DOLPH AND THE CHINESE

He Wants Half a Million Appropriated For Their Removal.

A DIFFERENCE OF OPINION

The General Sentiment in the Senate is in Favor of Pushing the Registration Law to a Conclusion.

Washington, Sept. 2.—In the senate today, Dolph spoke in favor of his bill appropriating half a million dollars for the enforcement of the Chinese exclusion act. Dolph reviewed in detail the legislation and treaties relating to the subject and the conditions which led up to the enactment of the Geary act. The provision for the registration of Chinese was drawn up by himself and intended to be within the limits of the treaty. He said that there had been a great deal of absurd talk and ignorant criticism about the provision requiring the Chinese to register. He was more responsible for the provision requiring registration than any other man in the United States, for he drafted it. The talk about the provision being degrading was absurd. In every state in the Union voters were required to register in order that they might lawfully be entitled to vote, and yet there would be no suggestion of degrading. In that, as the deportation of Chinese was not the purpose of the law it was not incompatible with the intention of the act not to extend the time in which the Chinese may register.

While, democrat, of California, said the senator from Oregon (Dolph) seemed to have been treated badly in the senate before he (White) came there in failing to have his name attached to the Geary act. The bill which the senator from Oregon introduced had nothing in it with reference to registration; he was not the father of the registration idea, because that idea had been incorporated into the original house bill. There was not enough money appropriated to enforce the act and therefore he was in favor of some legislation to enable the law to be carried out.

Dolph asked whether all the money appropriated to enforce the act had been expended. White said he had the figures, and proceeded to give them. Since 1883, \$20,000,000 have been appropriated, of which there is an unexpended balance of fifty odd thousand dollars. It would be better he said, if Dolph, instead of trying to establish himself as the father of the measure, would devote himself to securing appropriations to enforce the law. Dolph replied that he had done all he could to secure appropriations and that there was nothing in his remarks to justify the suggestion that he claimed to be the author of the act, or that he had been badly treated by the senate.

At 2 o'clock, the repeal bill being unfinished business, was laid before the senate, but was temporarily laid aside again to allow discussion to continue on the subject of the Chinese exclusion act.

Gray, democrat, of Delaware, said: "There has never been a time during which the recent legislation has been discussed in congress that the United States could not have initiated by diplomacy a modification of the treaties and have accomplished all that was sought to be accomplished by legislation."

Mitchell of Oregon, inquired how the senator from Delaware (Gray) recalled his statement with the fact that after the United States had negotiated a treaty with China, leaving for its purpose the exclusion of Chinese laborers from this country, and had sent that treaty back to China, that it had been in fact, never accepted. Dolph's bill at the conclusion of the debate thereon was referred to the committee on foreign relations. After a brief executive session the senate adjourned until Monday.

DOINGS IN THE HOUSE.

Washington, September 2.—The debate over the house rules is developing considerable feeling between the Irish leaders and some gentlemen who constituted the factional opposition in their own party to the speaker's administration in the last house. This was apparent by the vigorous manner in which they are fighting some of the proposed changes of rules proposed in the interests of expediting business and preventing obstructive tactics. McMillan who is leading democrat of the opposition to these changes, is being ably supported by Hooker, of (Alabama) Turner of (Georgia) and quite a number of dema congressmen who oppose the adoption of any expedients of the Reed congress. The republicans led by ex-speaker Reed, are using all their ingenuity to drive the wedge in between the democratic factions. Kyle of (Miss) offered a resolution increasing the number of members con-

stituting a quorum of the committee of the whole to a majority of members of the house. The under rule brought in by the committee all the members are made a quorum in the committee of the whole. A hot colloquy took place between Catchings and McMillan, of (Tenn.) the latter asked why if the change was advisable now, it had not been made at the last congress. Catchings, replied warmly, that McMillan was the last man in the house who should ask such a question; and that a number of changes desired by the speaker and himself (Catchings) at the last session, failed because of McMillan's opposition. This was taken by many members as explanation of why McMillan dropped from the rules committee this time, after further debate the house suspended consideration of the rules to pass an amendment to the urgent deficiency bill, and after adopting a resolution making the day of the centennial celebration of the laying of the corner stone of the capitol a legal holiday adjourned until next Wednesday.

IN THE SENATE.

Washington, Sept. 2.—In the senate today, Voorhees gave notice that he would move on Monday to begin the daily sessions at 11 o'clock instead of noon, adding that he had an old fashioned notion that the senate should submit to the will of the majority. The silver men see in the motion and the accompanying remarks an indication that it is the intention to force matters in the repeal bill debate with the probable effect of adopting the closure.

The Bear and Rush will remain in Bering sea until November and October 1st, respectively, while the Mohican, Ranger, Albatross, and Corwin, will go to San Francisco immediately on receipt of their orders. On account of the uncertainty of American interests in China, because of the Geary law, the gunboat Petrel will be sent to China without delay. Letters received from China state that private parties and secret organizations on the Pacific Coast are sending Chinese back to their native land and the present bad feeling has been augmented.

MORE RIOTING IN SELMA

A Mob of Hoodlums Attacks the Chinese Resident's.

MONEY AND GOODS STOLEN

The Police Force With the Aid of Winchesters Broke up the Mob and Arrested the Hangers-on.

Selma, Cal., Sept. 2.—Some time ago the citizens of Selma, gave the Chinese laundrymen notice to leave by the 1st of September. No force was to be used and the Chinamen were preparing to leave peacefully. Last night a mob of vineyard hands and tramps led by T. R. Vincent, manager of the Stroud vineyard, came into town and made a raid on the Chinamen. The raid was without the sanction of the people of the town and was led by drunken hoodlums. The officers tried to stop them before they had done any damage but the mob was too large for them. One house in Chinatown was broken into, the money tills and trunks of the Chinamen were forced open and filled, and clothing, cigars, and other goods were stolen. The mob marched through the town, taking seven Chinamen with them towards Fresno, when Constable Spencer ordered them to stop, and no heed being paid to his order, he opened fire with his Winchester. Six shots were fired, one of them grazing Vincent's forehead and another going through the hat of one of the mob. The mob broke and ran, part of them going towards Fresno with the Chinamen. The officers secured help and teams and overtook them near Fowler. There are now eleven men under arrest and warrants are out for several others. The Chinamen claim to have lost about \$2000 in cash, besides other property.

REDAVING, CAL., SEPT. 2.—

SAN BERNARDINO, CAL., SEPT. 2.—

THE FEARFUL AFTERMATH.

Charleston, S. C., Sept. 2.—The New and Courier has made a full investigation of the condition of affairs on the coast of Carolina and finds that its reports are not exaggerated. The loss of life will aggregate 800 in Beaufort county between Charleston and Savannah. The storm swept away most of the homes as well as the growing crops, and left the people in destitute state. The loss of life and property is found to be the greatest on St. Helena, Ladies, Wasso, Coosa, Paris, Dawkinside, and Dathan islands. These islands, together with Port Royal island have a population of about 15,000, most of whom are negroes. It is estimated at this time that the figures of those lost are incomplete. Reports show that there is great distress among the colored people. Their homes have been washed away and their crops destroyed. There is no work for them to do and they are suffering for food. Ex-Congressman Elliott says that starvation is sure and imminent. A relief committee has been organized and an address is being prepared calling on the American people for help. Shipping has suffered and nine-tenths of the vessels in Port Royal and Beaufort have been temporarily paralyzed by the loss of dredges and tugs, and damage to drying plants.
