TODAY'S WEATHER. Portland, July 13.—For Oregon and Washington: Fair, but cloudy weather.

Local weather for the twenty-four hours ending at 5 p. m., yesterday, furnished by the U. S. Department of Agriculture, weather bureau. Maximum temperature, 68 degrees. Minimum temperature, 57 degrees.

It has been said that republicans might wisely, so far as the question of providing for sound money and fully sustaining the credit of the nation is concerned, give their support to President Cleveland in the approaching conflict over silver if at the extra session of congress he presents a straightfor ward policy.

The grocer and country merchant of July 7th, in referring to the situation in the salmon business, says: The market does not show the first signs of an awakening to a state of activity.

The Oregonian assures its readers that "there is not the slightest danger but that she (the Monterey) could make the passage to Portland even if the water was at a much lower stage than it is at present, for she draws less than fourteen feet, but the river men wish to avoid every possible danger."

As the elections in Germany, notwithstanding the success of the Socialists

In the great cities, turned favorably to the increase of the military force, the Emperor is in high feather, and is now understood to be meditating a "go" across the Atlantic. It is known that his personal influence has been exerted to the utmost on behalf of the German exhibits at the Chicago World's Fair.

General Warner and his Silver League will hold a convention in Chicago Aug. 1st. They are determined to put an end to the goldbug conspiracy. The experience of mankind, however, supports the conspirators, and so do the first and foremost of the nations.

American citizens who reside in Germany have to pay an income tax, and if they do not report satisfactorily, the short way to reach the amount of income is to figure it at five times the house rent. However, the investigation is quite rigorous.

Speaking of President Cleveland's recent experience on board his yacht in Buzzard's Bay, an exchange remarks: "It is to be hoped the fact that the President of the United States has spent some time in a fog is not typical."

It is reported that 318 silver mines in Colorado are closed. The owners want free coinage, under the delusion that it would add to the price of silver.

Notice is hereby given that sealed proposals will be received by H. B. Ferguson, clerk of School District No. 1, of Clatsop county, Oregon, until July 19, 1893, at 1 o'clock p. m., for the purchase of 250 cords, or over, of wood.

Attempt at Suicide.

It Might Have Been Prevented.

[From the Boston Post.] While the walks in the Public Garden were crowded yesterday afternoon about 4:30 o'clock, people near the entrance gates at the corner of Beacon and Charles streets were horrified to see a man suddenly plunge a knife repeatedly into his throat and fall to the ground.

While waiting for a conveyance an officer questioned the would-be suicide, who was about 50 years of age, as to his name, address, and reason for wishing to end his life, but the man steadfastly refused to give any information regarding himself. He was taken to the Massachusetts General Hospital and surgical attendance given him. Although weak from loss of blood it is probable he will recover. About 9 o'clock last night a hospital attendant got a little information from him. He said his name was Samuel D., and that he came some weeks ago from New Brunswick. The last few days his head has felt queer, and he has been wandering about the city, not knowing which way to turn. What impelled him to commit his rash act he was unable to say.

The above is the familiar but terrible story of the results of mental derangement caused by overstrain of the nervous system. People who have dizziness, headache or backache, or who are troubled with melancholy or dependent feelings, are already well on the road which leads to insanity and suicide.

"Dr. Miles Medical Co. I cannot find language in which to express my appreciation of the great benefit I have derived from the use of your Restorative Nerve. When life became a burden I would use the Nerve to soothe my weakened nerves, and to calm my exhausted and irritable brain."
