he had felt at home since his first day in Astoria. He believed that his work here would be productive of much good, and knew that he would be able to work in harmony with every other church in the city for the general good and welfare of Astoria. After the reverend gentleman had concluded the choir gave another selection, and then Mrs. Bushong, in a few well-chosen words, thanked those present for their generous welcome. Messrs, Belcher and Kozer convulsed everybody with "The Cat Came Back," and another selection by the orchestra completed musical program. Coffee and sandwiches were then indulged in, and a crend gentleman had concluded, the a social way. The ladies of the church wish to express their thanks to Mr. J. G. Prof. Edward S. Holden, director of Lick observatory, has prepared for the October Forum an absorbing account of the wonderful new star discovered in 1892. This star, which resembles our sun, blazed up to an astonishing brilliancy within a few days of its discovery, then gradually disappeared, and subsequently reappeared as a neb-- ula. The changes of light and heat it developed, if repeated in the case of our sun, would mean a quick end of the human race and the immediate extinction of all life upon this earth! This is the mast uncomfortable suggestion with which astronomers have startled us since the spring comet was expected to hit the earth.

Last night the Methodist church was the scene of one of the most pleasant gatherings that has been held in Astoria this year. The interior of the building was very beautifully decorated with flowers and made to look as much like a drawing room as possible. About 250 members of the church and their friends were present, and the affair, while really a reception to Rev. J. W. Bushong and his wife, partook of the nature of a social entertainment. After a splendid selection by the orchostra, consisting of seven talented local amateurs, Miss Susie Roberts recited "The Rev. Quako Strong," bringing down the house with her rendition of the subject. Miss Carrie Warren followed with a plano solo, and Miss Ora Ballard gave a sentimental song. After this came a recitation by Miss Bessie Ross, delivered in that young lady's usually excellent manner. Mr. Terry McKean was responsible for a negro melody, and was forced to respond to an encore that would not be denied. Then Professor Wright delivered an address of welcome to the new

THE FATHER OF MANY ILLS.

Constipation leads to a multitude of physical troubles. It is generally the result of carelesaness or indifference to the simplest rule, of health. Eugene McKay, of Brantford, Ont., writes: "I had for several years been a suf-ferer from constipation, had taken a great many diffedent remedles, some of which did me good for a time, but only for a time, then my trouble came back worse than ever. I was induced by a friends, whom Brandredit's Fills had benefitted, to try them. Took two each night for a week, then one every night for about six weeks. Since that time I have not experienced the slight-est difficulty whatever, and my bowels move regularly every day. I believe frmly that for sluggishness of the bowels and b'housness Brandreth's Fills are far superior to any other. Constipation leads to a multitude of Pillis are far superior to any other.
