CRASHED THROUGH A BRIDGE

Thirteen persons killed Yesterday in a Fearful Railroad Accident.

FOUR CARS WERE DEMOLISHED

The Trusses of a Weak Bridge Collapsed and Bury a Chicago Limited Express in the Ruins.

Associated Press.

Springfield, Mass., Aug. 31.—The Chicago limited express train for Boston broke through a frail iron bridge on the Boston and Albany railroad, one and a-half miles east of Chester, at about 1:23 today, and four Wagner cars were crushed, killing at least thirteen persons, and fatally injuring several others, while at least a score were badly hurt. The wreck was the worst ever known on the road. The bridge was being strengthened for big locomotives, and the workmen who were putting on the plates were at dinner when the crash came. The locomotive passed over the structure, but was smashed, the water tank being thrown a long distance. The buffet, two sleepers and a dining car were smashed to kindling, when they struck the stream twenty feet below, but two day coaches and the smoker in the rear did not leave the track. There have been thirteen dead bodies taken cut already and twelve of them have been identified. It is believed there are two more bodies in the ruins. The list of the identified is as follows:

- J. E. DEWITT, Portland, Maine, president of the Union Mutual Life Insurance Co.
- T. KELLY, Boston.
- MISS SUSIE GOTTING, Boston.
- MRS. C. B. ISHAM, Philadelphia.
- MISS EMMA DELERTY, Columbia.
- H. C. IVES, Chicago.
- FRANK SEDGWICK, of Palmer.
- JOHN MAMASTER, express messenger, Springfield.
- J. N. MURRAY, brakeman, Green Bush, N. Y.
- GEORGE W. MORSE, baggage master, Boston.
- J. C. STACKPOLE, Wagner car conductor, Hartford, Conn.
- R. C. HITCHCOCK, Bellows Falls.

There are about fifteen seriously injured and five of six may die. The train was seven minutes late at Chester and the railroad hands say that it was going at a rate of twenty miles an hour when it struck the first of the two spans of the bridge. As the trusses collapsed, the conductor was taking tickets in the day coach and although he was thrown violently down, he escaped serious injury. There are only a few houses in the vicinity and a man driving by gave the alarm through the village street. In five minutes hundreds were on the scene rendering aid to the imprisoned people.

AFFAIRS IN HAWAII

Honolulu, Aug. 31.—Since last writing there has been more or less agitation and excitement here, occasioned by the report that an attempt will be made to unseat the provisional government. Admiral Skerrett has ordered a battalion aboard the United States ship Boston to be ready to land on fifteen minutes' notice. The provisional government is highly pleased at Skerrett's prompt action without their request, and the Americans claim that it outlines the future policy to be pursued towards the provisional government in case its existence is threatened. The royalists deny that any outbreak was contemplated. F. M. Hatch, an American, has been elected vice-president of the provisional government. The opinion prevails that Hawaii is now practically under a United States protectorate, and officials high in authority say that before Blount left, he virtually said this much.

HIS BODY TORN TO PIECES

Albany, Or., Aug. 31.—A message received this evening by L. W. Deove, from Leland, Jackson county, says that his brother Wm. Deove, aged 22, was killed this morning by a charge of dynamite in Deove & Co.'s mine on Harrison Flat. An ore containing twenty-five pounds of powder exploded as Deove attempted to remove it. His arms and head were blown off and part of his body was blown into the tree tops. The deceased formerly resided in Albany and has no family.

STEWING IN OLYMPIA

Olympia, Wash., Aug. 31.—The weather reached its highest temperature today in seventeen years, the thermometer reaching 94 degrees. Only three times in seventeen years has it been over 90.

GONE WHERE THE WOODBINE

San Francisco, Aug. 31.—Howard F. Kennedy, one of the best known railroad agents in the city, who has held the position of Pacific Coast Passenger Agent of the Chicago and North-

western Railroad for many years has mysteriously departed. It is known that his accounts are not satisfactory to the company and his disappearance is attributed to this fact. Philip L. Corbat, formerly of the Vanderbilt system, has been appointed his successor.

THE TERRIBLE STORM

Augusta, Ga., Aug. 31.—A special from Beaufort, S. C., says that over 300 dead bodies have been found on the islands about Beaufort and Port Royal. Over \$2,000,000 of property has been wrecked near the same points. Both calamities are the direct result of the severe storms which swept along the Atlantic coast on Sunday night. Every one on the fifteen or twenty islands lying around Port Royal and Beaufort is in mourning. Those who are at all posted about the country and habits of the people in the storm, visited sections are confident in their prediction that the death roll will run as high as five hundred, while some of the best people of this section of the state, even place the loss at more than one thousand.

Columbus, S. C., Aug. 31.—Accounts continue to come in of the general havoc made by Sunday's storm. Mr. Robinson of Kerrison, says that from Blachoff's place on the Edisto river, to Jacksonboro, it is reported that all the negroes on the low lands are drowned, in all about one hundred men, women, and children. The survivors relate terrible experiences and furthermore state that all dwellings are totally destroyed and that the place is in abject desolation. At Walterboro many houses were completely washed away from their foundations out into the streets and all the rice fields were overflowed. Crops to the value of fifty per cent. were destroyed. Reports of the loss and destruction of property in Port Royal, Beaufort, and the Sea Islands, are fearful. The death roll already aggregates thirty odd persons.

Savannah, Ga., Aug. 31.—Reports of the disastrous work of the storm are still coming in. The entire coast is strewn with wreckage and debris, and vessels are high and dry in the exposed harbors.

WEBBING THEM OUT

Los Angeles, Cal., Aug. 31.—Under the decision of Judge Ross, yesterday warrants were sworn out for the arrest of six Chinamen under the registration clause of the Geary act and were issued by Judge Ross this afternoon. The Chautenna Farmers' Association is determined to arrest every Chinaman in the Chautenna valley. The Council of Labor will swear out two hundred warrants on the result of the trial of the six Chinamen.

THIS LOOKS BETTER

Denver, Aug. 31.—The State National Bank, the last one of the city's suspended banks, opened its doors again this morning. The Commercial National Bank will resume in a few days. Of a score of National banks compelled to close their doors a few weeks ago, all have resumed but three, and it is said that they will again be doing business before the middle of the month.

A PRINTER KILLS HIMSELF

Portland, Aug. 31.—A. K. Westergaard, a printer, attempted suicide by the morphine route this morning. Indications are that the attempt will be successful.

Billy Mahan and Dudley Evans were placed under bonds today to appear before the grand jury on a charge of prize fighting.

FASTEST MILE FOR 4-YEAR OLDS

Woodland, Cal., Aug. 31.—The fastest mile ever paced by a four-year-old in the world in a race, was announced from the judges' stand after Diablo had made a great record of 2:09 1/2 in the second heat of the free-for-all pace.

MINERS RETURNED TO WORK

London, Aug. 31.—Over sixty thousand of the hundred thousand coal miners in South Wales have returned to work, breaking the strike there.

AN ITEM FOR THE HUNGRY

Portland, Or., Aug. 31.—Flour took a drop today from \$3.40 to \$3.25 per barrel.

ONLY RIGHT TO TELL

The Rev. Mark Guy Pease, the eminent English Divine, writes: "Bedford Place, Russell Square, London, Dec. 10, 1892.

"I think it only right that I should tell you of how much use I find Alcock's Eucras Plasters in my family and among those to whom I have recommended them. I find them a very breastplate against colds and coughs."

SIDE ISSUE FOR SILVER MEN

They Win an Amendment That Gives Them Great Power.

SEVERAL IMPORTANT MOTIONS

The House Is Upsetting all Precedents by Taking Power Out of the Hands of Committees.

Associated Press.

Washington, Aug. 31.—The silver men stole a march on their opponents in the house today and gained a victory which makes it impossible for the gold men to impose any consideration of bimetallic or financial legislation that may be reported by the committees on coinage, weights, and measures, and banking and currency during the coming session. The time-honored custom in the house has been to make the reports of the committees on appropriations and ways and means privileged matters at all times, and when the new rules were being considered today Springer, chairman of the committee on banking and currency, suddenly sprung an amendment extending the same privilege to the committee on banking and currency. Kilgore immediately followed with an amendment also yielding to the committee on coinage, and although these amendments were sharply opposed, the last was adopted by a vote of 113 to 85, and the original rule as amended was adopted by a vote of nearly two to one. Not until it was all over did the members of the house generally realize the immense victory gained by the bimetallics. Under this rule the committee on coinage can report the silver bill at any time and force its consideration by the house, and the committees on banking and currency will enjoy the same facilities for forcing its measures to a vote in the house. Incidentally, also, the house, by the adoption of these amendments, has broken away from the leadership of the committee on rules, presided over by Speaker Crisp, and has declared that it shall no longer be in power to say that the committee to determine whether free coinage bills shall be accorded consideration, or whether the attention of the house shall be directed to other legislation. Amendments to increase the membership of the committee on rules were lost. An amendment was adopted giving the committee on ways and means jurisdiction over all measures purporting to raise the revenue. Several other amendments affecting committees were lost. A motion to strike out from the proposed rules the clause which permits the speaker to decide what is a dilatory motion was discussed at length, pro and con, and was finally rejected. An amendment was offered which put it in the power of any member who is in charge of any proposition on the floor to propose the closure at any time that he thinks it advisable to do so. The previous question was ordered on the amendment, and, pending further action, the house adjourned.

Washington, Aug. 31.—The war department has received a report from General Wheaton, commanding the department of Texas, saying that he has information that a party of armed Mexicans seized a flock of sheep grazing on his land, cut off from the American side by a change in the bed of the Rio Grande river, claimed by both the Mexicans and Americans. Owing to the international aspect of the affair no action will be taken by that department (ill after consultation with the state department.

Washington, Aug. 31.—Chairman Wilson expects to have the tariff bill ready for consideration by the house by November.

Washington, Aug. 31.—The monetary stringency has caused such a falling off in the receipts of the government, that it is now falling \$300,000 short of its compulsory expenditures for pensions and the ordinary expenses of the

government. Already a deficiency of from ten to eleven millions is in sight.

GOGGIN IS AN ASS

Chicago, Aug. 31.—An extraordinary scene was witnessed in the superior court this morning. In the absence of Judge Stein, who issued the order forbidding the closing of the World's Fair gates on Sunday, the management applied to Judge Goggin to dissolve the order. He called Judges Dymne and Brentano to sit with him. They agreed that the order should be dissolved. Goggin held that it should be continued in force. At the opening of court this morning, Judge Dymne is insisted on his right to read the opinion of the majority and did so. Then, after a wordy wrangle, Goggin announced that he no longer desired the other judges to sit with him. They retired and Goggin overruled the motion to dissolve. Goggin afterwards gave as the reason for this extraordinary action that to set aside Stein's order would cause people to lose confidence in the judiciary. Judge Goggin made a long rambling address to the audience in court relative to taking public parks for private use.

ANOTHER MAD SCHEME

Tacoma, Wash., Aug. 31.—H. F. Hesse, business agent of the State Farmers' Alliance in an interview, has a scheme for preventing farmers from suffering financial loss by reason of the low price of wheat. He proposes to store the bulk of the crop of the state and mortgage it for from 20 to 30 cents per bushel, enabling farmers to pay their bills for harvesting and hold for better prices. Hesse says that he has good information that large sums are locked up in safe deposit vaults here and elsewhere, and calls attention to what good security wheat is, and urges people for the benefit of the entire state to help the farmers and prevent them selling at ruinous rates. He is looking for storage room here. He estimates the crop of Eastern Washington at 15,000,000.
