Silas M. Smith tells a good story which shows how people put money for safe keeping in pioneer days. Mr. Lamson, whose son is now a prominent citizen of Portland, did business then on the Clatsop plains. Having occasion to visit Astoria he put \$2,500 in gold \$20 pieces in a barrel of flour. Meantime flour fell short at Solomon Smith's, and John Hobson, who lived with him at the time, called at Mr. Lamson's for a barrel. He took one at random and brought it home. In the evening when he opened it, out rolled the gold pieces. He and Mr. Smith were, of course, astonished, and did not know what to make of it. They gathered up the coins and put them safely away. Mr. Lamson returned home the same evening, and on learning that Mr. Hobson had got a barrel of flour, he looked around, and found that the barrel which had the gold was missing. He set out for Mr. Smith's, where he was delighted to find his treasure intact. It may be noted that the barrel contained Chilean flour, for this slope, which now produces millions of bushels of wheat and exports many thousand barrels of flour, then imported flour from Chile.

A TRIED REMEDY FOR BILIOUSNESS.

Those who suffer from disorder or inaction of the liver will never get the upper hand of the unruly organ so long as they use such irrational remedies as blue pill, calomel and opodellyn. But from the tried and popular medicine, Hostetter's Stomach Bitters, they may expect relief with a certainty of obtaining it. The influence of the bitters upon the great biliary gland is direct, powerful and speedily felt. The relief afforded is not spasmodic, but complete and permanent. The saltness of the skin, furred appearance of the tongue, indigestion, costiveness, headache, nausea, pains through the right shoulder, in fact every accompaniment of the obstinate complaint are entirely and promptly removed by a course of this inestimable medicine. In behalf of which testimony is constantly emanating from every quarter, and from all classes of society.

A PLAIN STATEMENT OF FACTS
Figures Showing the Enormous Increase
in Taxation.

NO APPARENT CAUSE FOR IT

County Taxes Raised from \$41,856.37 in 1885 to \$125,405.70 in 1892—Work for the Committee of Nine.

The committee of nine appointed last Saturday evening at the meeting of the property owners called for the purpose of taking steps toward regulating the matter of unjust taxation have been consulting with the two assessors, and it is understood that the city and county assessments will be made on practically the same basis of valuations. The movement has met with no opposition except from a few individuals of communistic sentiments, who never had anything themselves, and who, jealous of those more fortunate, show a disposition to force the latter into bankruptcy, if possible.

Very few people realize how both the city and county assessments have been increased during the past seven years. As long as there was plenty of sale for property no one grumbled, but since the real estate market became quiet there has very naturally been a great deal of just complaint. The records in the office of the county clerk and in the auditor's office contain some information that is interesting and which would be a profitable study for the assessors. In 1885 the valuation of the property assessed for the county and state purposes was \$1,901,667. The taxes amounted to \$41,856.37. In 1886 the assessable property was valued at \$2,111,423, making the amount of taxes \$44,445.45. There was but little difference in 1887, the increase in value being in the neighborhood of \$10,000. In 1888 the figures were raised to \$2,465,627, and in 1889 to \$4,101,293. Then an effort was made to reduce the amount, and a step in the right direction was taken, the assessor having apparently taken the view of the case that is now so plain to all. A 22-mill tax was levied on \$3,416,524, but a great jump upward was again made in the following year, a 19-1/2 mill tax being levied on \$5,160,000, and not satisfied with this, in 1892 the valuation was raised to \$5,700,239. The following table will show the amount of county tax levied each year for the eight years commencing with 1885.

Year	Amount.
1885	\$41,856.37
1886	\$44,445.45
1887	\$45,844.20
1888	\$44,243.79
1889	\$61,237.35
1890	\$75,163.60
1891	\$105,820.00
1892	\$125,405.70

What justification there was for such an increase as is shown above it is difficult to determine.

In the city assessment a still greater increase is found, the valuation being raised from \$1,515,815, in 1885, to \$7,342,856 in 1891.
