### ABOUT EARTH WORMS.

Mr. Sylvester Pennoyer, at present unfortunately and of human error, Governor Pennoyer, should not be allowed to continue much longer in hi pardoning lunacy if there is any law in the country by which his vagaries can be prevented. He is only an ally of the worst class of residents that Oregon possesses today, and is doing virtually in his official position that which is alding blackguardism and storing up strife, from one end of this state to the ately it cannot be denied that the great majority of the people of Oregon are law abiding, conscientious, and trustworthy, but at the same time it is apparent that we are also cursed with a few stray seeds of anarchism and destruction whose hotbed is in some of the larger semi-western populations.

Now, Governor Pennoyer, from his throne in Salem, reviewing his imperial domain, and gradually becoming Imbued with the idea that if there were no Pennoyer there would be no Oregon is a crank, If that were all, his dutiful subjects could afford to smile and the genus "harmless," and when his idiocyneracles, as they often do, result in the imperilment of the public safety and the public welfare, his case should be attended to. He does not know the harm he does. We will go further and say that we believe him to be actuated by what he considers, from his lights, an honest sense of duty. Nevertheless, however sincerely a fool may believe in his folly, the harm that his folly can do is not lessened a particle.

There is a breed of demagogues in our state, and Clatsop county has her share, who are daily preaching doctrines of such infamy and imbecility that, if they are not stamped out, we will become an awful example through cut the country. These destroyers range from the flat fools to the anarchists who preach incendiarism, and it is the theory of politicians that their votes are precious.

These leeches of civilization, who stir up strife by raising antagonisms among the people with representations that would be foolish if not fiendish; the baseness that appeals for popularity to the vicious idle, and to the rabid vanity of miscreants of all denominations-the brutal incitement of hostility between classes; should meet the discouragement of public contempt, strong enough to apply handcuffs and

ly that it will pass. And when this

the most occur in a few more days, it eems to us that any anti-Chinese agitation in this city will be wasted labor and nothing more. The McCreary bill provides that the registration period shall be continued for a space of six months after the passage of the bill, and that all procedure against Chinamen shall be stayed until then.

As intelligent, thinking people we must keep posted on the actions of congress in this important matter. The representatives of the people are not slumbering over this question. They are fighting it out today, and their majority decision must govern the actions of all law abiding citizens, Those who are not law abiding, but who consider that their holy birthright puts them "above that kind of thing," will soon come to the end of their tether and be pulled up with a round turn.

In the meantime we would suggest to the gentlemen who are formulating a plan to get rid of the Chinese, and who no doubt have the best intentions in the world, the advisability of turning their attention to Washington and of waiting for the outcome of the momentous matter that is at present before congress. In a few days more the law of the land will proclaim the doctrine that the Chinese are free to live here unregistered for a period of six months

In our telegraphic columns will be found the statement that the democrats of New York will today nominate for the supreme court of appeals, ex-Judge Maynard. The name of this man reeks with infamy from one end of the United States to the other, He ought to be in the penitentiary instead of on the bench, and we hope that a sense of shame will prevent his nomination this morning. The announcement of his name as the party's choice, will help to kill that party in New York state.

There is a chance for vigor in our navy department. The bombardment of a civilization. Instructions should be enbled our ships of war at Rio Janeiro, commanding them to sink the Brazilthe order ought to be supplemented with the suggestion to construe piracy interally. There is no use flesiring Admiral Mello to cease firing. He is a pirate and should be fired upon.

THINK IT OVER.

In our telegrams this morning appears a dispatch to which we desire to call the special attention of the citiens of Astoria at this time. The Mic-Creary amendment to the Geary bill, or is there the McCreary substitute to the Everett bill, is about to pass congress. The preliminary vote shows conclusively that it will pass. And when this integer is accomplished, which will at soon set me right."

SET HIM RIGHT.

Geo. Augustus Sala, the well known English writer, on his last Australian trip, wrote as follows to the London Dally Telegraph:

"I especially have a pleasant rememberance of the ship's doctor—a very experienced maritime medice indeed, who tended me most kindly during a horrible spell of bronchitis and spasmodic warman, provoked by sea fog which had swooped down on us just after we left San Francisco. But the doctor's prescriptions and the increasing warmth of the temperature as we neared the tropics, and in particular, a couple of Alleeck's Porous Pinsters chapted on—one on the chest and another between the shoulder blades—

## Heart Failure.

HOW TO AVOID IT.

The epitaph on many a tombstone is "heart failure." No wonder, when we consider the immense strain which is put on that small organ. Marvelous as it is, beating 100,000 times and exerting a force equal to 5,184,000 pounds daily, it has its limit-its endurance often is too severely tested. So common are diseases of the heart-though often for a considerable time without the suspicions of the afflicted person being in the least excited—that it is stated that one person in four has a bad heart! Dr. Franklin Miles, of Elkhart, Ind., has for years made a special study of all diseases of the heart, and his remarkable success has made his name a familiar one in all parts of our land. city by a rebel navy is an outrage on He has found the most common symptom of heart disease to be pain, distress or tender ness in the chest, back, stomach, bowels, left shoulder and arm, shortness of breath, smother-

ing spells, fainting, etc.

### Progress and Cookery.

"The World Moves." There is no better illustra-

tion of this old saying than the numerous schools nowa-days devoted to practical kitchen processes. These schools have been alert to find a reasonable substitute for lard, the use of which is so generally condemned. This want has been fully met by

the new vegetable Lard. When science strikes the kitchen, it strikes home and everybody gets the benefit. Cottolene is a clean, delicate and economical substitute for Lard-cleaner than the hog, delicate as the finest vegetable oil, economical from its low price and small quantity required to be used. Prove it for yourself by a trial.

At grocers everywhere. REFUSE ALL SUBSTITUTES. N. K. FAIRBANK & CO., ST. LOUIS and CHICAGO, NEW YORK, BOSTON

SWIFT'S SPECIFIC is totally unlike any other blood medicine. It cares diseases of the blood and skin by removing the poison, and at the same time supplies good blood to the wasted parts. Don't be imposed on by substitutes, which are said to be just as good, it is not true. No medicine IN THE WORLD has performed as many IN THE WORLD wenderful cures, or relieved so much suffering.

"My blood was badly poisoned last year, which got my whole system out of order—diseased and a constitut source of suffering, no appetite and no enjoyment of life. Two bottles of brought me right out. There is no better remedy for blood diseases.
