TODAY'S WEATHER.

Portland, May 5.—For Oregon and Washington, fair weather, slightly warmer.

ELECTROCUTION IN NEW YORK.

If the statements recently made by M. d'Arsonval, the distinguished French scientist, are reliable, and there will be found few men with the hardihood to contradict him, Carlisle W. Harris, the condemned murderer of his girl wife, will follow the route to eternity taken by other murderers in New York since the enactment of the electrocution law, and die not by an electric shock, but under the dissecting knives of the surgeons who will perform the autopsy on the body.

FUNERALS.

THE BOISTEROUS ATLANTIC.

Is a terror to timid voyagers, scarcely less on account of the perils of the deep than the almost certainty of sea sickness. The best curative of mal de mer is Hostetter's Stomach Bitters, which settles the stomach and prevents its disturbance. To all travelers and tourists, whether by sea or land, it presents a happy medium between the numerous or ineffectual resources of the medicine chest, and the problematical benefit derivable from an unmediated alcoholic stimulant, no matter how pure. The jarring of a railroad car often produces stomachic disorders akin to that caused by the rolling of a ship. For this the Bitters is a prompt and certain remedy.

THE REMARKABLE PROGRESS OF THE REPUBLIC OF FRANCE.

The remarkable progress of the republic of France during the last twenty years must be a source of alarm to the monarchies of Europe. It has weathered storms that a few years ago would have overthrown any government France possessed. The eyes of many of the subjects of these foreign powers will be opened during the next few months by the evidences of the marvellous development of this country, the greatest republic that the world has ever seen.

Since its first introduction, Electric Bitters has in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant. It is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys—it will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. have been compelled to forego the innocent recreation and opportunities for instruction incidental to a visit to the great exposition. The decision of some of the large manufacturing concerns that in case of the closing of the fair on Sunday, they would suspend operations on the following day, no doubt was an important factor in defeating the scheme, but to the better influences throughout the country can be mainly attributed the credit for the decision just reached.

Democratic papers throughout the country are exulting over the fact that there are about one hundred postmasters appointed daily. At the rate of a hundred daily some of the successful applicants for the position of postmaster would be compelled to wait nearly two years. This is a rather discouraging prospect.

PERSONAL MENTION.

Mr. J. Morton, a well known Eastern cigar dealer, is in the city. Mr. F. C. Savage of Portland came down the river yesterday morning. Mr. W. Clode, of the New York Life Insurance Company is in town.

TOO OFTEN THE CASE.

A young society lady, after a round of gayety, becomes suddenly conscious of an unusual sensation. She has frequent attacks of dizziness, her back aches, and she feels blue and generally run down.

THE BEST

Is the best Blood Medicine, because it assists nature to throw off the impurities of the blood, and at the same time tones up the entire organism. This is just contrary to the effect of the various potash, mercury, sarsaparilla mixtures, which build up the impurities in the system, thus producing much sickness and suffering. Therefore, for a

THE MOUND-BUILDERS,

THEIR WORKS AND RELICS.

REV. STEPHEN D. PEET, Ph. D., EDITOR OF AMERICAN ANTIQUARIAN.

Author of Animal Effigies and Emblematic Monuments, etc.

This book treats of the Mound-builders; their occupation, modes of life, religious systems, tribal divisions and early migrations.

The work contains descriptions of the earthworks of all classes. The classification of the mounds is made according to their uses, whether as village residences, as defenses, as religious structures, or as sacrificial or burial places.

The work contains many illustrations and descriptions of Mound-builders' relics, especially pipes and pottery.

The value of the book is that it contains a comprehensive view of the whole field, and gives information about the mounds and relics of all tribes and districts. It is one of a series which is devoted to pre-historic America, and perhaps would be regarded as the most interesting volume.

The author sells it subscriptions. Orders can be sent to the publishing house, 125 Walbach avenue, Chicago, or to the author at Avon, Ill.
