THAT TERRIBLE SCOURGE.

They are, however, surely remedied by the great preventative, which, by invigorating the system and endowing it with regularity as well as vigor, provides it with a resisting power which enables it to withstand disorders, not only of a malarial type, but a host of others to which feeble and ill regulated systems are subject. The Bitters are a safe as well as searching eradicant, and have widely superseded that dangerous drug, quinine, which palliates but does not eradicate malaria.

HOW TO AVOID IT.

The epitaph on many a tombstone is "heart failure." No wonder, when we consider the immense strain which is put on that small organ. Marvelous as it is, beating 100,000 times and exerting a force equal to 5,184,000 pounds daily, it has its limit—its endurance often is too severely tested. So common are diseases of the heart—though common are diseases of the heart—though often for a considerable time without the suspicions of the afflicted person being in the least excited—that it is stated that one person in four has a bad heart! Dr. Franklin Miles, of Elkhart, Ind., has for years made a special study of all diseases of the heart, and his remarkable success has made his name a familiar one in all parts of our land. He has found the most common sympt of heart disease to be pain, distress or lender-ness in the chest, back, stomach, bowels, left shoulder and arm, shortness of breath, smother-

ing spells, fainting, etc.
Mr. George R. Smith, of Barnes, Yates
Co., N. Y., writes:—"Dr. Milles' New

I had shortness of breath, palpitation, pain under left shoulder blade, pain around the heart, I could not sleep on my right side. Since I have taken Dr. Miles' New Heart Cure I sleep well, and have no palpitation. It has made my heart stronger. I wish you would print this, because I want all to know what Dr. Miles' Heart Cure has done for me."
