L. FOX, Vice President

THE SITUATION IN NEW YORK

Little Business Transacted and the Stock Market Easy.

MONEY RAPIDLY COMING IN

A New Issue of Certificates Authorized by the Clearing House Loan Committee.

Associated Press.
New York, July 3.—The Fourth of July was evidently begun by many business men Saturday, and no business was transacted down town today except that which could not be avoided. But, although there was little doing on the stock exchange, and many business offices were closed, the banks were all very busy. The situation was reported to be very easy this morning. Demands from the country, it is said, were very light, and many of the large centers, notably Chicago, are beginning to pay back the money they borrowed from New York. The clearing house loan committee this morning authorized an additional issue of 2,815,000 certificates, making the total amount now outstanding \$21,615,000. From this increasing issue of certificates it is believed generally there will be some months before call money can be obtained as low as 5 per cent. In connection with the large issue of these certificates last week, it became generally known today that but for the prompt action of some of the leading members of the clearing house committee, there would have been a default in interest by one well known railroad company on Saturday. One of the best known railroad millionaires in the country was caught in the squeeze for ready money at the last moment. Knowing his condition, and being assured that unless there was relief for it there might come an actual panic, three of the strongest members of the clearing house association, through the medium of certificates, provided the house necessary assistance.
The sub-treasury was again a creditor at the clearing house today, the balance in its favor being \$481,416. It was also a creditor Saturday for the first time since August 17, 1891.

SECRETARY MORTON'S PLANS.

Washington, July 3.—Secretary Morton has written a letter to Special Agent Mattes, who will soon leave for Germany and other European countries, requesting him in addition to continuing the investigation as to the possibility of extending the consumption of maize products, to further investigate the condition of American meats, the benefits, if any, to be derived from our system of government inspection, and the prospects for the extension of our trade in these products. Secretary Morton has decided that the expenses of the bureau of animal industry must be cut down this year twenty-five per cent. It is understood that the secretary is considering the advisability of doing away altogether with the present system of meat inspection, which would bring about a saving of about \$150,000 year.

OAKLAND'S WATER FRONT.

Oakland, Cal., July 3.—Attorney General Hart announces that he will at once begin a new suit against the city of Oakland, the Oakland Water Front Company and others, for possession and control of Oakland water front. His object is to secure the property for the state, and put an end to the vexatious litigation in which the water front has been involved by the city of Oakland, the Water Front Company and private persons. The property includes about twenty-three miles of water front, and is worth probably twenty millions.

CALIFORNIA HORSES AHEAD.

Washington Park, July 2.—It was California day at Washington Park today, the first four races going to animals bred on the Pacific Coast. Santa Anita's Empress of Norfolk beat the favorite badly after a drive down the stretch. The second race was only a gentle exercise for Yo Tambien, who was one to four in the betting. Revolver had sixteen competitors in the third race, but left them all away behind from the start to the finish. Callender's victory in the handicap fourth race was an impressive one.

RAILROAD BRIDGE BURNED.

Spokane, July 3.—The Moses Coulee bridge, on the Great Northern railroad, was burned last night. The bridge was 824 feet long and 135 feet high. It will take three weeks to replace it. In the meantime trains will be transferred.

in pardoning the Chicago anarchists, Fielden, Neefe and Schwab, and stating his reasons therefore, and decided to print a large number of copies of his statement accompanying the pardon as a campaign document in various languages.

RIOTING IN PARIS.

Student and the Police Engage in a Stubborn Battle.
Paris, July 3.—Saturday an affray occurred between the police and a number of students in the Latin quarter. The students are determined to lay the facts before the government. In the chamber of deputies a motion expressing trust that the government would do its best to punish the guilty officers, was finally accepted by the chamber. Levee, prefect of police, has resigned his office because he believed the government disposed to make a scapegoat of him in the matter. This evening 1,000 students surrounded the prefecture police and threw stones through the windows. The charge of the police was resisted stubbornly. The students fought back with clubs and stones, and several students were wounded and two policemen stretched unconscious on the pavement. The second charge resulted in more injuries on both sides, but the students were driven back. The police retired and a call for the cavalry was sent out. The students are rioting in Boulevard St. Michael tonight.

PREPARED FOR THE RUN.

Brooklyn, N. Y., July 3.—There was a slight run on the Williamsburg Savings bank this morning. Nearly 1,000 people crowded into the bank as it opened, and until noon anxious inquiries were made. The proportion of those withdrawing deposits was as five to one of those depositing. The president of the bank said: "We paid out \$250,000 on Saturday, and took in \$140,000, mostly from new depositors. We were doing business fast and were prepared for a run, should it come."

BANK FAILURE.

Albuquerque, N. M., July 3.—The Albuquerque National Bank has been compelled temporarily to suspend business. It is stated that the assets greatly exceed the liabilities.

WILL BE PAID IN FULL.

Leadville, Colo., July 3.—A run was made on the California, Carbendale and American Banks today, but all demands of depositors were promptly met with cash, and at the closing hour the run was ceased. The American National Bank closed its doors this morning, but depositors will be paid in full. A statement shows resources of \$536,134; liabilities, \$342,625.

CISCO BANK CLOSES.

Cisco, Texas, July 3.—The doors of the National Bank of Cisco were closed by the inspector today, while an inspection of the bank's condition was being made to prevent a run. The cashier stated that the bank had two and a half dollars for every dollar of its liabilities.

BANK FAILURE IN MANITOBA.

Winnipeg, Man., July 3.—The Commercial Bank of Manitoba has been declared insolvent, and liquidators have been appointed to wind up its business. The bills of the bank are "good as gold" under the Dominion law.

FAILURE IN COLORADO.

Golden, Colo., July 3.—The McPherson county Bank failed this morning. No statement of assets or liabilities has been made.

MGR. SATOLLI IN PORTLAND.

Portland, Or., July 3.—Monsignor Satolli, the papal delegate, together with his party, arrived here this morning from Puget Sound. The distinguished party spent the forenoon in driving about the city as the guests of Mayor Mason. The afternoon will be taken up in visiting the different Catholic institutions. The party leave on tonight's express for San Francisco.

MISSIONARIES MURDERED.

London, July 3.—A dispatch from Hongkong says: "A mob of natives attacked two Swedish missionaries named Wyckholm and Johansen, at Mashing, sixty miles from Hannon, and killed them."

VIEWS OF SENATOR SHERMAN

He Believes His Silver Act Will Be Repealed.

FAVORS STABLE CURRENCY

He Will Stand By Cleveland and Carlisle to Secure It—Possible Trouble Foreseen.

Associated Press.
Chicago, July 3.—"There has never been a time since the law of 1890, known as the Sherman act was passed, that I would not have voted for its repeal," said Senator Sherman today. "The Sherman act was a compromise measure passed to save the country from a free coinage bill. I have told Mr. Cleveland and Mr. Carlisle that I will stand with them for sound, stable currency. I think the Sherman law will be repealed, but the danger is that congress may go too far. Should the clause providing for the purchase of four and a half million ounces of silver monthly be stricken out, it would be well; but if congress should go on and repeal the clause providing that the United States shall maintain a parity between gold and silver coin, it would cause widespread distrust. There is in the treasury \$350,000,000 of uncoined bullion. The legal tender of these coins must be preserved, and their parity to gold maintained. It is well enough to stop the further minting of silver, but that in circulation must be sustained. To stop the making of silver dollars would not impair the usefulness of these already made, so long as a guaranty is back of them." The senator further expressed the belief that the cessation of silver coinage would not bring gold more into circulation. He attributed the present stringency to the apprehension of the mercantile and financial worlds that the government will not meet its obligations in gold, but will pay in cheap money.

SILVER MEN ACTIVE.

Washington, July 3.—The bi-metallic league will issue a call today for a convention at Chicago on July 25th. The call will denounce the conspiracy against silver, set forth the alleged evils to result from its demonization, inveigh against the gold standard, and depict the benefits to accrue from a parity of the two metals. The convention will be purely one of ways and means to prevent the repeal of the Sherman law.

EXERCISING HIS RIGHT.

Washington, July 3.—Secretary Carlisle decided today to resume the purchase of silver today. The action is unusual, but as the matter of purchasing silver on given days is discretionary.

with the secretary of the treasury, it is simply exercising his right. The reason assigned in the notice to those intending to make offers, is that the treasury department has not yet completed the annual settlement made at the end of each fiscal year with the United States mint.

PROMISED COMPLICATION.

Washington, July 3.—Particular interest attaches to the house committee of coinage in the coming session of congress. In case Crisp should decide to give Bland the chairmanship, the next in line of direct succession would be Representative Tracy, who is a gold standard man.

THE LIBERTY BELL A SUCCESS.

Troy, N. Y., July 3.—The Columbia liberty bell will be rung for the first time tomorrow at 1 o'clock, to correspond with noon, Chicago time. It will be controlled by electricity from Chicago. The original program was modified on account of a delay in casting the bell. A statement from Chicago that the bell will have to be recast on account of a flaw is denied at the foundry, where it is assured the casting is a perfect success, and the bell is very fine.

FATAL EXPLOSION.

Newport, R. I., July 3.—At 2 o'clock this afternoon fire was seen issuing from among the buildings on Goat Island, occupied by the government torpedo station. No explosions were heard, and it is believed the fire was confined to the unimportant buildings. Later it was learned that the fire started in the gun cotton factory, causing an explosion, killing two and injuring three seriously.

A GOOD CAPTURE.

Denver, July 3.—Henry Starr and Kid Wilson, of the notorious Starr gang of train and bank robbers, together with Starr's wife and about \$2,000 in gold were captured in a hotel at Colorado Springs this morning, where they were registered under assumed names. The robbers were taken unaware and were arrested without resistance.

WEAK STOCK MARKET.

New York, July 3.—Stocks continued weak after the opening. The weakness was due to sales. Traders are disappointed that the market did not advance more on the call for the extra session of congress.

JUSTICE BLATCHFORD ILL.

Newport, R. I., July 3.—Associate Justice Blatchford is reported by his physician as more feeble than he has been for the past week, but his lack of strength is the only change noticeable in his condition.

RICHARDSON SENTENCED.

Rochester, Or., July 3.—Judge Fullerton this morning sentenced George E. Richardson to eight years in the penitentiary for attempting to wreck the Southern Pacific train on March 30th last.
