The Astorian guarantees to its advertisers the largest circulation of any newspaper published on the Columbia

river.

Advertising rates can be obtained on application to the business manager.

This paper is in possession of all the telegraph franchises, and is the only paper on the lower Columbia that publishes genuine dispatches.

The Daily Astorian's circulation is five times as great as that of the combined circulation of the other daily paters of Astoria.

rers of Astoria.

The Weekly Astorian, the third oldest weekly in the state of Oregon, has, next to the Portland Oregonian, the largest weekly circulation in the state. Subscribers to The Astorian are requested to notify this office, without loss of time, immediately they fall or receive their daily paper, or when they do not get it at the usual hour. By doing this they will enable the nungement to place the blame on the proper parties, and to ensure a spenty remedy.

YESTERDAY'S WEATHER.

Local weather for the twenty-four hours ending at 5 p. m. yesterday, fur-nished by the U. S. Department of Ag-riculture weather bureau.

Maximum temperature, 53 degrees. Minimum temperature, 48 degrees. Precipitation, .10 inch. Total precipitation from July 1st, 1893 to date, 13.64 inches, Excess of precipitation from July 1st, 1893, to date, 1.24 inches.

HOW LONG?

If the present rate of slaughter con tinues, it is only a question of time when the callroads will be a prominent factor in determining the average death rate. Yet people continue to travel on them; while, on the other hand, travel by steam vessels has never been so free from disaster as during the past twelve months. Up the Columbia, through the Sound, or on the south-bound coastwise steamship fleet travel at this season of the year is delightful. "Jack" ashore, when he was hit on the head by a falling brick, exclaimed: "Thank a man's safe!" He was right, when the morning and evening prints daily contain fresh lists of killed and wounded on the railroads.

"The dawn appears," shouts the Morning Oregonian over the prospect of the speedy passage of the repeal bill. Yes, the first symptom of the golden dawn appeared yesterday when a Denver bank passed into the hands of a receiver and strikes of one kind and an-If that is the down, what will the full day be when the goldbug era sets in."

We want to ask Moffett if it is not a fact that the Denver bank he speaks of is not the only one that has gone under in the past three weeks. We riso want to ask Moffett what he thinks of the 349 banks that went insolvent before that time, and what he attributes those failures to. Nobody

. In common honesty, says the Or . n Democrat, the Telegram should about don the pretext that it is a democratic paper. It has done all that it possibly could to disrupt the party in Oregon, and now that the democratic silver nonators have abandoned their opposition to repeal, it should follow Riand and Bryan out of the party. The democratic party is, as it says, responsible for the repeal of the Sherman bill, therefore it should abandon the party for the party's good. No one cares where it goes. It might go to the populists or the prohibs; but in the latter purty Editor Moffett would be as much of a misfit as he is when he claims to tie a democrat.

Since Peffer drank a bowl of oyste soup in the midst of an alleged speech on the floor of the senate, we have to confess fears that he will become intemperate. A man who enters upon the downward course in that way is Hable to end his career of self-indulrence in a drunkard's grave.

result of the election last fall; they were of the opinion that the people had rendered a verdict against their party, and while believing that it was only a temporary straying from the fald, they were forced to admit that a number who had heretofore voted the republican ticket had "flopped" to the democracy; but the editor of the Astorian was built on the John Phoenix. All persons having claims against the plan and has figured it out to his own there is no if. E. Nelson, will present them to me at the office of J. Q. A. Bowlby within six months from this rian was built on the John Phoenix not on top at all, but only thinks he is. date. -Oregon Democrat. -

That's about the size of it. The Demcrat states our idea with absolute corectness.

Ham made a very clever speech, containing this passage:

"According to human reckoning, it might well have been possible for my grandfather, my beloved father, and Opposition Line Count von Moltke to be here today." How could the young man have falled to remember that Bismarck still lives and was not there or invited? William and Frederick were decorative, and Moltke the sword of the chancellor. Kings exist, but the illusions about their measure of reality are fading.

The Dalles Times-Mountaineer bas the enlightened and sensible idea ab ait the Salvation Army, as It has on most subjects it discusses. It says editorially: "While the methods pursued by the Salvation Army may not receive the endorsement of all classes in the community, yet it cannot be denied that they have accomplished a great deal in the betterment of certain peo ple who could not be reached by other influences. For this reason they should not only be tolerated, but encouraged by all humanitarians in their efforts to elevate the lowest strata of society."

The repeal bill is passed. Buy to morrow's Portland Telegram and read Moffett's funeral dirge, composed all by his little self in the darkness of a back room, surrounded by smelling salts and-seltzer.

HIS PERSONAL EXPERIENCE.

Hon. James W. Husted, while serving his sixth term as speaker of the Assembly of the state of New York, writes.

"New York Assembly Chamber,
Albany, Jan. 16, 1890.

I desire once more to bear my testimony to the value of Allcock's Porous Plasters. I have used them for twenty-five years past, and can conscientiously commend them as the best external remedy that I have known, Years ago when thrown from a carriage and servine. when thrown from a carriage and scr-iously injured I gave them a thor-cugh trial. In a very short time the pain that I was suffering disappeared, and within a week I was entirely re-ereign remedy, both for external and fering from a severe cough, which threatened pulmonary difficulties, which I was recommended to go to Florida to relieve, I determined to test the plas-ters again. I applied them to my chest THE GREAT I AM.

The Portland Evening Moffett says:

The Portland Evening Moffett says: In the shoulder to such an extent that I could scarcely raise my arm. I again resorted to the plasters, and within a very few days the rheumatism entirely disappeared. My family as well as myself have found them to be a soverlegn remedy, both for external and internal troubles. I never had but one iddney difficulty in my life, and the application of the plasters cured me within a week. I desire, as I said before, to bear my testimony in a public. within a week. I desire, as I hald before, to bear my testimony in a public way to their efficacy, and I know of no better way to do it than by giving you my personal experience.

America's Great Danger

AN ENGLISH COMMENTARY.

Built an eminent English scientist recently; The danger that confronts the great Amerian people to-day is not the possible adoption of a wrong financial policy for the nation, or the spread of socialism, or the the control of the special of social and of the fourth of corruption among public men.
