## MASS MEETING OF SILVER MEN

Vigorous Speeches by Congressman Newlands and Others.

## GREAT ENTHUSIASM DISPLAYED

The East and South Appealed to in Behalf of the White Metal—Purport of the Resolutions.

Associated Press.  
Reno, Nev., July 15.—A mass-meeting in the interest of silver was held here tonight. Vigorous speeches were made by Congressman F. G. Newlands of Nevada, and others, and resolutions adopted amid great enthusiasm. The resolutions were constructed as follows: "We appeal to the people of the east and south not to yield to the scare which has been created designedly by the gold trust with a view of stampeding the friends of silver. We appeal to them to insist upon legislation which will free this nation from financial dependence upon England, which will secure to it legislation creating a financial system of its own that will bring harmony with it to the debtors and nations and the silver using nations, and make the United States the center of the world."

## THE SITUATION IN HONOLULU.

The Opposition to the Government to Be Broken.

Honolulu, July 7.—The celebration of the Fourth of July; the capture of 29 out of 28 lepers in the valley of Kalaialu in land of Kaui; the last full and clear report on Hawaiian finance by Minister Dameron the holding for trial of two out of three of the conspirators, are the foremost happenings here since the last mail up by the Warrin.  
The names of the conspirators held are T. Walker and A. Sinclair, E. C. Crick was discharged. No further arrests will be made at present. The royalists claim the arrests have not affected the general opinion is that they have broken the back of the opposition to the government. The government is quietly awaiting some word from the United States which will give a definite idea of what Cleveland's intentions are. President Dele said this morning that in case the United States refused to do anything that England was the only available source for aid. A protectorate would be considered only as a last resort.

## AN IMPORTANT DECISION.

Tacoma, July 15.—In the case of Dunston vs. the Northern Pacific Coal Company, Judge Hanford today granted non suit. The case grew out of the Roslyn mine explosion of a year ago, when fifty men were killed, and was brought as a test. Judge Hanford says from the evidence, the plaintiff had knowledge equally with that of the defendant, or equal means of obtaining knowledge of the existence of gas in the seventh level, where the explosion occurred. The plaintiff was assured that all risks were incurred to employment, including the negligent habits of fellow workers, unless it can be shown that the employer failed to exercise reasonable care in the selection of servants. The decision is very important, as many similar suits involving more than half a million dollars are dependent upon it.

## OPPOSED TO HEBREWS.

Berlin, July 15.—The anti-Semitic publisher, Hoepfner, is about to issue books entitled "Die Juidische Weltherrschaft" and "Das Reuter Bureau," tracing the career of the Reuter telegraph company and its connection with the Wolff news bureau, with a view to proving that these two news-gathering concerns are linked together with the object of furthering the Jewish aim to control the world. The author of the books argues that the Berlin office of the Reuter telegraph company is a source of danger to Germany, and ought to be closed by the government.

## CLAIMING SALVAGE.

San Francisco, July 15.—The disabled British steamer Bawmoro will be a subject of litigation in the United States courts. Label has been filed in the district court against the vessel by Charles P. Dee, managing owner of the steamer Weecott, and Albert Meyer, of the steamer Emily. In the papers filed the Bawmoro is said to be worth \$150,000, but the value of her cargo is unknown. Her libelants wish to equally divide the salvage, should the court award it them.

## STEVENSON ENTERTAINED.

Redondo, Cal., July 15.—Vice-President Stevenson and party, with a committee from Los Angeles and San Diego, arrived here this afternoon, and were escorted to the Redondo Hotel where they were served with lunch on

leaving the dining room, the ladies of the party were presented with beautiful bouquets of carnation pinks, which elicited expressions of surprise and pleasure. The vice-president expressed himself under many obligations for the hospitality of his reception.

## THE CONVICTED CHOCTAWS.

The Principal Chief Objects to Interference by the Government.

Washington, July 15.—Secretary Hoke Smith, of the interior department today received a letter from Chief Jones, of the Choctaw nation, in which he politely expressed his views as to the interference of the government in the execution of the nine Indians sentenced to be shot. He says there is no law or constitutional provision authorizing the principal chief of the Choctaw nation to commute or stay the sentence of any one convicted of murder or sentenced to death under the laws of the nation. "However," the letter says, "as a result of your letter and a conference with Colonel Falsom, Indian Inspector, I conferred with the officials of the nation and arrived at the conclusion that it would be advisable and politic to have the execution of the aforesaid parties stayed by the judge of the court in which they were sentenced. This of course will leave the grave question open, and will afford the convicted parties no opportunity to escape the merited punishment meted out to them. Notwithstanding that self-government was guaranteed us by the law, the United States has three times in succession interfered with, and obstructed the administration and execution of the law. However, being anxious and desirous of fostering amicable and friendly relations with the United States, and to ascertain where the line will be drawn, when the United States will cease to interfere with the execution and administration of our laws, so we can govern our selves intelligently and feel assured of the effective and moral support of the United States, I concluded to request the judge of the aforesaid court to stay the execution of the sentence until August 4th, so that the fullest investigation could be made by you."

## GONE TO CANADA.

St. Louis, Mo., July 15.—The stockholders of the building and loan associations, known as Western Union Nos. 1 to 6, with a capital \$800,000, are each alarmed. It has been discovered that M. T. Bogard, secretary of all of them, and one of the largest real estate dealers of the city, has given warranty deeds to all his property to a money lender who exacts a high rate, and has departed. The stockholders have taken possession of his books, but they are so complicated that it will be impossible to travel them for a long time. His net worth was \$150,000.

## THE MONTEREY IN PORTLAND.

Portland, July 15.—The coast defense vessel Monterey arrived at 11 a. m. today. The reception committee headed by the mayor of the city met the visitor at the mouth of the Willamette and escorted her into the city. Anchorage was made just above the steel bridge.

## RUMORED TROUBLE IN EGYPT.

Valetta, Malta, July 15.—The British battleship Inflexible has been ordered to proceed immediately to Alexandria, Egypt. The reason for this hurried order is not definitely known, but it is rumored that it is owing to disturbances having broken out in Alexandria.

## BLAZE IN FRESNO.

Fresno, Cal., July 15.—A fire broke out in the Fresno flouring mills at 3 a. m. The mills and west warehouse are a total loss, valued at about \$100,000; insurance unknown. The Buckeye store and other buildings opposite are destroyed.

## INDICTED FOR MURDER.

Union, Or., July 15.—The grand jury now in session brought in an indictment this morning against Daniel Tarter for murder in the first degree, for killing his brother Robert, in Eagle Valley, this county.

## BETRAYED HIS COLORS.

Buffalo, N. Y., July 15.—Rev. Henry A. Adams, formerly rector of St. Paul's Episcopal church of this city and later of the Church of the Redeemer, New York, has joined the Roman Catholic church.

## IT WAS THE GANGSTER'S DAUGHTER.

"What are we stopping so long at this place for?" asked a passenger of the guard at one of the sidings on the Midland line. "Well, you see, sir," responded the guard, "it's the gangster's daughter; the engine driver's account-ing her, and as he don't get no time for love-making, he puts on steam before we gets here, and I allows him a few minutes extra. It's pleasant to think of them young folks having a chat together, and we shall put on speed after this and get on to the next station up to time, never fear."—Diamond Fields Advertiser.

## RUDOLPH'S GREAT VICTORY

He Defeats a Strong Field in the Columbus Handicap.

## YO TAMBLEN GETS THE GLORY

The Favorite Never in the Race, and the Betting Public Loss Heavily—The Stakes Worth \$50,000.

Associated Press.  
Washington Park, July 15.—Rudolph won the money and Yo Tambien the glory in today's Columbus handicap, conceding seventeen pounds to the winner of the greatest race ever run in the west. Yo Tambien was but half a length behind at the finish, and a length and a half away came another western horse, Ray S, who was half a length in front of Louder. Illume was fifth, and then followed the eastern horses, Diablo and Lamplighter. Michael came next, and then Morello, carrying the public's money and an injured jockey, as well as limping from his own hurts as the result of stumbling in a false start. The Columbus handicap, one and three-sixteenths miles for three-year-olds and upward, was worth \$50,000 to the winner, \$3,000 to the second and \$2,000 to the third. The time was 1:59 3/4.

## WILL BE REFITTED.

The Old Hartford to Be Again Put in Commission.

Vallajo, Cal., July 15.—It seems more than probable that Admiral Farragut's old flagship, the Hartford, is to be refitted and once more fly the commission pennant from its main mast. The commandant at Mare Island navy yard has received detailed plans and specifications for remodeling the rigging and refitting the vessel. An examination of the engines and boilers of the Hartford show them to be in excellent condition, and with a few minor repairs could be made ready for service on short notice. The masts, spars and much of the rigging was removed from the Hartford when she went out of commission. The spars have been examined and found in an excellent state of preservation, and will be used when the ship is refitted, leaving her practically the same ship as when she went out of commission with the exception of the battery, which will be of modern guns.

## EXCITEMENT IN KANSAS CITY.

Kansas City, July 15.—The Northrup Bank Company closed its doors as the result of a run consequent on the closing of the doors of the National Bank of Kansas City. The bank has a capital of \$1,000,000 and liabilities of \$1,100,000. It is believed depositors will ultimately be paid in full. The failure of the National Bank of Kansas City has also precipitated a run on every National bank in the city. All met every demand promptly and by noon the excitement was practically over. The savings bank is not affected.

## CONFIDENCE RETURNED.

Washington, July 15.—There is a general concurrence among the officials of the treasury department that the financial situation has improved and continues to improve. So firm is the belief that a notification received by the comptroller of currency this morning that three more national banks had failed, did not cause any serious misgivings of a return to the critical stage of the past several weeks.

## THE SCHLESINGER CONCERN ATTACHED.

Negaunee, Mich., July 15.—The Schlesinger syndicate, the largest single iron ore producing concern in the world, supposed to represent millions of German capital, is in trouble. Its property here has been attached at the instance of the Northwestern railroad and local creditors. The syndicate owes a large sum for labor. It is believed the company will pull through all right.

the oldest institutions in the city. It has always been regarded as unusually substantial. No statement has been made. An excited crowd is standing around the bank.

## RUSSIA'S INTENTIONS.

The Naval Station Story Not Yet Officially Confirmed.

Washington, July 15.—No official intimation has been received by the government of the intention of Russia to establish a naval station on our eastern coast, with headquarters at New York, but it is not doubted that such is the case. It is not believed that the establishment of a Russian naval station on our coast is of any warlike import, but merely a part of a general scheme for having convenient stations in different parts of the globe. The story is denied by the Russian consul-general at New York today. It will be several months before they can reach the Pacific, the necessity for strengthening the naval force there having been made very apparent.

## REAMES MAY ESCAPE.

Victoria, B. C., July 15.—The Reames case was argued today on a writ of habeas corpus before Chief Justice Begbie, who remanded it for three days for proof that an extraditable crime had been committed according to the law of California. If it is not ascertained that the crime was committed, the judge is likely to discharge him.

## SWEPT BY A GALE.

Omaha, July 15.—Nebraska was swept by a gale accompanied by heavy rain. At Kearney two business blocks were unroofed and many windows broken. There was no loss of life. The damage is estimated at \$30,000.

## FOUNDRY COMPANY FAILS.

Chicago, July 15.—The Boston Foundry Company made an assignment to receivers. Assets, \$75,000; liabilities, \$250,000.

## THE ARMY BILL PASSED.

Berlin, July 15.—The Army bill passed the Reichstag this afternoon by a majority of 16 votes.

The experiments in smoking and canning salmon and sturgeon which Mr. M. J. Kinney has had made in this city have proven in every manner successful, and there is now no reason to doubt that a new and important industry will be under full progress in a short time. Mr. Borchers, who has charge of the work, thoroughly understands the art of packing and smoking fish, and the samples put up can safely be said to excel anything similar to be found on the markets of the country. Experiments will also be made with cardines when the season for those sweet little fish arrives, and it is understood that Mr. Kinney will engage in the business on an extensive scale. A more delicate morsel would be difficult to find than the smoked salmon, and as a monopoly of the business can be enjoyed here, Astoria will most likely be widely advertised as the headquarters for the production of a new and most valuable addition to the list of canned foods.

Times are never so hard to make investments in which there is a clear profit. An opportunity is all that is necessary, and the money is always forthcoming. This opportunity has been presented to the public by Shanahan Bros, the well known and reliable dry goods house. Tomorrow commences a great reduction sale, a reduction sale in truth and in fact as many of the ladies of Astoria will certify, past experiences with other reduction sales bring their proof. Granting that times are hard everybody will surely purchase now to save the extra price they would pay other places. Come in the morning, that you may not be crowded in making your selections.

## LOOKING OUT FOR SQUALLS.

Mr. Eastside—When I come home late, I always go to the kitchen first and strike a match.  
Mr. McHarrier—What do you do that for?  
Mr. Eastside—To see if the broom is in its place in the corner. If it isn't I know what sort of a reception is in store for me when I get up stairs.—Texas Siftings.
