TODAY'S WEATHER. Portland, Or., June 15.—For Western Washington: Light rain, followed by fair weather. For Eastern Oregon and Washington: Fair weather; decidedly warmer at Spokane. For Western Oregon: Fair weather, preceded by showers in the extreme northwestern portions. Local weather for the twenty-four hours ending at 5 p. m., yesterday, furnished by the U. S. Department of Agriculture, weather bureau. Maximum temperature, 56 degrees. Minimum temperature, 49 degrees. Precipitation, .05 inch. Total precipitation from July 1st, 1892, to date, 85.61 inches. Excess of precipitation from July 1st, 1892, to date, 10.89 inches.

THE COUNTRY IS SAFE. There is not the least cause for a general panic, nor is there the least expectation of such. As President Hill remarked, the prospects of the Northwest have not been better for ten years back. The precautions which the New York clearing house is taking in issuing certificates is simply a prudent measure, designed to protect the banks. The demands made on them for money in the south and west has made them cautious. They are likewise acting unitedly against all common dangers, and are giving Secretary Carlisle cordial support. The general condition of the country is sound. Large cotton, wheat and corn crops may be expected. Eastern manufacturers are busy. Railroad earnings are good. The country is making a wonderful display of its marvelous progress and inexhaustible resources. In the presence of such evidence of greatness and wealth, no one should heed the croakers.

The populists may henceforth have to paddle their own canoe. No populist receives an office, no friendly word comes from the White House to cheer them. The victorious democrats feel very much like the balk-woods orator in Texas who in a faint debate with a populist spoke as follows: "Gentlemen of the State of Texas, are you aware of who's been talking slush about the greatest party God ever created here? In cahoots with robbers on thieves on such for one solid hour? An outlaw from Missouri that doesn't show his yaller hide in the town where he was born—a man that for a \$5 bill would swear that he was a bosom friend of George Washington; who would say that the father of his country kept a slaughter house in the San Pedro valley, and would then turn right round, go to Mount Vernon and dig up his bones and use 'em for fertilizers. An' his party! Why, gentlemen of the great state of Texas, that little handful of one gutted, bellyachers called populists no more compares with the mighty hosts that light under the flag of eternal democracy than the feeble glow of a lightning-bug compares to the glorious effulgence of the midday sun!"

THE ONCE POWERFUL PACIFIC MAIL Steamship Company has leased its steamers on the Atlantic coast and gone out of business as a carrier between New York and San Francisco.

Henceforth it will limit its traffic to China, Japan and Central American ports on the Pacific. The partial overthrow of the company is due to the energetic movement for low freights, which the San Francisco merchants conducted with so much success.

THEY STOLE A LOCOMOTIVE. "The most successful, and, at the same time, most unique civil service examination I know of occurred during the war," said T. C. de Land of the examining board at the treasury to a Washington Post man. "The Confederacy was very much in need of a railroad locomotive in order to operate their supply system. It was in 1864 and they had not the means to buy an engine, so the invariable alternative arose—steal one. A band of 100 men was selected from Lee's army and placed under the command of a big six-foot-four Georgian, who had been foreman of a stone quarry and was more or less skilled in the use of derricks, etc. He took his men up into Maryland, and they tore up a section of the Baltimore and Ohio railway tracks, flagged the next train, and with nothing in the world but plenty of rope, those 100 men carried the locomotive fifty-two miles over hills, across streams, through bogs and woods, until they struck a line the Confederacy had built. Then they ran the engine down to Virginia. When the president of the Baltimore and Ohio heard of the feat, he couldn't believe it. He went out and personally inspected the scene; went over the route and declared it the most wonderful feat of engineering ever accomplished. After the war he delegated a man to find the leader of the band. He was located in Georgia. Mr. Garrett sent for him and on the strength of that single feat made him road-master of his entire system of railroads. 'Any man that can pick up an engine with fish lines and carry it over a mountain has passed his examination with me,' he said."

YOU SHOULD READ THIS. The present train schedule enables passengers to reach St. Paul seven hours quicker and Chicago twenty-four hours quicker, Omaha and Kansas City and intermediate points forty hours quicker than any line from the Pacific Northwest.

Patronize the Northern Pacific railroad if you are going East. Low rates of fare, through tickets, baggage checked to destination. All purchases of second class tickets can stop over at Portland. Rates of fare same as from Portland.

If you have friends in Europe whose passage you wish to pay for to Astoria, call at the Northern Pacific office, steamer Telephone dock, and make known your wishes via all the leading steamship lines.

All the patent medicines advertised in this paper together with the choicest perfumery, and toilet articles etc., can be bought at the lowest prices at J. W. Conroy's drug store, opposite Occident hall, Astoria.

TOO OFTEN THE CASE. INTERESTING PROOFS. A young society lady, after a round of gayety, becomes suddenly conscious of an unusual sensation. She has frequent attacks of dizziness, her back aches, and she feels blue and generally run down.

Mothers, look well to your daughters! Daughters, look well to yourselves! Let the first symptom denoting the approach of disease receive your instant attention. Healthy women are the hope of the race, and it is well-nigh criminal to neglect anything which promises relief.

There is hope for all sufferers from Nervous Diseases. Read what follows: Mrs. Jennie C. Davis, a fine artist and an accomplished authoress, of Westfield, Wis., had been subject to headache ever since she could remember. So severe were her attacks as to cause at times temporary delirium. All treatment had failed to relieve her, but after using Dr. Miles' Restorative Nervine she writes: "My headache is to me, at least, satisfactory. No headache, constantly increasing appetite, and a consequent gain in weight of two and a half pounds in just one week."

Six weeks later she writes: "Have read and sewed immediately of late, but my headaches do not return." Mrs. John B. Miller, of Valparaiso, Ind., was attacked three years ago with turn of life in its worst form. It finally went to her head, and all indications were that it would result either in insanity or softening of the brain. Her husband thus writes: "It would be impossible for me to attempt a description of her sufferings during all this time. She was treated by our very best local physicians, with but temporary benefit. She has taken four bottles of Dr. Miles' Restorative Nervine, and is cured. She has gained twenty pounds in weight. I tell you, she often blesses you for what you have done for her."

Recollect that for the cure of all Nervous Diseases there is no remedy which approaches Dr. Miles' Restorative Nervine. It is free from dangerous drugs and opiates. Sold by all druggists, on a positive guarantee, or Dr. Miles Medical Co., Elkhart, Ind.

Guaranteed to cure Bilious attacks, Sick Headache and Constipation. 40 in each bottle. Price 25c. For sale by druggists. Picture "17, 70" and sample dose free. J. F. SMITH & CO., Proprietors, NEW YORK.

THE MOUND-BUILDERS, THEIR WORKS AND RELICS. Author of Animal Empires and Emblematic Mounds, etc. This book treats of the Mound-builders; their occupation, modes of life, religious systems, tribal divisions and early migrations. The work contains descriptions of the earthworks of all classes. The classification of the mounds is made according to their uses, whether as village residences, as defenses, as religious structures, or as sacrificial or burial places. The work contains many illustrations and descriptions of Mound-builders' relics, especially pipes and pottery. The value of the book is that it contains a comprehensive view of the whole field, and gives information about the mounds and relics of all states and districts. It is one of a series which is devoted to pre-historic America, and perhaps could be regarded as the most interesting volume. The author solicits subscriptions. Orders can be sent to the publishing house, 175 Wabash Avenue, Chicago, or to the author at Avon, Ill.
