WHAT IS HE DOING?

Mr. Remington's ninety days is fast drawing to a close. By the way, where is Mr. Remington? The subsidy company have heard nothing from him, have received no word whether the railroad matter is prospering or not, and do not know that he has done anything since leaving here but go straight back to his grocery warehouse in Salt Lake and sell tea. It seems to us that had there been any cheering news for him to announce he would certainly have let Astorians know it. Not having done so, the melancholy inference is that there is no good news to tell. Next spring, maybe, Astoria will not wait for parties from Salt Lake, or Jerusalem, or New York to lift her railroad wagon out of the rut, but putting her own shoulder to the wheel will do the job herself. We have been standing still long enough, like Mahomet, for the mountain to come to us. We must go to the mountain.

Senator Hill's position on the leading question of the day as outlined in our dispatches this morning, is one of singular freedom. He has been committed to but one thing in regard to the money question, and that is opposition to the silver law as it now stands.

He has been the leader of his party in declaring war against the Sherman law, but the grounds upon which he has done it have not been clear. He is for both money metals, but how to combine their use he has not explained. His condition is in a remarkable degree representative of his party. He is in favor of silver, but opposed to the law that favors it more than any measure ever enacted. If he is not in favor of the silver standard, he should say what he would do to maintain for the people the use of the two metals.

It has been stated in what was believed to be a friendly way, that Mr. Hill favored the French ratio, 15 to 1, an advance on the estimation of silver in this country of three per cent, and one which would widen by that much the gap between the market and the coinage ratio of the money metals.

However, the French ratio, which is said by the Latin nations to be scientific, is made more preposterous than ever by the willingness of the silver party to compromise on the ratio by putting twenty-five per cent. more silver, instead of three per cent. less, in the dollar.

A Gladstonian candidate for parliament has been defeated under circumstances that are ominous of the final discomfiture of the home rule cause. Mr. Grenfell of Hereford, elected as a Gladstonian, resigned his seat because he could not sustain his home rule policy in its latest developments. He had made up his mind to support the establishment of an Irish parliament in order to get rid of the Irish in the imperial parliament, but giving the Irish a parliament of their own, and then retaining eighty members at Westminster, thus giving them the opportunity to coerce further concessions to Irish independence under penalty of blocking Welsh, Scotch, and English measures, was piling the dose so high that Grenfell could not assimilate it and so resigned. His seat is filled by an opponent of Gladstone which makes a difference of two in the vote on the third reading, and is one of the last straws. The majority of the man who was elected (a staunch conservative) is small, but is sufficient to show that there is no popular uprising in England for the Irish home rule policy. The indications are that if Mr. Gladstone gets his bill through the house—now extremely doubtful he will lose on the appeal to the country.

The Salvation Army is preparing to fight the law by holding open-air prayer meetings in the streets of this city. The council might instruct its police to break up such meetings.

gal advisor to prepare a careful report on this matter. In every municipality on this coast where a parallel case has been fought out in the courts the Army has won, for no municipal law can interfere with the national law which gives to every citizen personal liberty and his own manner of sacred worship. How far this personal liberty extends is another matter. But would it be as well for the city attorney to try and save his employers a large sum in costs by instructing them one way or the other beforehand.

Congress is already a disappointment to enthusiasts. There is one thing certain—nothing will be done in a hurry. The message of the president has not persuaded the falsifiers of finance of the errors of their ways. The silver diggers in the treasury have a furious appetite for mining gold coin through turning out silver pigs at the smelting houses. The senate is the sticking place, and the senate has so much dignity and courtesy and solemnity and stupidity that it is slow to do well.

The public spirited action of the Odd-Fellows Loan and Building Association yesterday in deciding to reduce the rents of all tenants of its buildings, is to be heartily commended and should serve as an example for every owner of premises in this city. These are dull times, to put it very mildly, and those landlords who are attempting to bleed their renters all the more on that account, ought to be ashamed of their trickery and meanness. Well done Odd-Fellows.

Astoria needs an opera house, and needs it badly. It is not well to have it said of us that, while no other city of half our population on this coast is without a theater, we are unable to raise beyond the level of the bestial dance hall style of amusement. Here is an investment that certainly offers its attractiveness to the speculator.

A VIOLENT COMMOTION.

In the stomach and bowels produced by a violent purgative and its consequent drenching action, never are, because it is impossible they should be followed by permanent good effects. No specific which weakens and convulses the organs for whose relief it is used can do good. Blue pills, calomel, podophyllin, salts and senna, vegetable or mineral pills, are drastic remedies generally void of benefit. A reliable and effective substitute for them is Hostetter's Stomach Bitters, which effects a change both natural and thorough in the bowels when they are constipated. A sufficient and regular secretion of bile by the liver and sound digestion are also promoted by its use. Malaria in all its forms, rheumatism and kidney trouble are obviated by this fine reformer of disordered conditions of the system. A wingglassful three times a day is about the dose.

America's Great Danger

AN ENGLISH COMMENTARY.

Said an eminent English scientist recently: "The danger that confronts the great American people today is not the possible adoption of a wrong financial policy for the nation, or the spread of socialism, or the increase of corruption among public men. All these are bad enough, to be sure, but they are as nothing compared to the terrible national disease—I had almost said national crime—of overwork. The mad rush for wealth is set at a killing pace, and thousands fall by the way every year."

You are likely to be one of the victims!

How do we know? Because it is the exception to find a man or woman of adult age in perfect health. Nervous Disorders are spreading with fearful rapidity. Among the symptoms are—Backache, Biliousness, Cold Hands and Feet, Dizziness, Hot Flashes, Fluttering Sensation, Fainting, Headache, Hysteria, Irritability of the Heart, Melancholy, Failing Memory, Palpitation, Rheumatism, Short Breath, Sleeplessness, Nervous Dyspepsia, Sexual Debility, Etc., etc. Dr. Miles' Restorative Nervine, Church, Yellow Springs, O., writes as follows: "I have used Dr. Miles' Restorative Nervine for the past six months. I find it acts like a charm on the whole nervous system. I have not found its equal in giving immediate relief. Dr. Miles' Little Nerve and Liver Pills only need a trial and they will recommend themselves to be the best pills in the market."

"For five years I have suffered from Nervous Prostration. I was unable to work or sleep. The first dose of Dr. Miles' Restorative Nervine gave me relief, and one thousand dollars would not cover the good it has done me."—JOHN MINCHER, Youngstown, Ohio.

Dr. Miles' Restorative Nervine is unequalled in curing Nervous Diseases. It contains no opiates or dangerous drugs. Sold on a positive guarantee by all druggists, or Dr. Miles Medical Co., Elkhart, Ind.

"She Looketh Well"

to the ways of her household." Yes, Solomon is right; that's what the good housekeeper ever everywhere does.

But her ways are not always old ways. In fact she has discarded many unsatisfactory old ways. For instance, to-day she is using

the New Shortening, instead of lard. And this is in itself a reason why "she looketh well" in another sense, for she eats no lard to cause poor digestion and a worse complexion.

COTTOLINE is much better than lard for all cooking purposes, as every one who has tried it declares. Have you tried it? For sale everywhere.

THE BEST

Is the best Blood Medicine, because it assists nature to throw off the impurities of the blood, and at the same time tones up the entire organism. This is just contrary to the effect of the various potash, iron, and other mixtures, which bottle up the impurities in the system, thus producing much sickness and suffering.

BLOOD MEDICINE you cannot do better than take S. S. S. As a physician, I have prescribed and used S. S. S. in my practice as a tonic, and for blood troubles, and have been very successful. I never used a remedy which gave such general satisfaction to myself and patients.
