SKIN DISEASES.

What spectacle is more disgusting than that of a man or woman with a skin disease which shows itself in pimples or blotches on hands, arms, face or neck? It is simply impure blood. See what Brandredth's Pills did for a chronic case. for a chronic case: George Chapman, Pincening, Mich,

"For four years I was in the mount-ed infantry in the U. S. Army, residing during that time principally in Texas. Almost all of that time I had a chronic Almost all of that time I had a chronic skin disease, characterized by an eruption over the entire surface of my legs and thighs, arms and chest. The doctors termed it eczema. I had given up all hopes of ever being cured, when Brandredth's Pills were recommended to me. I concluded to try them, and have thanked God daily since then that I did so. I used them for about three months, and by that time, was completely cured and have never had any trouble since."

Washington, May 12.-The finances of the nation, like the blood of an individual, cannot be trifled with without danger. Up to this time the administration has followed the conservative as a natural consequence, it has been supported by patriotic citizens, withdanger has been averted. But now, if the administration are telling the truth, It is meditating a change, and a very dangerous one at that. According to these men the president has determined, in order to compel congress to unconditionally repeal the Sherman silver law, to so manipulate our finances as to create a popular fear of a panic, and then to charge it all to the operation of the Sherman law, This is a short-sighted policy, and if it be really carried out it cannot fail to react with deadly consequences upon its author. There are plenty of republicans in congress-Senator Sherman among themwho would be willing to vote to repeal the present silver law, but there is not one of them who will support a policy which will risk a financial panic in order to frighten congressmen into voting for its repeal.

It is well-known now, and was equally well-known when Mr. Cleveland was nominated and elected upon a platform which was interpreted to mean a gold basis for the gold men and free silver for the silver men, that his special habby was the repeal of the silver law. It is also well-known that he has refused patronage to those democratic senators who will not promise to vote for its repeal. But these things do not effect the country at large; therefore no one seriously objected. But the case is very different when it is proumn pages, in a neat attractive cover, posed to adopt a course that may effect disastrously every person in the United States, as he will soon find out if he persists in it.

Secretary Carlisle has made a personal investigation of the charges made by New York publications against the official integrity of Assistant Secretary Spaulding, supervising special agent Tingle and General Tichenor, president of the board of general appraisers at the port of New York and as a result authorized the publication of a statement affirming their innocence of the charges. The charge was that of undervaluing the importation of favored firms. As the officials mentioned are all hold over republicans their exoneration by Secretary Carlisle is highly creditable both to him and to them.

Senator Brice has been among the democrats "outside the breastworks" ever since the new administration began business. The other day the president, seemingly in a spirit of conciliation, asked Mr. Brice to name a good man for third auditor of the treasury. Mr. Brice submitted three names, either Every ten weeks a new set of ten of which would have been satisfactory to him. Several days later much to the senator's chagrin the appointment was given to John C. Reilley, known to all books that will cost you only \$1.50. TO HELP THE SAILOR.

The following circular under date May 9th '93, has been generally circulated in San Francisco: For sometime past the question of providing in San Francisco an Institute for Seamen, similar in organization and purpose to those which are in entirely successful operation in most of the other large seaports of the world, has been under consideration. At a meeting convened by circular, held at the Occidental Hotel last month, the undersigned were appointed a provisional committee to investigate the willingness of the community to inaugurate and support Is a pleasant drink, which will be borne by the stomach without nausea or griping. It acts thoroughly on the liver, kidneys and reproductive organs. A gontle physic, efficient diuretic, and is most useful in scant or painful menstruation. It aids digestion and reduces corpulency; clears the complexion, rendering it fair, and restoring the natural tone of the skin, for it removes the bile, which by accumulation, produces the sallow, muddy complexion, peculiar to the constipated. Sold by all druggists. large promises of support and the purpose of building a cotton factory committee were encouraged to believe to employ only negroes. the proposed institute, would, on a \$600,900,000 and \$7000,000,000.

more extensive appeal, be forthcoming. They have, therefore, rented the first and second floors of the building No. From Washington 33 Stuart street, close to the water front, entirely suitable in location, and propose to furnish and equip them in a similar manner, Towards this end and the general purpose of the institute they now appeal for that substantial and pecuniary aid, which it is believed consideration of the benefits to accrue to seamen and, therefore, to this community where they are always present, will be secured to them. The intention is to plainly and suitably furnish the rooms, very much after the manner of a social club. The furnishing they now appeal for that substantial line laid down by its predecessor, and munity where they are always present, out regard to political affiliation, and the rooms, very much after the manner of a social club. The furnishing would include reading and writing tables, etc., etc.; also an equipment of newspapers, books, magazines, etc. Provision would be made for the supplying of light refreshments, for social games, such as billiards, etc., for concerts and similar entertainments, and on Sundays for a more or less informal religious service. The rooms, the committee believe, are admirably suited for all these purposes. There exists a general impression that the sailor is incapable of appreciating and availing himself of the advantage such an institute would provide, but the committee is assured that the experience of other seaports, where such institutions exist, has demonstrated to the contrary. It may serve the purpose to about one thousand sailors. It is estimated that probably 25,000 sailors annually visit San Francisco, many of them are long voyage men who are debarred for long months and years from all the advantages of what may be termed ordinary social or home comfortst They are strangers or reaching our port and in too many cases the only doors open to them are those of the "saloons" and "dives" of qur city. It seems only reasonable that a community, which after all is so dependent for its material prosperity on the fact that its Golden Gate is open to the fleets of the world, should provide some haven of comfort for the sailor. The committee venture to think that the community only need to be appraised of the fact that is decided to make the experiment now proposed to insure the success of their effort. They appeal to the generosity of their fellow citizens in the belief that they will not do so in vain. The committee need money, and would also appreciate gifts "in kind," suitable for the furnishing of the rooms-pictures, furniture, etc. Also for the equipment of the reading rooms, newspapers, magazines, books, etc. Money subscriptions may be made payable to the Treasurer, Mr. James Hogg, Sperry Flour Co., 134 California street ,who will also receive offers of any "gifts in kind."
