A MOTHER'S TERRIBLE CRIME

Administers Strychnine to Her Chil-
dren and Partakes of It Herself.

PROMPTED BY MELANCHOLY

Terrible Fight Presented to the Husband
and Father Upon His Return from
Work.

Associated Press.
Spokane, June 13.—A double tragedy
occurred near Spange fourteen miles
from here, yesterday. Mrs. James Kir-
kendall, the young wife of an indus-
trious farmer, and her four-year-old
daughter, are the victims. The story
is told by the deceased woman's six-
year-old son. The boy says his mother
mixed strychnine with sugar and water
and gave it to him and his little sister
and then took some herself. It tasted
bitter and he spit it out, but his moth-
er and sister swallowed it. They then
went to the woods to pick flowers.
His mother and sister soon fell down,
and were unable to rise. He, becoming
frightened, ran home, and when his
father arrived took him to the spot
where his wife and child lay dead.
There is no cause known for the deed,
as Kirkendall and his wife lived hap-
pily. The evidence pointed so plainly
to suicide and poisoning as the result
of temporary melancholy that no in-
quests were held.

BANK FAILURES.

Yesterday Contributes a Formidable
List of Suspensions.

Omaha, Neb., June 13.—The American
National Bank was closed this
morning by the order of the comptrol-
er of currency. Runs are now in pro-
gress on the Globe Loan and Trust Com-
pany, the Dime Savings Bank and the
Nebraska Savings Bank. No state-
ment of the American bank has yet
been made, but the clearing house re-
fused to assist it.

A run of extensive proportions began
on the Omaha Savings bank at the
opening this morning, and all the morn-
ing the bank was besieged with de-
positors. Senator Manderson and Vice-
President Kimball, of the Union Pacific,
directors of the bank, made
speeches to the crowd, guaranteeing
them their money, but the run con-
tinued. The American Savings bank
and the Dime Savings bank took ad-
vantage of the clause allowing sixty
days grace on deposits.

President McCague of the American
National said this afternoon that his
bank closed with almost \$100,000 in
cash, and the exchange in the bank
and the mail brought remittances of
\$20,000 from New York. He said that
while adverse circumstances had over-
taken the bank, he was positive de-
positors would be paid in full. The
Dime Savings Bank, American Savings
Bank and the Globe Loan and Trust
Company took advantage of the sixty-
day rule, but the other savings banks
paid their depositors in full on de-
mand.

Kansas City, June 13.—As a result of
the suspension yesterday, of the Peo-
ples' Savings Bank, a run was started
on the Kansas City Safe Deposit, and
the Savings Bank this morning. The
bank took advantage of the thirty-
day clause, and at noon the run was
practically over. None of the other
banks experienced a run.

Nashville, Tenn., June 13.—The Nash-
ville Savings Bank Company, of which
Thomas Semar is president, and the
oldest financial institution in Nash-
ville, filed articles of assignment to-
night. The liabilities are placed at
\$230,000 and the assets, according to the
president's estimate, will pay not more
than 25 or 30 per cent.

Moberly, Mo., June 13.—The Ex-
change Bank of Moberly made an as-
signment today for the benefit of its
creditors. No statement has been made
yet, but it is believed payments will
be made in full.

PRECAUTIONARY MEASURES.

Detroit, June 13.—Fourteen savings
banks of this city, in view of the ten-
dency among the depositors to with-
draw their money, have issued circulars
saying they will hereafter require the
notice provided for according to law.

PUBLISHING HOUSE SINKS.

Cleveland, June 13.—A receiver has
been appointed for the Williams Pub-
lishing Company. The firm does a
large business, which will be continued.
The assets and liabilities are unknown.

DRIVEN MAD BY FIRE.

New York, June 13.—A six story
building on Montgomery street, filled
with shops, caught fire at 2:30 this
morning, and in the rush to the street
of 250 people working there, three, in-
cluding two men and one woman, were
killed and several injured. It is prob-
able a search will result in adding to

the death list. The inmates, men, wo-
men and children of all ages, are all
Polish Hebrews. All rushed to the fire
escapes in front and fought there like
demons. The fire department finally
got ladders alongside and assisted
them to escape. Some were driven
stark mad by the fright. It is expected
two or more of the injured will die.

THE COWBOY RACE

The Start Made in the Presence of
Numerous Spectators.

Chadron, Neb., June 13.—The last
doubt as to the cowboy race having
been removed by the agreement that
the representatives of the humane so-
ciety accompany Secretary Wier on
the trip, final arrangements were made
this afternoon. Popular interest cen-
tered in the branding of the horses, of
which twenty were marked with a
small figure two on the neck under the
mane. The racers include some
splendid specimens of Western horses,
all of which are geldings. Horsemen
say the race will demonstrate the su-
perior speed and endurance of range
horses, and they regard it as an event
of much importance to the industry.
The number of starters was increased
to ten by the entries today. At ex-
actly 5:45 this afternoon a crowd of
3,000 people watched the departure for
Chicago. At a signal from a gold-
mounted Colt's revolver fired by James
Hartzell, Mayor Record said to the
riders before starting: "Take good
care of your horses and see to it that
the credit of Chadron and the state of
Nebraska is fully sustained."
The start was made at a jog trot
with a cloud of horsemen, carriages
bicycles crowding the road for a mile
or more ahead.

THE COWBOY RACE

Governor Altgeld Determined to Pre-
vent Barbary.

Springfield, Ill., Governor Altgeld to-
night issued a proclamation to the
state officers of the law in which, re-
ferring to the cowboy long-distance
race from Chadron, Neb., he speaks of
the barbarous manner in which the an-
imals in a similar race were treated in
Europe last year, and says: "Having
reason to believe that the proposed
race will be accompanied by equal or
even more cruelty and barbarity,
which will be in violation of the law
of this state, I hereby call upon all
officers, as well as upon all good citi-
zens, to see to it that no violation of
our law takes place, and that any one
guilty of it shall be promptly brought
to justice."

ROSS CAN BUILD.

Seattle, June 13.—The United States
government has no control over the
lands of the Indians on the Puyallup
reservation, is the decision of Judge
Hanford in the United States circuit
court in the injunction case of Frank
Ross against Indian Agent Ella and the
United States army officers to prevent
interference by the defendants with the
building of a railroad across the land
within the Puyallup reservation, which
has been allotted to individual Indians
in severalty. Judge Hanford granted
an injunction pending a review of the
case.

HIS OFFICIAL VISIT CLOSED.

Washington, June 13.—The Duke
of Veragua, who has been the guest
of the nation for nearly two months, may
now travel incognito. Commander
McKens, who has accompanied the
duke in his travels through the United
States, left him in New York yesterday,
and this morning reported to Sec-
retary Gresham. His charge was at
an end, and from this time on, as long
as he remains in the United States,
the duke will travel as a private citi-
zen and not as a national guest.

INDIAN OUTBREAK POSSIBLE.

St. Paul, June 13.—General Merritt
has received information that Dr. J.
R. Walker, physician and overseer at
Leech Lake reservation, accidentally
shot an Indian and is held prisoner by
the Indians and in danger of his life.
A company of United States troops is
ordered to be in readiness to proceed to
the reservation as quickly as possible.
The situation looks serious, as the In-
dians were recently paid off and are
doubtless drinking.

NOTHING NEW ELICITED.

Washington, June 13.—By the direc-
tion of the commissioners for the dis-
trict of Columbia, the inquest over
the victims of the theater
was continued publicly today
in the Villard's hall. Clerks
and others crowded nearly every part
of the hall. To prevent a repetition of
the trouble of yesterday a squad of
police attended. Neither Colonel Ains-
worth nor his attorney appeared. So
far nothing new was elicited.

HOT WEATHER IN MINNESOTA.

St. Paul, June 13.—The temperature
was 92 in the shade at noon. Hot
weather prevails all over the northwest.

HOT IN WAVE LOUISIANA.

Ottumwa, La., June 13.—The ther-
mometer registered 95 at 5 this morn-
ing, unprecedented for June.

THE FINANCES OF THE NATION

Carlisle Has Something to Say on the
Silver Question.

COINAGE OF RECENT YEARS

The Secretary Makes No Intimation of
What the Policy of the Administration
is Likely to Be.

Associated Press.
Washington, June 13.—A repre-
sentative of the Associated Press had a
chat today with Secretary Carlisle
about the silver situation. In the
course of the conversation the secre-
tary said that from 1792 to 1873, a pe-
riod of 81 years, the total amount of
silver dollars coined was 8,045,838. In
1873 the coinage was stopped by an
act of congress, but resumed in 1878
under the Bland-Allison act, under
which, up to July 14, 1890, something
over twelve years, there was coined
\$389,886,574 in full legal tender silver
money issued by the government since
1878. Of this amount only \$58,016,015
were in actual circulation on the first
day of the present month, the remain-
der being held in the treasury as part
of the assets of the government, rep-
resented by outstanding certificates.
Under the act of July 14, 1890, there
has been coined \$23,408,461, which
makes the total coinage of silver dol-
lars since 1878 aggregate \$419,294,935,
or more than fifty times as much as dur-
ing the previous eighty-one years. The
secretary has purchased, under the act
of July 14, 1890, and now holds in the
vaults of the treasury, uncolored silver
bullion which cost the people of the
United States \$114,299,920, and is worth
today at the market price of silver,
\$103,411,386, thus showing a loss of \$10-
\$88,534. During the last thirteen
months fifty millions' worth of silver
bullion was purchased and all except
\$2,216,011 worth was paid for in gold,
while the bullion itself is in store in
the vaults of the treasury and can
never be sold nor used for the pay-
ment of any kind of obligations. "It is
evident," said the secretary, "that if
this policy is continued, and we are
compelled to issue bonds, or other-
wise increase the interest-bearing pub-
lic debt, it will be done for the pur-
pose of procuring gold with which to
pay for the silver bullion purchased
under the act referred to." The net
gold in the treasury has increased from
\$39,000,000 to \$51,000,000.

EVANS CAPTURED.

Visalia, June 13.—Chris Evans, the
noted outlaw, was captured last night
at the house of widow Perkins, where
he had gone after the battle with the
officers. He was wounded and made
no resistance. He was shot in the
right eye, wounding the eye. Another
bullet plowed across the small of his
back, making a wound nine inches
long. He was also shot in the left wrist,
the ball passing upwards through the
forearm. He was not as seriously
hurt as Sontag, and will have a speedy
recovery. Sontag rallied a little this
morning, feeling much better. Both
bandits are in jail.

GOOD TEMPLARS' CONVENTION.

Des Moines, June 13.—The thirty-
sixth annual meeting of the World's
Lodge of Good Templars convened
here this morning with delegates from
every quarter of the globe.

TO AVERT FURTHER DANGER.

Washington, June 13.—Supervising
Architect O'Rourke today made a pre-
liminary examination of the Winder
building, occupied as the second audi-
tor's office, the building being very
old. O'Rourke said he found it safe,
but unfit for the purpose for which
it was used. He will examine the
other treasury buildings within the
next few days and then take up the
buildings occupied by other executive
departments.

WANT THE RATE WITHDRAWN

Chicago, June 13.—Western roads are
making desperate efforts to have the
Great Northern withdraw its 25 rate
between Seattle and St. Paul, but that
company refused, unless the other
roads withdraw their tourists' service
by June 15th, a demand which it is
practically impossible to grant, and so
the situation looks equally. The re-

PRESIDENTIAL APPOINTMENTS.

Washington, June 13.—The president
today made the following appoint-
ments: Holmes, of Virginia,
to be assistant attorney general; Hen-
ry C. Grady, United States marshal
for the district of Oregon; Daniel R.
Murphy, United States attorney for the
district of Oregon; Thomas J. Black,
collector of customs for the district of
Willamette, Oregon.

THE WILL OF THE LATE MRS. DILLON

The will of the late Mrs. Dillon was
filed in the office of the county clerk
yesterday. Dr. Walker is named as
executor, with power to sell and dis-
pose of the property at such time or
place as shall seem proper to him. A
contest has also been filed by Martin
Dillon, the husband, which will be
heard on July 5th. A determined ef-
fort will be made to break the will.

vised agreement of the Western pas-
senger association was adopted today,
and efforts are being made to get the
Northern Pacific in, which will prob-
ably succeed in a boycott in August
against the Great Northern.

A RAP AT THE TRUSTS.

Chicago, June 13.—Judge McConall
this afternoon hit the trusts a hard
rap, particularly the preservers' trust.
It was in a suit against it by a recal-
trant member, Andrew D. Bishop. In
overruling the demurrer by the asso-
ciation Judge McConall said in part:
"No court of record should lend its
legal operations to further the inter-
ests and carry out the purposes of the
trust. To my mind the corporation
known as the American Fruit Pres-
ervers' Association is but an agent of
the trust, and as such the same ille-
gally attaches to it as to the principal.
The association now has three days in
which to reply to Bishop."

IS LIZZIE BORDEN GUILTY?

Newark, N. J., June 13.—Another Bor-
den theory was evolved today when a
barber told a story to the effect that
last fall a man with a heavy black
beard came into his shop, got a clean
shave and a close hair-cut, borrowed
some writing paper and wrote three or
four letters, two of which he threw on
the floor as unsatisfactory. One of
these the barber picked up after the
man had gone, and found it was ad-
dressed to Mayor Coughlin, of Fall
River, and stated that the writer had
murdered Mrs. Borden out of revenge.
The barber did not explain why he
kept this quiet so long. The police
think the mysterious man was a crank.

THE FLYER TO BE CONTINUED.

Chicago, June 13.—The officials of the
Lake Shore and Michigan Southern
railway, who are responsible for the
inauguration of the twenty-hour ser-
vice between New York and Chicago
via their line and the New York Cen-
tral, and had been running what is
known as the Exposition Flyer, repudiate
the statement that the train will be
discontinued. On the contrary, they
claim it is gaining in popularity and
running in either direction to its fullest
capacity.

TO AVERT FURTHER DANGER.

Washington, June 13.—Supervising
Architect O'Rourke today made a pre-
liminary examination of the Winder
building, occupied as the second audi-
tor's office, the building being very
old. O'Rourke said he found it safe,
but unfit for the purpose for which
it was used. He will examine the
other treasury buildings within the
next few days and then take up the
buildings occupied by other executive
departments.

GOOD TEMPLARS' CONVENTION.

Des Moines, June 13.—The thirty-
sixth annual meeting of the World's
Lodge of Good Templars convened
here this morning with delegates from
every quarter of the globe.

THE COMMITTEE OF ARRANGEMENTS

for the Pioneer and Historical Society bas-
ket picnic met yesterday and decided
to again postpone the picnic until next
Wednesday. The affair now promises
to be a much greater success than was
at first anticipated, provided a fortu-
nate selection is made as to the day
for holding it. It was thought that
Friday would have been an excellent
day, but the school exercises at Upper-
town would have prevented many from
attending, and in consequence a ma-
jority of the committee favored the
postponement until next Wednesday.

O. P. HENRY, THE INVENTOR

of the new marine marvel at present
under construction back of the O'Brien
building, has something entirely new
in the way of a net. It is composed of
three distinct kinds of web, one por-
tion being trap web, another herring
seine web, and a third having been
taken from a gill-net. The device
is intended for the general fishing
business, and is calculated to catch
anything from a sardine to an eighty-
pound salmon. Mr. Henry says he will
give it a trial today.

FRANK PATTON AND H. C. THOMPSON

yesterday conveyed to the Seashore
Road Company the Astoria and South
Coast Railroad, together with all the
rights of way, rolling stock, equip-
ments, franchises, tenements, heredita-
ments and appurtenances thereto be-
longing. The office of the new com-
pany is in Astoria, and its business is
"to lease, buy construct, maintain, and
operate a standard gauge railway be-
tween Astoria and Seaside." The cap-
ital stock is \$175,000, divided into 1,750
shares of the value of \$100 each.

THE WILL OF THE LATE MRS. DILLON

was filed in the office of the county clerk
yesterday. Dr. Walker is named as
executor, with power to sell and dis-
pose of the property at such time or
place as shall seem proper to him. A
contest has also been filed by Martin
Dillon, the husband, which will be
heard on July 5th. A determined ef-
fort will be made to break the will.
