THE TRACK OF THE STORM

Terrible Gales Range along the Coast States of the East.

HAVOC ALONG THE WHARVES

Rivers Overflowed their Banks and Great Masses of Wreckage Were Carried Down Stream.

Associated Press. New York, Oct. 14.—The great storm of yesterday and last night subsided in this vicinity this evening, but is raging furiously in the west and northern portions of the state. In this state and along the coast a great amount of minor damage was done and some small vessels were wrecked, but so far as heard from no lives are lost. Advice from Buffalo tonight state that the wind is blowing at the rate of sixty miles an hour. Considerable damage is done and several yachts are ashore. As far as learned no lives are lost. At Long Branch and Ashbury Park the wind reached a velocity of 70 miles an hour. No wrecks are reported.

Wilmington, N. C., Oct. 14.—The oldest inhabitant is forced to admit that the terrific outburst of wind and wave that swept through the city surpassed any storm in his day or generation. The tide was the highest ever known here. On the river the waves dashed with tremendous force against warehouses and vessels. The tide, quickly covering the lowlands opposite the city, stretched in an unbroken sea across the rice fields as far as the eye could reach. The troubled stream bore an immense quantity of wreckage. The high water did considerable damage at Water street. All the wharves are under water and the flood swept through the lower floors of the warehouses. The city wharves were washed up and landed bodily on Water street. The only loss of life yet known is reported from Sampson, where a tree fell on the house of a farmer named Lane and crushed his two children to death. The total loss in this immediate section will probably reach \$150,000.

Cleveland, Oct. 14.—The storm which began at 4 o'clock yesterday afternoon continues with unabated violence. It has rained all day, and the water is still coming down in sheets.

Jacksonville, Fla., Oct. 14.—Tidings of the damage by the storm along the coast of Florida are just beginning to come in. All along the river of the Indian and Hillsboro rivers towns are flooded, wharves swept away, and houses unroofed, and from ten to fifteen per cent. of the oranges were blown from the trees. So far no loss of life is reported. The wires are all down.

New York, Oct. 14.—A special to the Daily American from Boston, Mass., says: "The southern hurricane spent its force in New England between midnight and noon today, doing a large amount of damage to shipping and wires."

Columbus, S. C., Oct. 14.—A special to the "State" from Georgetown, S. C., tells a terrible story of devastation and death wrought by the hurricane in and around that city and the adjacent sea islands. The entire waterfront of Georgetown is flooded and much damage has been done to merchandise stored in the warehouses. The Magnolia Beach almost every house is washed away and thirteen white and six colored people were drowned.

Chicago, Oct. 14.—As a result of the fearful wind and rain storms, telegraphic or telephonic communication between this city and New York, Washington, or Boston, and a large part of the South is next to impossible. Almost the entire Atlantic coast is cut off and the effects of the storm have been felt over a thousand miles inland.

Washington, Oct. 14.—A storm of the hurricane variety passed over the city last night. The storm abated at daylight this morning, and by 8 o'clock the sky was clear. Justice Brown of the supreme court, while trying to close a window last night, was struck by a piece of plate glass in the right temple, cutting a severe gash and severing an artery. But for prompt medical attendance, he would have bled to death.

New York, Oct. 14.—The complete prostration of the telegraphic service seems to be the most serious result of last night's storm. So far, no marine disasters have been reported.

Baltimore, Oct. 14.—The flood extends a mile from the river front. There have been no wires since last evening. Many washouts are reported.

TALK OF A COMPROMISE. Washington, Oct. 14.—Today was pregnant with rumors of a compromise and an agreement on the silver question. Enough is known to lead to the conclusion that mutual concessions

have been made, and the statements of senators justify the hope that before next week has passed there will be a movement towards a settlement of the question. Just what the compromise will be cannot be said, but that which meets with the most favor contemplates about the same provisions as the Harris amendment, combined with the bond provision.

UNION PACIFIC FAILURE

It Disconcerts Laborers of all Callings Very Seriously.

Omaha, Oct. 13.—S. H. H. Clark, senior receiver of the Union Pacific railway, Receiver Mink, General Manager Dickinson, and Solicitor Thurston had a long conference this morning to discuss the condition of the system and map out the future policy of the receivers. Among the federated trades there is not a very joyful feeling discernible over the abrogation of all contracts which followed the appointment of receivers. A representative of the Switchmen's Mutual Aid Association states that they are at the mercy of the court until something definite is heard from the general manager, though they believe the men will be treated fairly. What the engineers will do now their schedule is abrogated, is a much mooted question in labor circles. For that matter, all the trades are in the same hazy condition.

ITEMS OF THE FAIR.

Two Millions Was the Enormous Attendance of Last Week.

Chicago, Oct. 14.—Ten thousand tickets of admission to the World's Fair were given to the principals of various public schools in the city today for distribution among the pupils by various public spirited citizens. The attendance for the past week at the fair has been something over 2,000,000 persons. If the same rate of attendance continues it will bring the grand total up to about 22,000,000. The great event of next week is Manhattan day, Saturday, Oct. 21st.

REED SCORES THE SENATE.

Cleveland, Oct. 14.—Ex-Speaker Thos. B. Reed spoke here tonight to a large audience for nearly an hour. He declared that the democratic party had succeeded in bringing about the closing of factories and mills—something they could not do with the senate. The senate, he said, was elected to govern the people, yet they could only give the people a test of physical endurance, the greatest thing it had yet done being to remain in session for 49 hours.

DECEMBER AND MAY.

San Bernardino, Cal., Oct. 14.—At the city hall in the presence of the Society of Pioneers this afternoon, a "venerable bridegroom, Judge N. P. Earp was married to Mrs. Annie Alexander. Judge Earp is eighty years of age, and the father of the celebrated Earp boys who were engaged in so many bloody encounters with ruffians in Tombstone's palmy days. The bride is thirty years the junior of her husband.

THEY CAN BUILD.

Milwaukee, Oct. 14.—Judge Jenkins has authorized the receivers of the Northern Pacific to ratify the agreement between the Northern Pacific Terminal Company, of Oregon, the Northern Pacific Short Line of Utah, and the Northern and Southern Pacific. This enables the work of the lines in to proceed.

THIRTEEN YEARS IN JAIL.

Brazil, Ind., Oct. 14.—Noah King, the leader of the gang of train wreckers who wrecked the Vandavia express at Staunton some weeks ago, was this morning sentenced to thirteen years' imprisonment in the state prison. The jury disagreed regarding the other members of the gang.

STEAMER "NEWBERN" ASHORE.

San Pedro, Cal., Oct. 14.—The Panama steamer Newbern, ran ashore this morning on Point Vincent during a heavy fog. She is probably a total loss. The passengers were landed safely. The Newbern had \$75,000 in bullion which is being brought here by boats.

HASTENED HIS DEATH.

Portland, Or., Oct. 14.—Jacob Crouzet an inmate of the Good Samaritan Hospital, committed suicide this morning by shooting himself through the head. Crouzet was about seventy years of age and was afflicted with a cancer.

CUT IN RATES.

Tacoma, Oct. 14.—The Northern Pacific, Great Northern, and Canadian Pacific roads today announced a round trip rate of \$50 to Chicago and \$47.25 to St. Louis. The tickets will be good from now till Nov. 15.

EFFECTS IN EUROPE.

Berlin, Oct. 14.—The bourse here and at Frankfurt has been greatly affected by the silver legislation in America. Operations are almost at a standstill pending the decision of the United States senate.

SENATE IN A BAD TANGLE

Dubois Tries to Work a Scheme With Peffer.

BUT IT PROVED A BOOMERANG

Several of the Senators Introduce Motions for New Rules, Which are All Important

Associated Press.

Washington, Oct. 14.—The tangle which resulted in the adjournment of the senate last night was the result of a cleverly devised scheme worked by Dubois and Teller. They discovered that while a quorum was present for all purposes where pairs could be disregarded, there was not a quorum on points demanding the observation of pairs. Teller also discovered that the rules provided that a public document which had been once read could not be read again except by unanimous consent. Peffer was speaking at the time and soon fished up a public document. Teller raised a point of order against the reading. The chairman decided against the point, and an appeal was taken. This was what the silver men were looking for and a roll call was ordered, showing no quorum present. Then the repeal men stepped in another trap. Vilas tried to force Dubois to vote. After a long debate an effort was made to show that the senate could not excuse Dubois from voting, resulting in another lack of a quorum and the senate was forced to adjourn. The pending question is the effort to make Dubois vote, and it is Vilas' intention to have Dubois censured.

This, it is stated, will bring out a nice constitutional question and develop a debate which the silver men claim will last a month at least. Considering the late hour of adjournment last night, there was a liberal attendance at the opening of the senate this morning. Though he has made no announcement on the subject, Voorhees says he will not ask the senate to sit tonight, but will ask for an adjournment about six this evening. Morgan occupied the morning hour with a facetious speech in reply to the criticisms of some Alabama newspapers. Not much activity was manifest in the matter of a compromise, but it is believed that something definite will be ready for offer to the senate by the beginning of next week.

Notice was given of the proposed amendments to the rules of the senate as follows:

By Lodge of Massachusetts: "It shall not be in order for a senator to read a speech, either written or printed. Also, when the senate refuses to excuse a senator from voting he shall be counted as present for the purpose of making a quorum."

By Stewart of Nevada: "That no senator interested in a national bank shall vote upon any question affecting coinage or issue of currency by the government, or through the instrumentality of the national banks."

By Gallinger of New Hampshire: "When a majority of the senate submit a request in writing, through the chair, that the debate close, the request shall be referred to the committee on rules, whose duty it shall be within five days to report an order naming the day and hour when a vote shall be taken and action upon such reports shall be made without amendments."

Resolutions were offered by Dolph of Oregon, referring to the committee on privileges and elections, and questioning whether absent senators may be "compelled" to attend. These were taken up and agreed to. The senate by a vote of 29 to 37 declined to excuse Dubois of Idaho from voting. His name was thereupon called. He refused to answer. This ended the affair and the repeal bill was taken up, Jones of Nevada, speaking in opposition to it.

A SPEEDY PORTLAND HORSE.

Oakland, Cal., Oct. 14.—The roan gelding Bishop Hero, who lowered the three mile trotting record a week ago, broke another World's record today when he made a five mile dash in 12:30 3-4, lowering the record 29 1-4

seconds. Bishop Hero is owned by E. S. Rothschild, of Portland, Oregon.

NEW CASES OF YELLOW FEVER. Brunswick, Ga., Oct. 14.—Thirty-two new cases of yellow fever are reported in Brunswick today—seven white and twenty-five negroes.

HOWE, THE HISTORIAN, DEAD.

Columbus, Ohio, Oct. 14.—The venerable historian Henry Howe, died tonight from a stroke of paralysis.

WILL WINTER IN AMERICA.

New York, Oct. 14.—An evening paper says that the Valkyrie will remain on this side of the Atlantic for the winter.

BANK HOLDINGS INCREASING.

New York, Oct. 14.—The weekly statement shows that the banks hold nearly \$34,000,000 in excess of legal requirements.

STEAMER SUNK.

London, Oct. 14.—Crossing the English channel, the steamer Marie Henrietta ran into and sank a Danish bark. Six of the crew were drowned.

Of the fourteen huge masses of meteoric iron that fell on a spot less than sixty-four square miles in area near Fort Duncan, Mexico, the largest is bee-hive shaped and is buried five feet in the soil and rises four feet above the surface. The second mass in point of size has been moved to the national museum at Washington. It weighs over 4,000 pounds. The other twelve pieces weigh from 97 1/2 to 650 pounds. The whole mass of fragments as mentioned above are scattered over an area of sixty-four square miles, with Fort Duncan at about the center of the point of dispersion.

Almost every medieval monarch claimed the whole or a part of the dominions of almost every other, and insisted on inserting his claim in his list of official titles. In treaties and all official documents the whole list was religiously copied, and as it often happened that the two negotiating monarchs had some of the same titles, it became usual to insert a clause in the list, non praesulendo, in order to indicate that, no matter how absurd, inappropriate or untrue were the titles, they were understood to be inserted because they pleased the monarch who claimed them, and they did not confer a valid claim, and so no harm was likely to result from their use.

In Santa Clara county, California, there grows a weed called the rattlesnake weed. It is so named from the story that when rattlesnakes get to fighting and bite each other this weed, if eaten by them, will prevent death. It grows about six inches tall, has a red stalk and slender leaves. On the top of the stalk comes a head of flowers, and the seeds of these flowers are said to be very annoying to one in passing through a mass of them. They are furnished with sharp barbs commonly called stickers. The early settlers who had herds of sheep always made their herdsman keep with them a bottle of strong ter made of rattlesnake weed, and when any of the sheep were bitten they were drenched with this tea, which always saved them.

The oldest one of the white elephants, which was born in 1770, died in his temple at Bangkok in November last. Everyone knows that the white elephant, before whom a whole people bow the knee, is the emblem of the Kingdom of Siam. It is honored with the most beautiful presents, for the Indians, full of the idea of metamorphosis, still believe that so majestic an animal could only be animated by the spirit of heaven or of an emperor. Each white elephant possesses its palace, a vessel of gold, and a harness resplendent with jewels. Several mandarins are attached to its service and feed it with cakes and sugar cane. The King of Siam is the only person before whom it bows the knee, and a similar salutation is rendered it by the monarch.

RECEIVER'S NOTICE.

The undersigned having been appointed by the circuit court, receiver for I. W. Case, banker, hereby gives notice to all persons owing said bank, either by note or overdraft, that payment of same must be made without further delay. The office of the receiver, at Case's bank, is open, daily from 10 to 12 o'clock a. m., and from 2 to 4 o'clock p. m., and all debtors are advised to call and settle at once.

GEO. H. GEORGE, Receiver.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
