The Demand for an Early Session of Congress Renewed

VIEWS OF SENATOR DOLPH

Business Is Generally Unsettled in Lon don and the Stock Market Ir. egular.

EXCLUSIVE

Associated Press. Washington, June 27.-One effect of the action of the government of India has been to renew the demand for an early session of congress. Carlisle received a cablegram from London announcing a further decline in the price of silver to 35d. At this price silver dollars are worth 78 3-4 cents. Senator Dolph, of Oregon, the only Pacific slope Senator in the city, said this morning: "I am in favor of maintaining all currency on a par with gold, but it seems to me this action of the Indian government will diminish, instead of increase the prospects of the repeal of the Sherman law by the senate, I think the effect will be to make thoughtful members of congress hesitate before further depreciate the valof silver by suddenly throwing upon the market of the world 4,500,000 ounces of silver, equivalent to nearly the whole American product now purchased and the stock held by the government, 1 do not know anything better than the re peal of the Sherman act can be done to relieve the situation, but I am fearful that the repeal of that act would be disastrous to the finances of the government and to silver." The senator further desired to correct the published statement that he would not be present at the special session of congress. He will probably be a better supporter of Cleveland's financial meas-

cratic senators. Among the opinions obtained regarding the situation affected by the act of the Indian government, was the following: Representative Oates says he is hopeful of a speedy settlement of the thinks the most logical and common sense thing will be the repeal of the Sherman law and the law levying ten per cent tax on state bank currency, On term savings books 6 per cent, per annum and to provide for the free coinage of silver at such a ratio as to place it at a parity with gold.

ures than will a majority of the demo-

A. J. Warner of Ohio, president of the American bi-metallic league, said "The stopping of the coinage of silver in India has inaugurated a new monetary revolution. The immediate consequences will be that silver will fall and gold will increase in value faster than ever. Prices will fall everywhere as gold rises, and every advantage will inure to creditors and creditor nations. England has set out to subdue the world, not with arms, but with gold. What is there left to do but for the western continent, under lead of the United States, to unite and act independently, and establish a financial system founded upon equality, and calculated to secure stability in value, and one which will keep an even balance between the debtor and creditor, not one calculated to rob with impunity the debtor for the benifit of the creditor."

Secretary Carlisle, in response to a request to express his views on the financial situation as affected by the action of India on silver, politely declined.

Barbour, financial secretary of India, opposed the stoppage of free coinage until it becomes evident that the United States will not adopt free coinage.

WALL STREET COMPLICATIONS. New York, June 27.-The situation in Wall street has been further complicated by the late developments in the silver market. This started renewed liquidaties today. A great ma-Jority of the Wall-street people are anti-sliverites, and their interest lies in the repeal of the Sherman law. Conservative houses are doing everyfor the reason that the leading firms than the legal rate of interest. After exclusion act.

THE OUTLOOK BRIGHTER. Bankers in New York Report an

Easier Feeling. New York, June 27.-While according to the bank officers today, there was no NONE SUCCEED IN 18JAPING change in the conditions to warrant any marked ingrease in stock exchange prices there were not lacking reports of a character calculated to inspire confidence, as well as some facts which justified the belief that the outlook was brighter today than yesterday. No currency shipment to the country was reported at the sub-treasury today, but the banks shipped \$300,000 and \$400,000 to San Francisco direct, and also various small sums in Buffalo. The bankers today reported the financial situation somewhat easier everywhere, but qualified the statement by saying the demands for rediscount, while no larger, were very general from all over the country. No clearing house certificates were issued today. Very serious affairs developed in Philadelphia. Several big banks there are practieally unable to remit to the banks in this city the balances due to them for remittances, and Philadelphia exchange is practically at a premium today in

DISCUSSED BY THE CABINET. Washington, June 27.-Two hours were consumed by the cabinet discussing the new phase of the silver question today. Although the discussion, it is said, took a wide range, it was necessarily brought back to the one important, unmanageable point, that the executive had no power in the premises, congress alone being able to deal with measures for relief. As the president has decided to call congress together in the early part of September, the project of an earlier session of congress, it is understood, has been dropped. As for the continuance of the purchase of silver and the Sherman law it was pointed out that a little more than two months remained before congress would convene in extra session, and during the intervening time the silver lots purchased would be of a comparatively small amount in

view of previous purchases. SMELTERS LOSSES

Denver, June 27 .- It is estimated that the smelters here and throughout the state lost in the aggregate \$650,000 on ore bought last week, and which had fallen so greatly in value during the . t two days.

THE COWBOY RACE ENDED.

Chicago, June 27.-The cowboy race is ended. The first man in was John Berry, riding under protest. Two other contestants-Emmett and Albrightfollowed two hours later.

Gillespie arrived later in the day. He said he would be the real winner, having complied with all the con-

ditions. As soon as Berry's horse was stabled President Shortall, of the Illinois humane society, accompanied by a couple of veterinary surgeons, attemp- gree, San Francisco; Harry Wilson, ed to conduct an inspection, to ascertain the condition of the horses. "Poison" made a vicious kick at the humane official, who quickly concluded that there was plenty of animal life, robbery. Fresno county, right leg life left in him, and no justification for interference on the part of the so-

Colonel Cody (Buffalo Bill) declared there was a good deal more to the race than the prize. "It will show the world," said he, "what the native American horse is worth. European nations have been watching the race, and fatally shot through the abdomen; there will be a rush for the American animal. The European nations will want American-bred horses for their cavalry."

WANTS NO MORE OFFICES. Portland, June 27.-H. A. Smith, sheriff of Clatsop county, was here today and had a conference with H. C. Grady, the United States marshal, He He said in part: "I consider this an afterwards admitted that he had been offered the chief deputyship, but had declined it, owing to having another between India and the United States year to serve as sheriff, and when that cannot be attained, the mints of India is over he will drop out of politics altogether.

The Desperate Deed of Convicts at A Union Pacific Train Derailed East of Portland.

Portland, June 27 .- The Union Pacific fast mail train was wrecked this morning about six miles from this city. One passenger, C. C. Chase, was killed and two others were injured. When coming out of a cut and rounding a curve at a high rate of speed the train collided with a cow. The entire train, with the exception of the rear sleeper, was thrown from the track. The cars were piled up and thrown in such manner that to have secaped with the loss Sacramento ,Cal., June 27.-At 3:36 of only one life seems miraculous.
