As soon as the Kinney pile driver started down in low of a steamer, one of the fishermen gave the alarm, and shortly after the arrival of the drivers about 150 boats appeared, and some 300 men, angry and threatening, stopped the operations. The fishermen say that no traps will ever be driven at the Republic spit, as their lives would be wantonly sacrificed if this were done.

With a fine sense of appropriateness, Romance presents this month a "Special Scandinavian Number," with which to temper the heats of June. More than half the contents of this issue are characteristic stories of "the land of the midnight sun" by its noted writers, such as Bjornson, Boyesen, Kiehlund, Sigurd, Peter Toft and Anna Wahlenberg. The rest of the number is made up of American, English, French and Italian tales, several of which, are specially adapted for summer reading, are delightful love stories. Among the authors here represented are Guy de Maupassant, Lady Lindsay, Julia Schayer, Alphonse Daudet and Prosper Merimee. This periodical comes from Romance Publishing Company, Clinton Hall, Astor Place, New York; 25 cents a number, \$2.50 a year.

The fact has just been disclosed that two more fishermen have been lost. They were Paul Johnson, aged 50, a native of Finland, and Victor Savo, his boat puller. They were in the employ of the Cutting Packing Company, in charge of boat No. 84, and were sailing home about 1 o'clock on Monday afternoon, when the boat capsized opposite Fort Canby. The life-saving crew from the cape saw the occurrence, but before they could reach the overturned boat the unfortunate men had gone down. Johnson leaves a wife and five children in Finland, and it was but yesterday that a letter was received from the wife stating that she was about to leave for this city with her children. Mr. Tallent endeavored to send a dispatch, but learned that there was no wire to the town from which Mrs. Johnson was about to start.

There is a difference of opinion as to the time credited to Tom Foster on Saturday last by the gentlemen who held the watches, some claiming that the 100 yards was covered in 10 1/5 seconds, and others asserting that Foster is unable to make such speed. There were four or five watches which indicated 10 1/4 seconds and less when the tape was broken, and one of them at least was very likely to be correct. It was that held by Mr. David Stark, of the American Casualty and Insurance Company. Mr. Stark is himself an old athlete, and a gentleman who has had plenty of practice in taking time in such events in San Francisco and other parts of California where athletic sports are popular and of frequent occurrence. His time, it is safe to say, was correct, and more than that, Foster "threw away" several feet by his ill-advised habit of looking at opposite instead of keeping his eye on the finish line.

RUSSELL SAGE, The well-known financier, writes: 506 Fifth Avenue, New York City, December 20, 1890. "For the last twenty years I have been using Allcock's Porus Plasters. They have repeatedly cured me of rheumatic pains and pains in my side and back. Whenever I have a cold, one on my chest and one on my back speedily relieve me." "My family are never without them." RUSSELL SAGE.

An Objection to Explosives.

The following will explain itself: Astoria, May 30, 1893.

Editor Astorian: I notice of late that some of the steamers from San Francisco come alongside of the docks with powder on board, in some cases twenty-five to fifty tons or more. Is there no city ordinance to protect us against such risk? And if there is, why is it not enforced? Why do not the council or the police commissioners see to the matter? An explosion of the powder in the steamer now lying at the Main street dock would destroy many lives and thousands of dollars' worth of property. PUBLIC INTEREST.

Section 2 ordinance No. 989, which bears upon such cases as the one referred to above, is as follows: "No steamship, vessel, or other water craft shall enter the city of Astoria while having on board any blasting powder, gunpowder, dynamite or explosive compounds used for blasting purposes; provided, that this section shall not apply to steamships, vessels or other water craft passing up or down the Columbia river to points outside the city limits, and vessels so bound shall not be anchored or moored within said city, or remain within the city longer than is actually necessary in transit." The construction placed upon the above by the authorities is that "in transit" means for a time sufficient to transport the business to be done at this port, as it would be manifestly unfair to prevent a vessel from discharging freight because a portion of it happened to be explosives.

A meeting of the Astoria Football club was held last evening at the store of Mr. James Finlayson, who occupied the chair. Mr. F. W. Gunn, the secretary, and Messrs. Bartholomew, Bennett, Hughes, Tallant, Addis, Weeks, Bradford, O'Hara, Young and Gibson being present. Secretary Gunn made a report, which was highly satisfactory. Officers for the ensuing year were elected as follows: President, James Finlayson, who was unanimously elected. Vice-Presidents were elected as follows: Hon. F. J. Taylor, Rev. W. S. Short and Messrs. C. R. Thomson, G. Wingate, W. T. Chutter and H. C. Thompson and Mr. W. E. Tallant were unanimously elected secretary and treasurer respectively. For captain and vice-captain Messrs. Arthur Bartholomew and R. Gibson were placed in nomination and elected. Mr. J. R. Rathon was elected a member of the club and subsequently to membership in the executive committee, together with Messrs. W. E. Tallant and P. W. Weeks, the captain and vice-captain being ex-officio members. Messrs. J. Finlayson, A. Bartholomew and P. W. Weeks were elected a reception committee to meet visiting teams coming to this city. The dues for the season were fixed at \$1. Messrs. C. Higgins, F. M. Hughes and J. R. A. Bennett were then elected to membership in the club. It was decided to play a game in the near future for the benefit of the Pioneer and Historical Society, for the purpose of making up the deficit in connection with the Columbia River Centennial Celebration last May. The meeting then adjourned.
