The course pursued by Dr. Briggs is eliciting many strong words of approvat from press and pulpit. In Portland, on Sunday, the Rev. H. V. Roninger, a Congregational pastor said: "For teaching in his inaugural address two years ago that the Bible, the church and the reason are three concurrent channels of divine authority, and for jority of Hebrew scholars, the tradi-Hriggs has been expelled from the Presbyterian church and Union semiquarrel with Dr. Briggs, but with the Christian scholarship, and we might say, with the civilization of the age. The great majority of Christian scholars in England and Scotland and on the continent agree with the conclusions of Dr. Briggs. In this action we might well ask: Has not the Presbyterian general assembly cut itself off from ecumenical Christian thought and from the Holy Catholic church throughout the world?"

Mr. Gladstone should have got some journalist to "boll down" the Irish home rule bill and then rushed it through parliament. He should have then passed some ultra radical measures and awaited defiantly the decision of the house of lords regarding them. The tardy method now pursued is demoralizing the premier's supporters.

Nobody objects to the showing up of fraudulent pensioners wherever they may be found; but every patriotic citigen should object most strenuously to the slurs against every veteran on the pension roll that are being printed in the democratic press.

In the Lizzie Borden trial, the judge will charge the jury today. The case has been conducted with marked abillty and fairness, recalling the best truditions of the Bay State bar. If the jury disagree the prosecution will probably be abandoned.

Wheat was recently sold for 63 cents per bushel in Chicago, the lowest price on record there. Other staple commodities are likewise very cheap. The cry that the McKinley tariff is oppressive is being refuted by actual facts.

President Cleveland, ex-Secretary Whitney and other prominent politicians of democratic faith are reported to have dropped \$50,000 in a pulp mill. It seems to have been a case of the grinders becoming grindees.

Vivtoria, which was few years ogo a small, obscure British Columbia city, has now a steamship line to Sydney us well as to China and Japan. Congress might well inquire how Canada san outdo Oregon in such matters.

Rhode Island is a small state, but she has a republican governor with backbone enough for an elephant. May his tribe increase.

AN INDIAN WHO HAD A PAIN.

Antonio Was Injured By Wild Horses and Went to the Hospital.

The clerk in the hospital looked curounty at a tall, square-faced young nan who came yesterday with Prof.

"Singalese?" he asked. "No. Apache Indian," Professor Putnam replied. The Indian had a severe pain in his chest, the result of being

jerked around by wild horses. "Antonie is a good Indian," Professor Putnam added. 'He is assistant in my department and has done valuable work in making observations among the Apaches and Navajoes for the ethnological department. Antonio has a history that is not without romance Twelve years ago, when a small boy, he was captured by some troops during the Old Testament and the verbal in- a hot encounter with his tribe. The troops took him to the military post, where the boy was educated. Then he went to New York and posed as a model for a number of sculptors. Later he made a journey to France to buy horses. Then he came to Cambridge and tried to earn enough money break ing in horses to pay his way through college. He has done a great deal of work for me and I find him reliable and very intelligent."

The doctors told Antonio they would core his pain in a few days.-Chicago

THAT TERRIBLE SCOURGE.

Fever and ague, and its congener, bilious remittent, besides affections of the stomach, liver and bowels, produced by miasmatic air and water, are both cradicated and prevented by the use of Hostetter's Stomach Bitters, a purely vegetable elixir, indorsed by physicians, and more extensively used as a remedy for the above class of disorders, as well as for many others, than any medicine of the age. A languid circulation, a torpid state of the liver, a want of vital stamina, are conditions peculiarly favorable to malarial diseases. They are, however, surely remedied by the great preventative, which, by invigorating the system and endowing it with regularity as well as vigor, provides it with a resisting power which enables it to withstand disorders, not only of a malarial type, but a host of others to which feeble and ill regulated systems are subject. The Bitters are a safe as well as scarching eradicant, and have widely superseded that dangerous drug, quibline, which palliates but does not eradicate malaria.

The epitaph on many a tembstone is "heart failure." No wonder, when we consider the humense strain which is put on that small organ. Marvelous as it is, beating that small organ. Marvelous as it is, beating 100,000 times and exerting a force equal to 5,184,000 pounds daily, it has its limit—its endurance often is too severely tested. So common are diseases of the heart—though often for a considerable time without the suspicious of the afflicted person being in the least excited—that it is stated that one person in four less a bad heart! Dr. Franklin Miles, of Elkhart, Ind., has for years made a special study of all diseases of the heart, and his remarkable success has made his rates a familiar one in all parts of our land.
