TODAY'S WEATHER. Portland, May 20.—For Western Oregon: Clearing, followed by fair; warmer weather.

For Western Washington: Occasional showers followed by clearing weather.

For Eastern Oregon and Washington: Fair weather, except preceded by showers in Northern Washington.

Local weather for the twenty-four hours ending at 5 p. m., yesterday, furnished by the U. S. Department of Agriculture, weather bureau.

Maximum temperature, 67 degrees. Minimum temperature, 44 degrees.

Precipitation, 0.1 inch. Total precipitation from July 1st, 1892, to date, 81.07 inches.

Excess of precipitation from July 1, 1892, to date, 9.13 inches.

LUMBER INTERESTS. President James J. Hill of the Great Northern Railway announces through rates for lumber from Duluth and West Superior to New York, Boston and other eastern markets.

Clatsop county's contribution toward the support of the state last year was, in round numbers, about forty thousand dollars, while other counties with several times the wealth of this contributed less than three-quarters of that sum.

In this city there are about forty Chinese merchants; in Portland there may be 200. We mean actual merchants in the sense of the Geary law.

It is to be a fight to a finish this time in Portland. Both democrats and republicans have nominated straight tickets and will fight it out on that line.

What is the chamber of commerce doing? Are there no questions of public interest on which it has a word to say? Good, lively discussions are preferable to this profitless silence.

FUNERALS. E. W. Kuykendall, the leading undertaker, having completed arrangements to purchase goods direct from the factories, regardless of middle men, has made a great reduction in the cost of funerals.

DANGER! If you have a feeling of oppression and uneasiness a little above the diaphragm, and just below the right ribs, aggravated by lying on the right side, look out! As sure as fate, your liver is disordered.

The comparative over-crowding of some Canadian towns, or rather, the necessity for having the rural districts more thickly settled, has caused the government in Ontario to consider the question of providing a system of normal training whereby the children in the public schools may be taught things that will make farm life more valuable and interesting to them.

For the Next Thirty Days, To meet imperative demands, I will offer at such low prices on installments, with easy payments, that

child would doubtless lessen the number of those who hasten cityward. Few country children are taught any botany, or chemistry, or receive any lessons upon the habits of the animals and insects they see about them.

The new invention for use in yacht-building; the "Tobin bronze," will in all probability play an important part in yacht-building in years to come.

The new metal is a remarkable combination of lightness, strength and tensile power, and has consequently been found to be of great value in boat-building. It is especially adapted to the plating of the underbodies of yachts, and is of wonderful value for centre-boards.

Clatsop county's contribution toward the support of the state last year was, in round numbers, about forty thousand dollars, while other counties with several times the wealth of this contributed less than three-quarters of that sum.

Handley & Haas, 150 First street, Portland, have on sale the Daily Astorian so that visitors need not miss their morning paper when they are here.

It should be in Every House. J. B. Wilson, 371 Clay street, Sharpburg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds; that it cured his wife who was threatened with pneumonia after an attack of la grippe, when various other remedies and several physicians had done her no good.

Those who wish to have the finest Showwater Bay oysters or clams by the quart or pint in jars can have them delivered nice and fresh by Honner Fletcher. Orders left at The Astorian office will receive prompt and careful attention from him.

"ART EXHIBIT." The ladies of the library association wish to call the attention of the public to their reception to be given in the library room Tuesday afternoon and evening, May 24. Arrangements have been made to exhibit the beautiful hand painted china done by Miss Laing, of Chicago, and her Astoria class.

THE MOUND-BUILDERS, THEIR WORKS AND RELICS. REV. STEPHEN D. PEET, Ph. D., EDITOR OF AMERICAN ANTIQUARIAN, Author of Animal Effigies and Emblematic Mounds, etc.

This book treats of the Mound-builders; their occupation, modes of life, religious systems, tribal divisions and early migrations. The work contains descriptions of the earthworks of all classes. The classification of the mounds is made according to their uses, whether as village residences, as defenses, as religious structures, or as sacrificial or burial places.

The value of the book is that it contains a comprehensive view of the whole field, and gives information about the mounds and relics of all states and districts. It is one of a series which is devoted to pre-historic America, and perhaps would be regarded as the most interesting volume.

The author solicits subscriptions. Orders can be sent to the publishing house, 175 Wabash avenue, Chicago, or to the author at Avon, Ill.
