UNFAIR ASSESSMENT.

We are glad to see that the tax payers are aroused to the injustice of the high assessment in this county. The sum of \$39,000, which Clatsop county pays for state taxes is largely in access of our fair proportion. It is noteworthy that the state board had to increase the assessed value in twentyone out of the thirty-one countles in

Judged by the rental or any other fair standard, the valuation set on Astoria property is relatively far in excess of that put on Portland building lots and acreage. The time has come for a change in the methods pursued

LET US HAVE PEACE.

It would be well for the country if the tariff and currency could be taken out of politics. We believe that the people would approve of the forming of a high commission composed of eminent men of all parties, for the purpose of framing a permanent plan for raising revenue and regulating the currency. The proposed commission might wisely devote six months to inquiry and deliberation. Its scope might profitably be extended to the banking system with the view of suggesting such changes in the national banking laws as would adapt them to the changes connected with the payment of the public debt which now serves as the basis of circulation. Should the commission devise a wise, equitable policy, based upon sound principles, it would confer almost as great benefits on the country as the convention that framed the federal constitution. The county needs repose. A leading protectionist merchant said to us: "I would rather permanent free trade than the uncertainty which attends constant revision of the tariff." We believe enough patriotic men could be found to rise above party and do the work of the above party and do the work of the processed commission so well that much proposed commission so well that publle opinion would force congress to adopt its suggestions.

Less than ten years ago the Inland Empire exported all the wheat which it sent abroad by way of the Columbia. That was the natural route which should have been able to defy all competitors, but owing chiefly to the lack of a railroad from Portland to Astoria, the Sound has acquired much of the wheat traffic. In the current wheat year, which began September 1, 1892, forty-three ships have salled from the Sound with cargoes amounting to 2,450-793 centals. This is a stubborn fact which Portland and all Oregon must take into serious consideration.

Prince Antoine, the husband of the Infanta Eulalie, appears to receive but little notice from the press or public. It might be borne in mind that he is descended from the royal house of Bourbon, which, in its day, was the friend of American freedom.

The success of Mr. Croker's horses might suggest that Tammany methods have been adopted on the race-track. The chamber of commerce should appoint a special committee to report on the assessment question in all its phases. Our city is feeling the evil effects of high taxes and high rents. The time for action has come.

Those who thought that few Americans would visit Europe this year, were away off on their calculations, Three thousand first-class passengers left New York for Europe on a single day last month.

The nearer the democratic tariff bill, now being prepared, is to free trade. the sooner the republican party will be returned to power by the people whose pockets will feel the change.

There is one consolation in the latest phase of the Hawaiian business Blount's acts since he was appointed furnished by the U.S. Department of minister are at least constitutional, which is more than they were before

Attempt at Suicide.

It Might Have Been Prevented.

[From the Boston Post.] While the walks in the Public Garden were crowded yesterday afternoon about 4.30 o'clock, people near the entrance gates at the corner of Beacon and Charles streets were horrified to see a man suddenly plunge a knife repeatedly into his throat and fall to

the ground.

While waiting for a conveyance an officer questioned the would-be suicide, who was about 50 years of age, as to his name, address, and reason for wishing to end his life, but the man steadfastly refused to give any information regarding himself. He was taken to the Massachusetts General Hospital and surgical attendance given him. Although weak from loss of blood it is probable he will recover. About 9 o'clock last night a hospital attendant got a little information from him. He said his name was Samuel D—, and that he came some weeks ago 10—, and that he came some weeks ago from New Brunswick. The last few days his head has felt queer, and he has been wandering about the city, not knowing which way

to turn. What impelled him to commit his rash act he was unable to say.

The above is the familiar but terrible story of the results of mental derangement caused by overstrain of the nervous system. People who have dizziness, headache or back-ache, or who are troubled with melancholy or Is a pleasant drink, which will be road which leads to insanity and suicide.

THE MOUND-BUILDERS

THEIR WORKS AND RELICS,

—ву—

REV. STEPHEN D. PEET, Ph. D.

EDITOR OF AMERICAN ANTIQUARTAN,

Author of Animal Effigies and Emblemation Mounds, etc.

This book treats of the Mound-builders; their occupation, modes of life, religious systems, tribal divisious and early migrations.

The work contains descriptions of the earthworks of all classes. The classification of the mounds is made according to their uses, whether as willage residences, as defenses, as religious structures, or as sacrificial or burial places.

places.

The work contains many illustrations and descriptions of Mound-builders' relies, especially pipes and pottery.

The value of the book is that it contains a comprehensive view of the whole field, and gives information about the mounds and relies of all states and districts. It is one of a series which is devoted to pre-historic America, and perhaps would be regarded as the most interesting volume.

The author solicits subscriptions. Orders can be sent to the publishing house, 175 Wabach avenue, 1 hicago, or to the author at Avon, Ill.
