TODAY'S WEATHER.

Portland, Or., June 17.—For Western Washington: Showers, followed by fair weather. For Eastern Washington: Fair weather. For Oregon: Fair weather, except showers followed by fair in the northwestern portions.

Local weather for the twenty-four hours ending at 5 p. m., yesterday, furnished by the U. S. Department of Agriculture, weather bureau.

Maximum temperature, 60 degrees. Minimum temperature, 44 degrees. Precipitation, None. Total precipitation from July 1st, 1892, to date, 85.74 inches.

THE BERING SEA QUESTION.

If salmon were caught in the sea on their way to the spawning grounds, their fate would resemble that of the seals, which are slaughtered on their way back to the islands where they were born.

THE NATIONAL CURRENCY.

The Oregonian, which is sound in the main, on the currency question, says "the world may make silver the measure of value."

This silver craze will soon subside. As General Grant knocked the green-back delusion in the head, so will President Cleveland constrain congress to repeal the Sherman law.

The reduction in passenger rates comes at an opportune moment for those who are intent on going to the

World's Fair. There may soon be lower rates in the East, as Chauncey M. Depew, president of the New York Hudson and Central railroad, declares that the present charges for excursion trips to Chicago are too high.

The best way to settle the weather controversy would be for the Agricultural department to publish returns from both Astoria and Fort Canby, in the telegraphic reports.

Will it pay? Sonnet and Evans may well ask themselves in their jail cells if the lawless life they led has paid.

It would be just as well for the money doctors to remember that while elasticity is a good and desirable thing in the currency of a nation, absolute safety is a better thing.

The late Benjamin F. Butler should have lived a while longer. He would have been delighted to find his income tax ideas adopted by the democratic party.

Didn't Governor Flower stretch things a little when he remarked: "Tammany loves Cleveland?"

The following excellent program of entertainment, rendered at the Uppertown school at Friday's closing exercises, was unavoidably left out of yesterday's issue.

The Salmon Pack Is Far Behind.

There has been comparatively little fishing done during the present week on account of the rough weather, and but few fish were received.

The pack of the Astoria Packing Company shows a shortage of fully 20 per cent, and considering that this year Mr. Kinney has a well-equipped boat, and more of them, than he had last year, it is safe to say that the other canneries are equally far behind.

It will cost you nothing and will surely do you good, if you have a cough, cold or any trouble with throat, chest or lungs. Dr. King's New Discovery for Consumption, Cough and Colds is guaranteed to give relief, or money will be paid back.
