Fixtures, show cases, two large stores, and elegant cash register for sale cheap.

LEE KOHN, Manager.

THE UNION PACIFIC DIRECTORY

There Will Be but Little Change in Its Personnel.

GOULD AND DILLON'S SUCCESSORS

A Highly Satisfactory Report Made to the Stockholders—The Earnings of the Past Year.

ERICSSON'S STATUE UNVEILED.

New York, April 25.—The day opened with the unveiling of the bronze statue of John Ericsson, the inventor of the monitor, in Battery park. The ceremonies were simple. It was presented to the city by the Swedish citizens and accepted by one of the park officials on behalf of the city. The unveiling was preceded by a procession of Swedish societies. Next came a great pageant of warships moving up in columns from the lower bay to anchor in the Hudson river opposite Manhattan island, where they will be till President Cleveland passes between the lines to review them tomorrow, which will be the gala day of the celebration.

RIOTOUS STRIKERS.

Kansas City, April 25.—The strikers of the Santa Fe mechanical department at Argentine celebrated their return to work last night in a peculiar manner. At the close of the day's work the ex-strikers gathered in a body, drove the non-union men by force from the yard, then went to the boarding cars where the non-union men have been housed, and wrecked their interiors after having driven out the cooks and other employes. Then hiring a brass band, they paraded the streets, visiting all the saloons which provided free beer for the crowd. The company will probably take action against the ringleaders.

PRESIDENTIAL APPOINTMENTS.

Washington, April 25.—The president announced the following appointments: Government directors for the Union Pacific, Henry F. Dimock, New York; Don M. Dickinson, Michigan; J. W. Doane, Illinois; Fitzhugh Lee, Virginia; James W. Haddock, Nebraska. David G. Browne, collector of customs for the district of Montana and Idaho.

CARLISLE'S SUBSTITUTE.

Washington, April 25.—The president today designated Assistant Secretary Aminta to act as secretary of the treasury in the absence of Secretary Carlisle, who leaves this afternoon with the president and other members of the cabinet for New York to be absent a week. The situation today shows improvement.

RECOMMEND LOW RATES.

Ogden, April 25.—The trans-Mississippi congress began its morning session by passing a resolution calling on railroads to place the rates to the World's Fair at such a figure as will enable the masses in the west to attend. The Nicaragua canal scheme was then taken up.

SUNDAY OPENING OF THE FAIR.

Chicago, April 25.—The national World's Fair commission in session this afternoon considered the question of opening the fair on Sunday. Commissioner Siebeck, of Iowa, offered a resolution looking to inquiry into the legality of the Sunday closing clause.

DENIES THE ALLEGATION.

Topeka, April 25.—Speaker Douglass publishes a card denying he ever said Governor Llewelling could be fixed by railroads, and therefore would not call an extra session. The governor had said to a reporter that he had heard Douglass make such assertions.

AUDUBON'S MONUMENT.

New York, April 25.—The monument to the memory of John James Audubon, the famous naturalist, was unveiled this afternoon in Trinity cemetery in the presence of many members of scientific societies from different parts of the country.

RAILROAD WAR FORETOLD.

Denver, April 25.—The cut in World's Fair rates made by the Rio Grande company, has created consternation

among railway men in this city. It is generally believed that the cut is the forerunner of one of the greatest railroad wars on record.

THE SITUATION UNCHANGED.

New York April 25.—Sub-Treasurer Jordan received word today that Secretary Carlisle will confer with local bankers this evening. No gold was taken from the treasury in the noon. There is no change in the situation.

WORK OF THE CYCLONE.

Kansas City, April 25.—A special from Oklahoma, says that Norman, situated south of this city, was destroyed by a cyclone last night. Some thirty lives were lost. A large amount of property was destroyed.

A citizen yesterday prevented a Chinaman from driving a broken-legged pig through the streets, and ordered him to get a sack and carry it. The animal's leg had been broken while in transit from Portland. While the Mongolian was away after the sack, the pound-keeper appeared and took possession of the animal. When the owner returned a row ensued, and Captain Hallock had the property restored to its owner.

The 23d regular general meeting of the synod for the Norwegian Evangelical Lutheran Church of America will be held in Our Savior's Church, Chicago, from Friday, the 18th, to Thursday, the 22d of June, 1893. The topics of discussion will be as follows: 1, The superiority of the Lutheran Church, in making her believers sure of their salvation; 2, What is principally needed for raising our Lutheran church in this country; 3, committees report and propositions; 4, the academies of public instruction, institutions of charity and missions of the synod; 5, finances; 6, Lutheran publishing house; 7, election.

The young folks on Second street had lots of fun yesterday afternoon with a drove of hogs which the Chinese brought from Portland. As soon as the hogs arrived in front of Mayor Crosby's house, two of them made a dash for freedom. They climbed the slope and rambled amid the yards and gardens of the heights, causing some alarm to the people there. Two Chinese pursued, but had little success until about fifty boys joined in the chase. One of the hogs was soon driven from the hill. It rushed up street with a Chinese in hot pursuit. The other defied its pursuers for some time, but it was at length forced to surrender and hauled to the drove by a Chinaman. The boys followed up the fun by driving the lot toward Uniontown. The Chinese were delighted that the job had been taken off their hands.

The Oregonian yesterday published the following statement by Mr. W. T. Chutter, of this city, a portion of which will be interesting to Fish and Game Warden McGuire. After referring to the stormy weather and the light run of fish, Mr. Chutter said: "The light run does not worry me much, for the simple reason that I don't see how I can afford to pack salmon at the present price of raw fish. The compromise price, as you know, was five cents per pound, which is an advance of nearly 1 cent per pound over the average price paid last year. This means an advance in the cost of the production of a case of salmon of about 60 cents. Now, if we cannot get an advance in the market for the finished product, it looks very much as if we are out of pocket. Protector McGuire need not be afraid to accept money from the packers to place a patrol boat on the river during the Sunday closed seasons. I have no doubt that there is a great deal of illegal fishing, particularly by independent boats. In fact, very recently I've seen fish which I am certain were illegally taken. Of course, we do not allow our own boats to go out on Saturday night, and we would expect Mr. McGuire to prosecute if he found any traps open, no matter to whom they belonged."

Although nothing definite has been published regarding the result of the conference between Mr. Remington and the subsidy trustees, enough has leaked out to restore the confidence of a large portion of the citizens in the outcome of the railroad question. Mr. Remington left last evening to meet some parties interested in the matter, but before leaving he said that Astoria would surely have a railroad in the near future. "That much I will say," he said, "but there are reasons for my failure to be more explicit at this time. I will add, however, that if the Union Pacific does not build the road, I shall, and I have made all necessary arrangements to do so. Personally, I am satisfied it would be much better were the road to be built by the Union, as that would give this city transcontinental railroad connection at once; but if that company does not build, there will be no delay in resuming operations on the road. A few days will settle the question."

It is Mr. Remington's intention to locate in this city, and engage in the importing and exporting business. At the present time he is interested in a great number of manufacturing enterprises throughout Utah.

THE FEATURES OF THE FAIR

A Correspondent Gives an Interesting Description.

THE PROGRAM OF ARRANGEMENTS

Special Exercises for Nearly All of the States to be Held—Royalty's Representatives.

Special Correspondence.

Chicago, April 25.—Special days are to be a great feature at the World's Fair. Nearly, if not quite every state in the Union will have its day, upon which special exercises will be held, and its governor and staff, other state officers, militia, and thousands of its distinguished and other citizens will be in attendance. Receptions will be held at the state buildings, respectively, and the governors and others will make speeches. Many musical, civic and secret societies also have made application for a special day upon which to hold exercises peculiar to themselves. Among them are the Masons, Odd Fellows, Knights of Pythias and Foresters. The Welsh Eisteddfod will have an entire week for a musical celebration. It is believed that these special features will draw many additional thousands of visitors to the fair. Arrangements for these special days are being made by Colonel Culp, secretary of the ceremonies committee, which had the dedication day exercises in charge.

The "White City," as the grounds and buildings are terminated, has the equipment of a model municipality. It has a combined water capacity of 54,000,000 gallons a day, and will soon have 100,000,000. It has 25 miles of water mains and 291 hydrants. A hundred more will be provided. There are three steam engines, four chemical engines, a ladder truck, water tower, forty hose carts, 26,750 feet of hose, 1,650 hand fire extinguishers, 2,500 fire pails, a steam fire boat, sixty-five firemen, 150 alarm boxes, 150 patrol telephones, 500 guards, complete electric light and sewerage systems, etc., etc. By the time the fair opens many of these facilities and equipments will be greatly increased and perfected.

The American Library Association, which has the co-operation of nearly all the great libraries of the country, will make a notable exhibit. It will include samples, models and photographs, showing articles and mechanical devices in actual use; printed matter, forms, blanks, constitutions, by-laws, rules for subscribers; accession departments and their management; catalogue classification and reference department, with samples of binding, temporary covers and receipts for restoring, mending and cleaning; shelf and building departments; and an architectural exhibit showing plans, elevations, perspectives and models of the best library buildings. There will also be a model library of 5,000 volumes, selected from lists prepared and sent in by the various librarians of the country.

The British section will be decorated in part by some seventy banners bearing respectively the arms of different municipal corporations in the kingdom, such as London, Edinburgh, Dublin, Ayr, Canterbury, etc. The British Royal Commission invited the corporations to furnish the banners, and some loaned those they possessed, while others had their official insignia reproduced for the occasion.

The Patterson and Newark mills of New Jersey will make a splendid silk exhibit. The silk in all its stages of manufacture will be displayed, together with the silk worms and cocoons from which the silk threads will be spun and passed through various manipulations until they appear in the finished silk texture ready for the market.

The Queen Regent of Spain will be represented by the Infanta Eulalia and her husband, Prince Antoine. The Spanish cabinet has sanctioned their visit as representatives of Queen Regent Christiana. The Infanta Eulalia was born February 12, 1864 and is, therefore 29 years of age. She was married to Prince Antoine, son of Prince Antoine d'Orleans, Duke of Montpensier, February 28, 1886. The Infanta Eulalia is the youngest sister of King Alfonso.

The Royal Chorus Society of Belgium, more than a hundred strong, will visit the World's Fair and take part in the concerts in Choral hall. The chorus recently gave a series of concerts in London for charitable purposes, and was received with enthusiasm.

An English salt concern has made a salt statue, modeled after Barthold's "Liberty Enlightening the World," in New York harbor. The statue is 5 1/2 feet high and stands on a rock salt base 7 feet high. The salt was taken from a mine 250 feet deep. The English firm will send it as an exhibit to the World's Fair.

The king of Siam, at his own expense, has decided to make an interesting display

in the manufactures, agricultural and forestry buildings, and will also erect a royal pavilion of elaborate carved woods.

In the Fine Arts exhibit will appear three pictures from Windsor Castle, loaned by Queen Victoria, and several from the Prince of Wales' collection.

The Japanese royal family will also be represented. It is announced positively that the eldest son and probable successor of the Mikado will visit Chicago in September.

The list of Germany's exhibitors contains 5,077 names. Representing in it 230 cities and towns of the empire, and of these forty cities send more than ten exhibits each. Berlin leads with 283 exhibits; Munich follows with 187; Leipzig with 149; Frankfurt, 55; Hamburg, 67, and Chemnitz, 41.

The Emperor William of Germany has shown his appreciation of the World's Fair and especially his respect for Director General Davis, by authorizing Herr Fernumth, his Imperial World's Fair commissioner, to present Colonel Davis an elegantly bound work bearing on the discovery of America. The German title is "Die Entdeckung Amerikas." This work was issued by the Geographical Society of Berlin in commemoration of the 400th anniversary of the discovery of America. Toward the publication of the work Emperor William has himself contributed a large amount of money.

Visitors from England and Canada will have the opportunity of enjoying the comforts and privileges of a first-class club during their stay in Chicago. The British and Canadian Exchange Club has recently been incorporated and has engaged commodious rooms on the second floor of the Auditorium. S. Ferd Howe is the managing director of the club, and the project has the approval and assistance of Director General Davis, Lyman J. Gage, Fred W. Peck General Groner, Colonel McKenzie, Major Handy, Judge Gresham and other prominent persons. It will be an Anglo-American club, a limited number of Americans being admitted to membership. The club's quarters in the Auditorium include gentlemen's reading rooms; writing, reception and smoking rooms; ladies' drawing, reception and toilet rooms; postoffice and information bureaus, offices, etc. The reading room will be well stocked with American, English and Canadian publications, and excellent facilities will be afforded for social intercourse, reception and dispatch of mail, cashing of drafts, providing hotel and other accommodations, selection of routes of travel, and in short, nearly everything foreign visitors may desire.

Councilman McGregor was around yesterday securing signatures to the following petition:

"We, the undersigned owners of the north half of blocks 2, 3, 4, 5, and 6, the property north and adjacent thereto in Adair's Astoria, in Clatsop county, hereby agree with each other, that if all the owners of said property agreeing hereto within six months from May 1st, 1893, will dedicate to the city and the public for the use of a street, a strip of land along the north side of said blocks sixty feet in width, as a continuation of Second street, and we further agree to also improve the same immediately after said dedication, under the direction of said city, provided that the owners of lots four and five in block one, and lots one and eight in block two, shall so improve Dickenson Avenue as to properly connect Third street with Second street; provided further, that a sufficient number of property owners on Second street shall agree to open and improve said Second street to Alderbrook so that the same shall be done at once."

As the advantage of opening this street are so very apparent, no trouble is anticipated in securing the signatures of all of the property owners.

Representative O'Donnell, of Cook county, Ill., has introduced a bill to enable boards of education in cities having a population of over 40,000 inhabitants, to establish and maintain parental schools. The bill provides that the board of education shall have power with the concurrence of the common council, to purchase the necessary ground and erect the necessary buildings for such schools; but it shall be the duty of the board to exercise the same superintendency and control over such schools as over the public schools.

If any boy is guilty of habitual truancy, or of persistent violation of the rules of the public schools, he shall, by the consent of his parents or guardian, be committed to such parental schools. Any person having under his control a boy between the ages of seven and fourteen years may petition the judge of the county court to commit such boy to such school until he arrives at the age of fifteen years, but such person shall furnish such boy suitable clothing necessary for his comfort and protection.

THE WIRES DOWN.

The Western Union wires were down last night, and in consequence only a portion of the Astorian's usual telegraphic news is published this morning. The break will probably be repaired today.
