## SHE IS "VIGILANT" INDEED

The Beautiful Hereschoff Yacht Wins the Second Race.

IT WAS VICTORY ALL THE WAY

Valkyrie does her Best to Win, but is Beaten at every Stage of the Game.

Associated Press.

New York, Oct. 9.—For the second time, and that more easily than the first, America's cup defender Vigilant defeated the English representative Valkyrie. The second race was sailed today on a triangular course from Sandy Hook under conditions that could not be more gratifying. While the victory today was a magnificent one, only the strongest words of praise can be said of the gallant but ineffective struggle which the Valkyrie made. She was beaten by three miles at the finish. It was a fair and square open sea race, both boats finding every breath that was astr. When the Vigilant turned the flag at the end of the second leg she was a good two miles in advance. Having rounded that mark, then came another leg, in which the cutter was supposed to be much the better boat. The wind was pretty nearly abeam and the sheets were hauled aft. It was a pretty good specimen of reach, and yet the light draughted boat knocked spots out of the deep craft. There but is one thing to say about it. The Vigilant continued to increase her lead from the time she began the leg until she crossed the finish line. She had made on an average just about an actual gain of a mile on each of the three legs. It was an ample test, as has been told on each of the three points, windward work, running, and reaching. It is generally admitted that the Valkyrie is the best boat England ever sent over to win the America's cup. She met, however, a yacht that was so far her superior that her hitherto admirers all say there can be no doubt that the Vigilant will win three straight races and therefore the match. It still remains, however, a question as to which boat is the faster in a half gale and a very rough sea. The official time is:  
Vigilant, 3:25.01.  
Valkyrie, 3:35.36.

## PROGRESS OF THE RACE.

New York, Oct. 9.—The second of the series of races between the British yacht Valkyrie and the American yacht Vigilant for the America's cup, was sailed today. The course today was a triangular one outside Sandy Hook lightship. Each leg was ten miles long, making the entire course thirty miles. Early this morning the sky was overcast with a fog on the water, but later on it cleared away and the fog lifted, making the day brilliant. The wind during the morning was very fitful and uncertain, blowing part of the time only six knots per hour, but at the hour of starting it was blowing an 18 knot breeze. The preparatory gun was fired at 11:15, and the starting gun five minutes later. The yachts maneuvered for position to the northward of the mark, both carrying mainsail, foresail, jib and club top-sails. The Valkyrie again got the best of the start, crossing the line at 11:25, followed by the Vigilant five seconds later. Then the Vigilant set her jib top-sail and began to close up on the Valkyrie's weather quarter, both making good deadway. The wind freshened and the Valkyrie moved forward, opening the gap of four lengths which she maintained without material change until 11:50.

At 12:20 the Vigilant passed the Britisher and at 12:30 was an eighth of a mile ahead. The British claimed that they wanted a heavy wind to show what they could do, but the Vigilant beat the Valkyrie on the wind as badly as on Saturday she beat her before the wind.

The Vigilant rounded the first stake boat at 1:05, and the Valkyrie three minutes and fifteen seconds later. The Vigilant rounded the second stake boat having covered ten miles off the second leg in 51 minutes.

The Vigilant wins, crossing the line at 2:50 p. m. The Valkyrie crossed the line at 3:32 1-2 p. m.

## MAY TAKE A HAND.

Cleveland Will Probably Forestall the Action of Congress.

Chicago, Oct. 9.—A Washington special says that Cleveland is getting ready for the issue of gold bonds, probably \$100,000,000, either under the compromise treasury or under the authority of the treasury department. It is stated that the best compromise can be made with the silver men to continue the purchase of 2,000,000 ounces of silver per month for three years, and to authorize bonds for the purpose of increasing the gold reserve to \$200,000,000.

600. The silver men may insist on the purchase of 2,000,000 ounces per month. If they do, they will consent to a provision permitting the national banks to issue circulation to equal the par value of their bonds. Cleveland may repudiate the proposed compromise, and may even seek to head it off by announcing that he will provide for bonds under the authority he already has. Carlisle's emphatic denial of the report from Paris that the United States is seeking to arrange for a \$100,000,000 bond issue abroad, and his declaration that no bonds will be issued by the democratic administration, have no bearing on the situation.

## A WONDERFUL SUCCESS.

Chicago's Day at the World's Fair a Blaze of Glory.

Chicago, Oct. 9.—A perfect autumn day and the largest crowd that ever congregated at a like gathering in the World's history combined with all other features to make Chicago day at the World's Fair an unprecedented success. Everything on the program went off with perfect success and the only thing to mar the day or evening was a number of little accidents inseparable from the crushing and jamming of such a mass of people as congested the World's Fair district. Happily there were but few serious accidents, although a great many people were painfully bruised in the different crushes. The crowd was larger than that at the banner day of the Paris exposition. Every part of the grounds was crowded and the Midway Plaisance was almost impassible. Never before has a holiday been so generally observed in Chicago. Every business house of any consequence was closed and small stores of all descriptions followed suit. In all sections of the city these stores were closed, and even the thousands of millmen caught the infection and notified their patrons several days ago that they would make but one delivery today. Many large firms, in addition to closing their places of business, furnished employes with tickets of admission to the fair. Among the more notable features of the day were the memorial editions of the Inter-Ocean, Record, and Times, newspapers of this city. These papers, which were profusely illustrated, contained elaborate descriptions of the great fire. So unprecedented was the demand for these papers, that from an early hour in the morning they sold on the streets at a premium and by the afternoon people were paying as high as fifty cents per copy for them. At the down-town terminals all the morning the crush was appalling. At the steamboat landings of the Illinois Central and the elevated stations, there was a jam the like of which has never before been seen here, while along the line of the cable roads people were packed in a black mass for blocks. At the grounds the steady stream seemed to increase rather than to diminish towards dark, as thousands of additional people began to make their way in to see the night display.

Never in the history of Chicago was there such a demand for transportation facilities as today. The crowd was handled well. Accidents were few, and only a small proportion of them were fatal. Those killed were Charles A. Clark, of Buffalo, N. Y., struck by a cable car, and Jas. Malcolm, residence unknown, died from a stroke of apoplexy at the fair. Among those injured on the cable trains in the rush to the Illinois Central and elevated stations, etc. were: Mrs. Louisa Rhode, of Gilman, Ill.; Andrew Wells, Laupaca, Wis.; William J. Burr, Hopkins, Ky.; O. T. Reynolds, and Mrs. Nettie Rogers, of Columbus, Ohio; Mrs. Matilda Stewart, of Fond du Lac, Wis.; Chas. Long, of Cincinnati; Toby Larsen, of Chicago, and Policeman Patrick Clifford. None of these are thought to be fatally hurt. The greatest crush occurred at the Congress street depot of the elevated road. The crowd there was simply terrific, and despite the utmost efforts of the police to keep them back, the jams were such that women began to faint and then a panic followed resulting in the serious injury of many people. There were a number of distressing accidents on the fair grounds proper tonight owing to the awful crush. The hospital record at six showed less than forty slight casualties. Two hours later the number had increased to 125. Of these the most were women who had fainted in the rushing and surging mass, and who seemed to have lost all power of reason. The worst crush of all was in the early evening at the east side of the transportation building, where people became wedged in a great mass and a panic commenced. Men shouted themselves hoarse to still the restless throng. Women screamed frantically, and dozens fainted. At 11:30 p. m. thousands of people were waiting for trains, and it looks as if it will be early morning before all of them get down town.

At 11:30 p. m. the bureau of admissions of the World's Fair announced that the count of today's admissions cannot be finished before early morning, but they estimate the attendance at 725,000. The total indebtedness of the World's Columbian Exposition has been wiped out.

## HE SCORCHED THEM BADLY

Representative Boutelle Says What He Thinks of the Elections Bill.

THE CONFEDERATE CONSPIRACY

For Ten Days the Sheeted Ghosts of the Confederacy have Giberred about these Halls of Congress.

Associated Press.

Washington, Oct. 9.—In the house today Boutelle said:

"Every democratic speech in favor of the elections bill demonstrates it to be a blow at the fundamental principles underlying our government. I thought that the new generation would join hands with us in building up a common country. For ten days the sheeted ghosts of the confederacy have flitted about these halls and giberred of the defeated conspiracy. The vice-president of the United States has been accused of undue sympathy with your struggle to expunge the government, yet you do not complain. Not a Union soldier sits about the cabinet table." Republican applause.

Boutelle then went on to take up the records of the democratic senate committees beginning with president pro tem Harris, and showing almost without exception that they had served in the confederate army. He reviewed the committees in the house from the speaker down to the committee on pensions, showing how they were dominated by ex-confederates. Wilson, he said, ejected Springer from a loyal state as chairman of the ways and means committee and Holman was deposed by the triumphant democracy with a confederate. He continued:

"I declare here now on my own responsibility as a representative, that no more mischievous doctrine, no more deadly blow at our institutions, at the essence of our nationality, of our country, can be dealt than by the denial of the right of this imperial government to cross the borders of a sovereign state if such doctrines are to prevail, then the cause for which I and two millions of the northern countrymen fought when the rebellion was put down, is not victorious."

Payne, republican, of New York, opposed the bill. He detailed at great length the "theft" of the senate of New York by democrats in 1890, and the part taken by Judge Maynard, who was nominated for supreme judge by the New York democrats last Friday. "Why do you demand honest elections," he asked, addressing the democratic side, "when you nominate for the highest position in the Empire state a criminal?"

## NOMINATIONS CONFIRMED.

Washington, Oct. 9.—The senate in executive session today made public its confirmations of last Thursday including four Indian agents appointed from one state to another, the chief justice of New Mexico, and six others, as follows: Thos. Smith, of Virginia, Chief Justice of New Mexico; Indian agents, John A. Smith, of Mississippi, at Yankton, S. D.; P. M. Allen, of Illinois, at White Earth, Minn.; Jos. Roxinson, of Missouri, at Nez Perces, Idaho; W. L. Hargrave, of Indiana, at Western Shoshone, Nevada; also Jos. D. Straghan, for surveyor general of Idaho.

## ABE WILKES WINS

And Pulls Off the Biggest Stake Ever Made by Three-Year-Olds.

Lexington, Ky., Oct. 9.—The star event of today was the stallion representative stakes for three-year-olds. The prize was \$11,250, of which the winner received \$8,000, the largest amount ever trotted for by three-year-olds. It was a stubborn fight between Abe Wilkes, Medio, and The Conqueror, while Axle was prominent in the first

two heats. Abe Wilkes' gameness and Goldsmith's driving gave him first money. Wm. Corbett, of San Mateo, California, bred the gallant black colt, and pocketed \$1,950 by the conditions of the stake. The track was very fast and the time in the three-year-old stakes the fastest five-heat race for three-year-olds that has ever been run. Time, 2:14 3-4, 2:14 1-2, 2:15, 2:15 1-4, 2:17 1-4.

## SLAUGHTER HOUSE FOR BABIES.

Horrible Disclosures Made in a San Francisco Foundling Asylum.

San Francisco, Oct. 9.—A shocking scandal has been caused here by a coroner's investigation of the San Francisco foundling asylum, where thirty-three babies died within the past six weeks. The place was closed on Thursday last and twenty-four foundlings were given into the custody of the Catholic Infant Shelter. The coroner has ascertained that three walrus died for lack of nutrition and pemphigus. The Daughters of the Good Shepherd have publicly branded the asylum as a slaughter house for babies. The sanitary conditions of the asylum are very bad. The official undertaker of the institution testified that when infants died the attendants put the bodies in a box under the front door steps and kept them there like so much garbage until he came to take them away.

## WILL FORCE IT TODAY.

Washington, Oct. 9.—The decree of the democratic caucus at the house tonight was that the Tucker bill, repealing every vestige of the federal election laws, except one stray statute, should be passed tomorrow. The stray statute 5528, not included in those repealed, permitted by inference the presence of troops at the polls. It was decided unanimously to pass the Tucker bill as it stands, and have it amended in the senate. A resolution was adopted as follows:

"Resolved, That it is the sense of this caucus that the pending bill should be passed by the house of representatives tomorrow and that the democrats should present an unbroken column in its support."

## A PERTINENT ENQUIRY.

Washington, Oct. 9.—In the senate today Dolph, republican, of Oregon, offered a resolution which went over, calling upon the secretary of state for information as to whether China requested an extension of time for the registration of Chinese laborers in this country as required by the act of May 5, 1892, or whether it has given the United States any assurance that, if the time for registration should be extended, Chinese laborers would register and take out certificates. Dolph said subsequently that he understood there had been such a request or assurance.

## MIXED UP AT RIO.

Nothing Reports Continue to Come In.

Rio Janeiro, Oct. 9.—The insurgent fleet again bombarded the outside ports today. There was also some firing on the other side opposite the city. It is believed the insurgents will attempt to capture the Estralla powder magazine, but the government will blow the magazine up if it seems likely to be in danger of capture. There is no truth in the report that foreign warships are landing sailors to protect foreign subjects.

The insurgent admiral has issued a manifesto disclaiming any intention of bombarding the city.

## ANOTHER SCENE IN THE HOUSE.

Washington, Oct. 9.—In the house today Springer took exception to Boutelle's applying the epithet "dough-face," to a member of the house. "It is an epithet," said Boutelle, fiercely, "which can be applied with equal force as well to the gentleman from Illinois as to the gentleman from Maine." Springer grew white with rage, and striding fiercely toward Boutelle, retorted: "I want you to know, sir, you cannot apply such an epithet to me." After some further exchanges, Boutelle, who was still protesting that the expression was not unparliamentary, withdrew it.

## HALF A MILLION PEOPLE.

Chicago, Oct. 9.—Today was Chicago day at the fair, and it is estimated that half a million people were on the grounds.
