G. P. Putnam's sons have announced a second edition of "Money, Silver and Finance," by Colonel J. Howard Cowperthwait, which upon its publication about eighteen months ago, received general attention and commendation from the highest financial authorities. It is an interesting fact that a war and the arguments against silver and a half ago the present situation was accurately outlined by him, fallacies and the Sherman law, which subsequent facts have demonstrated, clearly stated. The following extract from Colonel Cowperthwait's article reads now like a prophecy confirmed:

"The silver question will not down; for, under no worse law than the present one, the \$400,000,000 hoard of white metal must go on increasing at the rate of 4,500,000 ounces every month. Sound finance demands a repeal of the law, and can be satisfied with nothing less Whether it be possible or not to frame a banking and currency act which shall be acceptable where money is scarce, and not too objectionable elsewhere, the war against allver theories must be continued until there shall be effectively presented to the strong commo sense of the American people the ludicrous speciacle of thousands of mer devoting their time and labor to the taking of silver out of the mines. where it could do no harm, for the purvaults, whence its monstrous bulk men aces the industries and the general prosperity of the country."

The manufacture of the new rifle for American troops has begun at Springfield, Mass. It is a magazine rifle, with the magazine held in reserve. It can be used steadily, one cartridge fired at a time, the magazine ready for an emergency demanding rapid fire. The rifle weighs but 8 3-4 pounds, and the bullet is of 220 grains, projected by 37 grains of smokeless powder.

"Muscular Christianity" is an exceltent thing in a community where the unregenerate are liable to disturb the even flow of peace and order, liberty and law. Therefore, the quiet hamlet of Jericho, L. I., is to be congratulated upon having as one of the denizens, as the shepherd of the flock that gathers in the Baptist Church there, a young man who is forceful both in speech and action. There was in the village-for he is now absent-a son of Belial who took delight in interrupting the relig-

### A RUINOUS LOSS.

Why is it that people in general are so prone to disregard loss of strength, clearly perceptible in bodily shrinkage, failure of appetite, broken rest? Incomprehensible but true. Sheer careless-ness, an overweening confidence in the pose of placing it in the treasury's are suggestible reasons. One of the most observable signals of danger thrown by distressed nature is waning strength. An efficient tonic is the best safeguard against impending peril. Among the invigorants which modern science has developed and experienapproved is Hostetter's Stomach Bit-ters, and it occupies the first. Diges tion, renewed by this genial stomachic compensates for a drain of vital force and a regular action of the bowels and tranquil condition of the nerves, both insured by its use, co-operate in the complete restoration of vigor. The bit-ters remedies liver and kidney trouble and malaria.

[From the Boston Post.] While the walks in the Public Garden were crowded yesterday afternoon about 4.30 o'clock, people near the entrance gates at the corner of Beacon and Charles streets were horrified to see a man suddenly plunge a knife repeatedly into his throat and fall to ject so well, either in the abstract or While waiting for a conveyance an officer

about 50 years of age, as to his name, address, and reason for wishing to end his life, but the man steadfastly refused to give any infor-mation regarding himself. He was taken to well recover. About 9 o'clock last night a hospital attendant got a little information from him. He said his name was Samuel D—, and that he came some weeks ago from New Brunswick. The last few days his head has felt queer, and he has been wandering about the city, not knowing which way to turn. What impelled him to commit his rash act he was unable to say.

The above is the familiar but terrible

story of the results of mental derangement caused by overstrain of the nervous system. People who have dizzness, headache or back-ache, or who are troubled with melancholy or despondent feelings, are already well on the road which leads to insanity and suicide.
