needed along the Columbia river is a state log scaler. The gigantic steals which are systematically perpetrated by men who scale for the mill men have become such a loss to the logger some action should be taken to give them immunity from the bold-faced robberies of which they are the helpless victims. This matter has become such a crying evil that immediate action should be taken to suppress it and give the logger a square deal. The that for the sake of simple justice and the amount of his salary depends altogether upon his ability as a thief. If he can step upon a 300,000 foot raft and make it scale about one hundred and seventy-five thousand feet, his services are, of course, invaluable to the mill man. He is, of course, well aware of this fact, and governs himself accordingly. After log senier could be created the loggers could pay him five cents a thousand for his services and save about fifteen or twenty cents more than they now get for their logs per thousand. The good work being done in this city by the Rescue club cannot be overestimated. Apart from the mainspring of its actions—the temperance cause—the club is responsible for a public entertainment every Saturday night that forms a welcome break in the monotony, for hundreds of Astorin's residents. These entertainments are gaining fast in popular favor. First, they are free; second, they are meritorious in the highest degree; and lastly, such an air of welcome permeates the hall and surrounds the new comer that he must of necessity call again, until it becomes a habit from which he has no inclination to break. We notice that a committee of the club has been appointed to make arrangements for a grand social evening in order to defeny the balance of the expenses incurred in enlarging the building. The

the public can by purchasing tickets generously, show to some extent that they are not ungrateful for the efforts that have been made steadily for years past to please and amuse them.

We publish in another column a communication from Dr. August Kinney. It is valuable, principally because it points the way to a scheme that calls for self reliance, and the bringing out of a feeling of confidence, without deshould be carefully read and commented on by every business man in this city We invite a discussion on its

## TOO OFTEN THE CASE INTERESTING PROOFS.

A young society lady, after a round of gayety, becomes suddenly conscious of an un-usual sensation. She has frequent attacks of dizziness, her back aches, and she feels blue and generally run down.

Mothers, look well to your daughters! Daughters, look well to yourselves! Let the first symptom denoting the approach of disease receive your instant atten

tion. Healthy women are the hope of the race, and it is well-nigh criminal to neglect anything which promises relief.

There is hope for all sufferers from Nervous Diseases. Read what follows:

Mrs. Jennie C. Davis, a fine artist and an accomplished authoress, of Westfield, Wis., had been subject to headache ever since she could remember. So severe were her attacks as to cause at times temporary delirium. All treatment had failed to relieve her, but after using Dr. Miles' Restorative Nervine she writes: "My record is to me, at least, satisfactory. No headache, constantly increasing appetite, and a consequent gain in weight of two and a half pounds in just one

Six weeks later she writes: "Have read and sewed immoderately of late, but my headaches do not return." Mrs. John R. Miller, of Valparaiso, Ind.

was attacked three years ago with turn of life in its worst form. It finally went to her head, and all indications were that it would result either in insanity or softening of the brain. Her husband thus writes; "It would be impossible for me to attempt a description of her sufferings during all this time. She was treated by our very best local physicians, You are invited to estimate the weight of the \$50.00 Doll (Jenness Miller) just as it now appears in the window of Shanahan Bros.
