul, Chicago and points east, thoroughly equipped with all the latest appliances for the comfort and safety of its patrons besides shortening the distance materially with its fast trains. The present train achedule enables passengers to reach 8t. Paul seven hours quicker and Chicago twenty-four hours quicker. Omaha and Kansas City and intermediate points, forty hours quicker than any line from the Pacific Northwest.

Patronise the Northern Pacific railroad if you are going East. Low rates of fare, through tickets, baggage checked to destination. All purchasers of second class tickets can stop over at Portland. Rates of fare same as from Portland.

If you have friends in Europe whose passage you wish to prepay to Astoria, call at the Northern Pacific office, steamer Telephone dock, and make known your wants. Reduced rates via all the leading steamship lines.

All the patent medicines advertised in his paper, together with the choicest sertumery, and tollet articles etc., can be bought at the lowest prices at J. W. Com's drug store, opposite Occident hotel, tetories

Handley & Haas, 150 First street, Portand, have on sale the Daily Astorian, so that visitors need not miss their morning paper when they are here. L. P. Fisher, newspaper advertising agent, 21 Merchants' Exchange, San Fran-cisco, is our authorized agent. This paper is kept on file at his office.

"40 Orange Street, Broeklyn, N. Y., Feb. 11, 1890. "I have used Allcock's plasters for some years for myself and family, and as far as able, for the many sufferers who come to us for assistance, and who come to us for assistance, and have found them a genuine relief for most of the aches and pains which flesh is heir to. I have used Allcock's Plasters for all kinds of lameness and acute pain, and, by frequent experiments, find that they can control many cases not noticed in your circulars.

"The above is the only testimonial I have ever given in favor of any plaster.

Attempt at Suicide.

It Might Have Been Prevented.

[From the Boston Post.] While the walks in the Public Garden write the walks in the Public Carden
were crowded yesterday afternoon about
4.30 o'clock, people near the entrance gates
at the corner of Beacon and Charles streets
were horrified to see a man suddenly plunge a knife repeatedly into his throat and fall to

the ground.

While waiting for a conveyance an officer questioned the would-be suicide, who was about 50 years of age, as to his name, address, and reason for wishing to end his life, but the man steadfastly refused to give any information regarding himself. He was taken to the Massachusetts General Hospital and surgical attendance given him. Although weak from loss of blood it is probable he will recover. About 9 o'clock last night a hospital attendant got a little information from him. He said his name was Samuel D—, and that he came some weeks ago from New Brunswick. The last few days his head has felt queer, and he has been wandering about the city, not knowing which way to turn. What impelled him to commit his rash act he was unable to say.

The above is the familiar but terrible

The above is the familiar but terrible story of the results of mental derangement caused by overstrain of the nervous system. People who have dizziness, headache or back-ache, or who are troubled with melancholy or

despondent feelings, are already well on the road which leads to insanity and suicide.

"Dr. Miles Medical Co.: I cannot find language in which to express my appreciafrom the use of your Restorative Nervine. When life became a burden I would use the Nervine to soothe my weakened nerves, and to calm my exhausted and irritable brain."
