The steamer Noyo came down the river yesterday afternoon at 4 o'clock, and after stopping a few minutes to pick up two passengers, proceeded on her voyage to San Francisco.

The American bark Pactolus, in tow of the Harvest Queen, came down from Portland yesterday. The American ship T. P. Oakes in tow of the S. G. Reed and Emma Hayward, also reached Astoria yesterday afternoon.

The tug Escort returned from the bar today and reported no vessels in sight. The ship seen on Thursday must have stood off to the northward in the heavy stress of weather. She will probably show up again today.

The winter flend has taken himself off for a day or two. Probably he is creating typhoons and whirlwinds in the center of the Pacific, and will return in a little while and wage war on the poor mortals of Astoria with increased vigor.

One of the prettiest sights of the year was seen on the river yesterday when the ship Peter Fredale, laden down to her plimsoll, was towed out to sea by the Escort. The bright sunshine made her clean cut rig and trim spars glitter and flash, and she was saluted as she passed down stream by the dipping of flags on the Parthenope and the City of York.

Dilworth, were returned. Anent the recent criticism of Governor Penoyer for his conditional pardons, there is a good story on the governor. It will be remembered that every once in a while Governor Penoyer pardons some prisoner out of the penitentiary and makes it a condition that the man "leave the state and remain away forever therefrom." One day several years ago the governor pardoned a man and for some reason made the condition rather lighter than usual. He freed the fellow provided he would "leave the state." At once upon receiving his freedom the ex-convict crossed the Columbia over into Washington, where he remained a few hours, and then returned to his former home to live down his disgrace and place himself right in the eyes of friends and neighbors. And they didn't get him back into the penitentiary, either. He had "left the state," as provided in his pardon—but he didn't stay away.

There was naturally a great deal more interest manifested in the result of yesterday's yacht race than in any of the preceding events, and the bulletin boards displayed by the Astorian were besieged all day. There was a good deal of humor in the crowd, and not a little airing of yachting knowledge and ignorance. A good many people talked more about yachting in three hours than they ever did in their whole lives before. When the announcement was posted that the Valkyrie had rounded the turn 3 minutes and 25 seconds in advance of her opponent, with a heavy gale blowing her home, there were a good many gum faces, but the knowing ones having posted themselves on the Vigilant's magnificent work before the wind, did not give up hopes. The end justified their opinions, and there was plenty of excited satisfaction when the American yacht won. Recognizing that the race was a matter that Astorians were keenly interested in, this paper has done its best to provide the public with the earliest news of the result of the various heats.

The following communications have been received by Mr. Sofus Jensen, secretary of the Council of Federated Trades of Astoria: "Dear Sir: I am in receipt of your communication of the 27th ult., informing me that at a meeting of the Council of Federated Trades at Astoria, Or., held Sept. 23d, 1893, a motion was unanimously carried instructing the secretary to notify your representatives in congress that the Council demands the immediate enforcement of the Geary Law. I suppose you know that I am doing all in my power to secure the enforcement of the law, but the administration does not intend to enforce it, and is seeking to have it modified or repealed. Nothing can be expected from Mr. Cleveland, and I fear nothing can be hoped for from this congress in opposition to the administration. Yours Truly, J. N. DOLPH.

Dear Sir: Your favor is at hand enclosing resolutions of your council favoring the enforcement of the Geary Exclusion Act. I shall take pleasure to submit the resolutions to congress. Very Respectfully Yours, BINGER HERMANN.

Men are now at work on three of the buildings for the California Midwinter International Exposition which opens in San Francisco on New Year's day. These are the Main Building, Palace of Mechanical Arts, and Fine Arts Building. Of these the largest is the Manufacturers' Building, which was designed by A. Page Brown. It is of the Moorish type of architecture, abounding in picturesque effects. All around the building there is an imposing colonnade, while the towers introduce the various forms illustrated in the old mission buildings, of which the California Building at the World's Fair is a type. The roof will be covered with curved metal tiles, and in loggias of the corners are to be roof gardens. The exterior will be a creamy white of plaster and cement, while the roof will be red. More glowing colors are introduced in the corridors. There will be of course skylights. The material of which the building will be constructed is wood, plaster and cement, and the staff which was so successfully employed in Chicago. Iron will be used only as girders. The building will be 450 feet long, and 200 feet wide. The contract cost is \$106,000.

The "Circulating Library Party" promises a delightful evening. Those who have been regretting the lack of amusements during the last month will have the opportunity to be amused, entertained, and instructed on Monday night, October 16, at 8 o'clock at the Odd Fellows' Hall. The social part of the entertainment is one of the many interesting features. Others are recitations, songs, and statues, which in this case have the breath of life in them. The Circulating Library Party is quite the rage in the large cities in the east just now. Nothing of the kind on an equal scale has ever been given in Astoria, and all are cordially invited to attend the entertainment, representing some book. An elaborate representation is not necessary. At one party a lady with two doves' wings on her head suggested "White Wings." The contest, which will be preceded by a grand march, will take place between 8 and 9 o'clock. The "books," that is, the people representing them, will be numbered and registered as they enter the room. Contestants are asked to take pencils with them. Cards will be furnished. Judges will be appointed to decide the contest. The first prize will be given to the most ingenious representation, and the second for the largest list of correct guesses. The Astoria orchestra will furnish music during the evening.
