A SIGNIFICANT SCENE.

The other day at Chicago when Professor. Wilkinson spoke of the attitude raigned the attitude of Christianity towards old religions, the "Herald"

"There was but one person in the vast audience who did not applaud That person was a woman, Julia Ward Howe, the author of the 'Battle Hymn of the Republic,' and who has fought many a battle valliantly and bravely for the cause of Christ. She took too

and the very presence of the sweet-faces

and motherly-looking woman quieted the large audience. In an instant stillness permeated the vast hall. So quie birds in the sunshine outside. 'I do not agree with Professor Wilkinson in his remarks on the attitude or Christianity toward other religious,' said Mrs. Howe, and I can never agree with any persor no matter who, who enunciates such principles.' She spoke but a few moments, but each word that fell from her lips ent like a knife. She severely rapped the professor on the knuckles. She took the word Christianity back to Christ Himself; to the endless fountain of charity out of which waters, she said, have bubbled a stream of crystal purity which has been the cternal stream of true progress and of all true civilization. Her words, few as they were, and simple, were convincing, and the fickle audience, who but a moment dom, if ever, have the huge rafters and girders of Columbus Hall creaked under the pressure of such a storm of ap-

"When the meeting broke up at noon and the great audience were leaving their seats, some one in the hall, it is not known who, touched the keys of the great organ, and there floated out on the air the rapturous, swelling notes of the grand old hymn:

Mine eyes have seen the glory of the coming of the Lord;

He is tramping out the vintage where

the grapes of wrath are stored. "The audience, one and all, caught the enthusiasm and magic influence of the words, and fully 4,000 voices caught up the strain."

SILVER AND GOLD.

The Oregonian, discussing the late meeting of the bi-metallic league, says "This so-called bimetallic league therefore, that is trying to push silver to the front; carries a misnomer. It is manametalfic league, filtyer monomet-

All persons who of our gold, the world will gladly take gestion, and sleep, and tends greatly it, and we can go to the silver standard; but even then we cannot help having our values measured in gold by the world which uses both it and our othmetalism, then, through continued pur-is the best remedy for diarrhosa. Twen-chases of silver, is nothing less than a gists throughout the world.

This is the right kind of talk. The only fault about it is that it does not go case with too much moderation. Free coinage of silver would be instantly the silver standard. The hour it is known there is to be free coinage, before the formalities of law are perfected, the dollar would be down to the silver levci and all foreign silver perfectly free at our mints. The price would fall in Portland, Or., Oct. 6, For Western stead of rise, The price per ounce would Washington and Western Oregon: Oc- be 129 cents in silver, worth half as not sell silver dollars; they would mark up their prices 100 per cent.; and a gold five-dollar piece would pass as a 100,000 times and exerting a force equal to a gold five-dollar piece would pass as a ten-dollar piece. The performance would be very simple, and the result, losses to everybody, silver lunatic kings included. This much, and much more, stands the least excited—that it is stated that one ahead of us if the stupid croaking of person in four has a bad heart! Dr. Franklin Miles, of Elkhart, Ind., has for years made the Bimetalic One Metal Convention a special study of all diseases of the heart takes root and grows in the minds of and his remarkable success has made his

City Physician Wheeler of Portland. n his monthly report says: "When people realize that filth is one of the greatest disease generators, and that cleanliness and sunlight are the greatest promoters of health, then will the public make a long stride toward santation. The fact that cholera has again States, notwithstanding all the precautions that are being used, should stim ulate every householder or occupant to use the utmost care, and see that their yards, cellars, and garbage barrels are kept elean. Such simple measures aid greatly in making a community more healthful, as well as preventing a lodging place for cholera germs."

We would like to know what precautions Dr. Wheeler is urging against smallpox. By the way, how is the doc or on a smallpox diagnosis, anyhow?

In another column is an appeal from the ladies of the W. C. T. U. for assist ance for the poor during the winter months. This is the right kind of Chris tianity. # New Shortening

If you have a sewing machine, a clothes wringer or a carpet sweeper (all new inventions of modern times), it's proof that you can see the usefulness of new things.

Is a NEW SHORTENING, and every housekeeper who is interested in the health and comfort of her family should give it a trial. It's a vegetable product and far superior to anything else for shortening and frying purposes. Physicians and Cooking Experts say it is destined to be adopted in every kitchen in the land. This is to suggest that you put it in yours now. It's both new and good. Sold by leading grocers everywhere.

Made only by N. K. FAIRBANK & CO., ST. LOUIS and CHICAGO, NEW YORK, BOSTON.
