boats, and Cannons. Work a Specialty.  
Castings of All Descriptions Made to Order at  
Short Notice.  
JOHN FOX, President and Super-  
visor.  
A. L. FOX, Vice President.

## SYMPATHY IS WITH THE SLAYER

### Editor Boyd's Death Not Likely To Be Avenged.

### THE PROSECUTION HAS RESTED

#### The Defense Outlines Its Policy, Which Will Be Provocation or Insanity—A Sensation Promised.

Associated Press.  
Seattle, June 21.—The third day of the Boyd murder trial ended with a witness of the defense on the stand, the prosecution having rested its case early in the afternoon. So far the case had but few startling developments beyond the testimony of Police Captain Hogue today to the effect that the defendant told him she had murdered her lover willfully. The indications are that tomorrow sensational letters which passed between Boyd and the woman, in which many men of prominence are named, will be introduced.

Attorney Piles in opening for the defense referred to the brutality of Boyd toward the woman, and said he would introduce letters to show that he had used her to blackmail prominent men. He also outlined an insanity theory, and asserted that the woman was driven to the deed in self-defense after having been made temporarily insane. The day closed strongly in favor of the defendant, with an expression of it was restrained with difficulty by the court officials.

### DIED FROM AN OLD WOUND.

#### The Bullet of a Highwayman Proves Fatal After Five Years.

Seattle, June 21.—Frank A. Conant died at his home in this city tonight from the effects of a bullet wound received in the throat from the pistol of a highwayman in Cincinnati five years ago. Conant was at that time living at Avondale, a suburb of Cincinnati. One evening while driving home with his father's team from town, a masked robber commanded him to hold up his hands, and when he failed to obey, shot him, the bullet entering young Conant's throat. The elder Conant was connected with the Big Four railroad, and usually carried large sums of money, so robbery was doubtless the motive. The highwayman was never found. When Conant recovered he came to this city. Tonight the old wound broke, and he died suddenly.

### STANFORD'S DEATH

#### Due to Paralysis of the Heart—Funeral to Be Simple.

Menlo Park, June 21.—The arrangements for the funeral of Senator Stanford are all completed. The services will take place Saturday at the chapel at Palo Alto university. They will be very simple. While recently in Europe, the senator, who was always a staunch friend of railway engineers, requested that when his pall bearers were selected they should consist of a number of engineers selected from those longest in the employ of the Southern Pacific Railway Company. His request is to be honored, and of the twenty pall bearers, eight are to be engineers. Dr. Stellard, the physician who was called to the side of the deceased, was seen tonight by a representative of the Associated Press. He said the immediate cause of death was paralysis of the heart.

### THE POPE'S ENCYCLICAL.

Baltimore, June 21.—Cardinal Gibbons has given the Associated Press an official translation of the Pope's encyclical letter to archbishops and bishops in the United States on the noted parochial school controversy. The encyclical urges that Catholic schools be most sedulously promoted, leaving it to the conscience and the judgment of the ordinary mind to decide according to circumstances when it is lawful and when unlawful to attend the public schools. While the public schools are not to be condemned entirely, still every endeavor should be made to multiply and advance the Catholic schools.

### FATALITIES AT A FIRE.

Duluth, Minn., June 21.—The five-story Bunnell building, containing four stores, four saloons, two newspaper plants, with living rooms above containing thirty people, were burned after midnight. Four dead bodies have already been taken out. It is believed three more are in the ruins. The dead are Mary Ford, her son Robert, Elizabeth Mayher and her daughter Celia. The money loss is \$40,000.

### ANOTHER VIEW.

Chicago, June 21.—At the world's congress of commerce and finance, R. F. Butler, of Idaho, talked on the silver question. He said the recent panic

was caused by the gold basis, which always precipitated a crisis. He advocated the withdrawal of both gold and paper money of a denomination of less than five dollars, which would force the circulation of silver and be practically free coinage.

### ROBBING THE DEAD.

#### The Pockets of the Victims of the Parkville Accident Are Rifled.

New York, June 21.—Although no other victims of yesterday's railroad disaster at Parkville, La., have died, Andrew J. Bartholomew is not expected to live. The other wounded men are reported as doing well, and will recover. It appears some victims of the accident were robbed, and one body, that of Judge Quimby, of Utica, N. Y., who had \$6,000 in his possession, has entirely disappeared. Quimby was seen lying in an express wagon, and a doctor with an ambulance offered to take him, but the man in the wagon said he was a doctor, and was going to take Quimby to the Norwegian hospital. He never arrived there, and the coroner is trying to find the body. William B. Hutchinson, of Chicago, who was killed, had several thousand dollars in his possession, but when the body reached the morgue only \$125 was found.

### EUROPEAN CROP REPORTS.

London, June 21.—As yet no official estimates of the yield of cereals this year is obtainable. Bell's Messenger says the recent estimate of the French wheat crop, which placed the yield at 670,000 quarters under-stated the quantity produced. The harvest in Spain is now full headway, and the yields of wheat will be secured. Reports from Italy show the yield of wheat to be good, but scarce. In England a hundred days' drought wrought havoc with all crops except wheat, which is not now largely grown.

Dublin, June 21.—The Farmer's Gazette says the crop prospects in Ireland are more favorable than in England. Wheat promises well. In Belgium wheat is suffering from drought. In the Danubian provinces wheat is growing well. In Egypt its quality is excellent. In Germany there will be moderate yields of wheat and rye, judging by the present indications. In Austria and Hungary all the crops are below the condition of those last year.

### SACRAMENTO WINS.

Woodland, Cal., June 21.—Superior Judge Grant today decided in favor of Sacramento and against San Jose in the state capital removal case. The constitutional validity of the action of the recent legislature in submitting the amendment to the constitution allowing a change in the location of the capital, was sought to be tested in his court and the act is declared void. The case will doubtless be appealed.

### GOLD SHIPMENT FROM LONDON.

Washington, June 21.—The shipment of gold from London to New York, news of which was received this morning, is looked upon as showing that the tide in gold exports has turned. For the past three weeks no gold has been exported, and as a consequence the treasury department has been gaining gold during the period, the net balance today standing at \$4,050,310.

### PUGILIST JONES NOT IN IT.

Portland, Or., June 21.—Del Hawkins of San Francisco and Harry Jones of Portland fought tonight at the Pastime Athletic Club. Hawkins knocked Jones down in the second round, and while he was on his hands and knees, Hawkins struck him. A claim of foul was entered against the decision. Jones was clearly out-classed.

### VILLARD RESIGNS.

New York, June 21.—At a meeting of the Northern Pacific railroad directors today, the resignation of Henry Villard as chairman of the board was accepted, and the office abolished. Hereafter the president of the company will act as chairman of the board. John D. Rockefeller was elected director.

### IMPORTATION OF GOLD.

New York, June 21.—Owing to the low rate of sterling exchange, the first importation of gold for some time will leave Southampton for this port tomorrow. The amount is half a million dollars. It is reported that a million is ordered.

### ANTICIPATING PAYMENTS.

Washington, June 21.—With a view of relieving the monetary stringency, the secretary of the treasury has authorized the treasurer of the United States to anticipate the payment of the July interest checks to be sent out on Monday.

### NO IMPROVEMENT.

New Port, R. I., June 21.—Judge Blatchford's condition has changed but little since yesterday. He is practically helpless and daily growing weaker.

### PRESIDENTIAL APPOINTMENTS.

Washington, June 21.—The President has appointed C. B. Howry of Mississippi Assistant Attorney-General.

## EDMUNDS ON THE SHERMAN LAW

### The Senator Speaks on the Subject of Its Pernicious Operation.

### HE MAKES TIMELY SUGGESTIONS

#### Advocates Repealing the Currency Law Which Preceded the Currency Law—Views on the Hawaiian Question.

Associated Press.  
New York, June 21.—An interview with ex-Senator George F. Edmunds is printed, in which he says: "I have not any doubt that the operation of the Sherman law has helped to bring about the present crisis. I think it would be well to go back to the currency law which existed before the bank law. Gold should be coined at the mint free of charge and silver also should be coined on payment of seigniorage by the owner of bullion, and if there should not be enough for the needs of currency presented, the secretary of the treasury should be authorized to buy sufficient quantities. In this way the demand and supply would regulate itself, and silver would not be driven out of use. I do not believe in depending with silver. If such an arrangement cannot be made, why not fix a new ratio between gold and silver based on the present market value. No such ratio would be permanent. It would have to be changed from time to time as the production of gold or silver increased, but I think a fair ratio fixed now would last 20 years."

"I am not in favor of annexing Hawaii, but I think we should take good care no other nation gets the islands."

### BANK FAILURES IN LOS ANGELES.

#### Los Angeles, Cal., June 21. The Southern California National Bank and the Los Angeles National Bank here have closed their doors.

Later in the day the Broadway bank and the East Side bank closed their doors. The First National has announced that the withdrawals of the last two days exceeded \$600,000. Bank Examiner Gerberding says the run on the banks is senseless, and that they are all fully solvent.

The suspension created much excitement and great crowds gathered on the streets. Rums were made upon the Farmers and Merchants' and the Los Angeles Banks. The former paid all deposits promptly, but the latter announced it would pay only small depositors, and give the larger part in cash and the remainder in certificates payable in sixty days.

San Diego, June 21.—Following in the wake of the financial troubles in Los Angeles, the Consolidated National Bank suspended payment this morning. The Savings Bank of San Diego, which has its office with the Consolidated National, and which is closely related in management, suspended at the same time, owing to a run consequent upon the morning suspensions. The First National closed its doors this afternoon.

### WHY WINSTON WAS REMOVED.

Washington, June 21.—Attorney General Olney's attention was called today to the card of P. H. Winston, late United States attorney for the State of Washington, regarding his removal from the position on account of Chinese and opium smuggling within his district. The attorney general said Winston was removed at the request of Secretary Carlisle, who stated to him that he had evidence enough to satisfy him that Chinese and opium smuggling was going on in the state of Washington, being done with the connivance of government officials. Mr. Winston in a letter to President Cleveland intimates that railroad influence is responsible for his removal.

### CUTTING DOWN EXPENSES.

Washington, June 21.—Upon the recommendation of Commissioner Lochren of the pension office Secretary Smith today dropped from the rolls of the pension office the names of twenty-eight special examiners now in the field, their one year terms of appointment having expired. All the special examiners dropped are republicans. Of ninety special examiners who still remain, sixty are republicans and thirty are democrats.

### DEATH BY LIGHTNING.

River Falls, Wis., June 21.—At 4 o'clock this afternoon the large circus tent of Ringling Brothers, was struck by lightning while crowded with people, instantly killing eight and injuring more than twenty.

### THE RATE WAR.

Chicago, June 21.—The Great Northern road has announced that beginning

June 24th, it will put into effect a new freight schedule from Chicago, St. Paul and St. Louis to Montana, Idaho and Washington common points from 10 to 15 per cent less than the tariff now in force over the lines of the western freight association.

### ROBBING THE MAILS.

Boise, June 21.—Word reached here that on June 14th the United States mail was robbed two miles from Houston in Custer county. The mail carrier was driving a light cart and two bandits came upon him at midnight and drove him from his conveyance. They then rifled the mail, after which they drove the horse and cart to the post office at Houston, where they left it. The letters were all opened and put back in the sacks, which were left under the steps of the office of a justice of the peace. It is not known whether they secured anything of value or not.

### TILLAMOOK NEWS.

Tillamook, Or., June 21.—The insurance adjuster is here and new buildings have been started. The steamer Elmore arrived with provisions. Yesterday evening the steamer Harrison started to tow the lumber schooner Del Norte of San Francisco over the Nehalem bar. Both steamer and schooner went aground on the south spit of the north channel. The crews are safe, and it is hoped that the boats will be gotten off at high tide tonight.

### VISITED BY A CYCLONE.

St. Joseph, Mo., June 21.—A destructive cyclone passed just south of here at a late hour this afternoon. At Lake Cotary, a summer resort, several houses were destroyed and growing crops badly damaged. The cyclone tore down and carried away the grand stand and nearly all the stables of the Lake Park Driving Association. No loss of life is reported. The dispatch report reports a fearful storm in Polk, Monday and Atchison counties.

### CAPTAIN BAILEY'S TRIAL.

Boise City, June 21.—In the court martial proceedings against Captain Bailey of the Fourth infantry, evidence was introduced today in support of two of the specifications. One of these is to the effect that the captain, while wearing his uniform, was carousing with a prostitute in a saloon on the night of February 27th; the other is that on April 15th, after he was put under arrest, he participated in a hurrah in a baggie in full uniform.

### CHARGED WITH EMBEZZLEMENT.

San Francisco, June 21. Rev. Roddy Edwards, superintendent of the Peoples' Home and formerly assistant rector of Trinity church, one of the largest Episcopal congregations in this city. He is accused of misappropriating a deposit of \$3,400 made with him as trustee by Mrs. Allen, an inmate of the home. Edwards is reported to have devoted the money to real estate speculation and lost it.

### DYNAMITERS AT WORK.

Madrid, June 21.—The greatest excitement prevails as the result of a dynamite explosion near the house of ex-Prime Minister Castelo, last night. A number of persons were killed, and it is believed the explosion is the work of Barcelona dynamiters, the revolutionists there being very active of late.

### TROTTERING RACES.

Vancouver, Wash., June 21.—Trotting, 2:30 class—Anita, Harry Young, Tybalt. Best time, 3:27.  
Trotting, 2:24 class—Blonde, Bishop, Pearl Fisher. Time, 2:20.  
Pacing, 2:40 class—Graceful George, Dock Sperry, Bonny Belle, Rockett. Time 2:33 1-2.

### FOREST FIRES.

Inhappening, Mich., June 21.—Forest fires throughout the upper peninsula of Michigan are raging fiercely again today. A number of railroad bridges and treaties are burned. In the Bay de Noquette tract, twenty homesteads are destroyed.

### DISCIPLES OF WALTON.

Oregon City, June 21.—General Wade Hampton and party spent the day fishing at the falls and carried away a fine mess of salmon, the general's own party being a ten and a fifteen pounder.

### STANFORD'S SUCCESSOR.

San Francisco, June 21.—Political gossip are busy with the name of Justice Fitzgerald of the supreme bench as successor to Senator Stanford.

Wood pulp is rapidly becoming one of the most universally used of manufactured articles. Not only is it found available for making many of the necessities and conveniences of man's life, aside from newspapers, but it is also appearing in artistic coffins in which to bury him. It is interesting to note in this connection that there are very few areas of spruce lumber in the United States west of the Adirondacks.

A newspaper has just been started in London which is printed on a postcard. The first number has four illustrations, a comic tragedy, a few jokes and puzzles and some advertisements.
