CAUSE FOR THANKS.

Winter, by the almanac, and by the crisp feeling that permeates all the atmosphere and makes the pedestrian step more quickly on his way, and draw his flying mantle closer about him is here.

The first of winter, to be sure—but what would you, as they say in France. The season is officially here, and the fact must be recognized.

True, it is as yet not killing cold, but only just bracing, and even the sharp, blustering winds of the early part of the week, which made outdoor life so unimproving, have been tempered, and the condition described in the weather reports as "slightly warmer" prevails, it will hardly be wise to get too far from one's winter raiment. There is a cold wave in the east which at last accounts was moving westward, and, although it may start off on another tack, still there is no telling what a weather wave will do, and the public might as well recognize the fact that the winter is here for the customary season's engagement, and govern itself accordingly.

This is the month of the great and peculiarly American festival of Thanksgiving, the period of joyous family reunions, of which more later on, and all that have turkeys to fat should prepare to fat them now. There is some cause for thankfulness. The hordes of boasters in city and state government are scattered and flying for safety from the wrath of a justly indignant and long-outraged people, as the dry leaves fly before the winds of November. Let them be overwhelmed by the ballots of free Americans, who hate monarchy and oligarchy and anarchy in all their forms, as the snow drifts of winter cover from the sight of man the rank vegetation which has flourished in the languorous summer.

LOOK OUT FOR IT.

The dawn is coming. There is not a railroad in this country that has during the past six months bought a pound of steel rails except as it has been compelled to do it as a matter of safety to passengers and property. No railroad is laying any new rails. Why? If there is no other reason here is one that was given the other day by the president of a railway company. He said they needed new steel rails, and had made their arrangements to buy them until the election last fall, and when the free trade party was voted in he said they made up their minds that they would not buy a steel rail until they saw what the democratic congress would do about reducing the tariff on steel rails; that they had pledged to reduce it from \$12 to \$5 a ton, and if they did they could buy English steel rails cheaper than they could buy American steel rails; and so they had not bought a steel rail. And what is true of the company of this president is true of every company in this country. If the railroad companies of this country do not buy steel rails, then steel rail makers do not make them, and if the steel rail makers do not make them, there is no employment for the puddlers, and the skilled men engaged in making steel rails in the United States. And that is

true with every department of human industry today. Everybody is buying just as little as he can get along with. Sixty-three millions of people are living from hand to mouth, and when we do that we never have any production for the future, and if we do not produce it for the future there is idleness. No manufacturer in this country today is doing more than manufacture of orders. But the dawn is coming.

THEY HAVE FAILED.

The business men of Denver and the other silver centres have already concluded they are not so much ruined as they thought they would be. The crank governor of Colorado will shed no blood. The mine owners have succeeded in their woe in cutting down the wages of the miners, and they will make themselves comfortable. Silver that is produced at ten cents an ounce will not ruin the producer very fast if it is sold at fifty cents per ounce. But there will not be so large a margin for political speculation and service.

It was well to try the experiments of the Bland law and the Sherman law. They proved to all but theorists inebriated by their own frothy fermentation that we of the United States, the largest silver producers, could not by buying our own stuff, elevate the price of the metal all over the world, any more than we could lift ourselves by pulling on our own boot straps. The proof is positive that free coinage would Mexicanize our finances.

The great force enlisted for "more silver," as for "more greenbacks"—greater far than the power of the Smelters' Trust—has been the unsound money disease, the spirit of repudiation, the anxiety to war on capital by assailing credit—just as if the public credit was not the most precious possession of the whole people. The direct effort of the money anarchists has been to degrade the dollar; and THE NEWS OF THE DAY IS THEY HAVE FAILED NOW AND FOREVER.

The clear surplus of the Chicago Fair amounts to more than a million dollars. If the country could have understood in time the wonderful merits of the show, the attendance would have been many millions greater. It is a pity the million in cash could not be used to perpetuate the most striking features of the White City. There is ready there for a stroke of executive genius an enduring wonder of the world. Such a thing of beauty as the fairy city of the Fair should be a joy forever.

EXTENDED SYMPATHY. "Do unto others as you would have others do unto you," is sympathetically shown in the following lines, the presumption being that sympathy is born, or akin to pain or sorrow: "Gentlemen—Please send Krause's Headache Capsules as follows: Two boxes to Flora Seay, Havanna, N. Dak. Two boxes to Edith Wilcox, Brookland, N. Dak. I have always been a great sufferer from headache and your Capsules are the only thing that relieves me." Yours very truly, FLORA SEAY, Havanna, N. Dak. For sale by Chas. Rogers, Astoria, Or., Sole Agent.

SPECIMEN CASES. S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg. Doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold by Chas. Rogers, druggist.

AN UNDISPUTED TEST OF MERIT. A medicine that has been a household remedy for over fifty years and used in that time by more than 150,000,000 persons, must have great merit. Such a medicine is found in Bucklen's Arnica Salve. This fact demonstrates the value of these pills better than any statement of the proprietors. It will be observed that the dose required to cure is small. One or two pills taken every night for ten or twenty days will cure dyspepsia, constiveness, rheumatism, liver complaint, biliousness, or any disease arising from an impure state of the blood.

Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time. Sold in every drug and medicine store either plain or sugar coated.

STRICKEN DEAD. TRUSTWORTHY STATEMENTS. A recent New York dispatch reads: "James C. H., a fine looking and apparently healthy man, was observed to stagger while walking on Fifth Avenue this afternoon, and after taking one or two uncertain steps fell to the sidewalk. When picked up he was dead. A physician examined the body, and pronounced heart disease the cause of death. A peculiarly sad feature of the case is that Mr. H. was on his way to Maine, to settle in the home of his brother. He had passed the previous ten years in the western mining country, and had amassed a fortune. IF YOU have any of the symptoms given in the following testimonials you should lose no time in seeking relief.

From John L. Roberts, Slatington, Pa.: "I have suffered with palpitation, irregular pulse, fainting and smothering spells, pain in shoulders, side, and arms for over forty years. For twelve years have been treated without avail by prominent physicians in my neighborhood and in New York. Growing constantly worse, smothering spells followed one another, so that my life was often in danger and I needed constant care. As my son had been cured by Dr. Miles' New Heart Cure, he sent me three bottles. The first dose gave me relief. Before using the last bottle I was completely cured. Although seventy-five years old I feel twenty years younger. My cure to be almost a miracle."

Here is a letter from Mrs. John Kolges, Cleveland, O.: "I had been troubled with my head and stomach for years, but for six months I could not get on my feet. I had gone to the best doctors in the city, but none of them could benefit the weakness of my heart. I also had dropsy and rheumatism. I never took medicine that relieved me at once as Dr. Miles' New Heart Cure does. I am much stronger. My appetite is splendid. I gain strength with every dose. I have gained more in six weeks from your treatment than in sixteen months from all the doctors."

"Dr. Miles' New Cure for the Heart" is sold on a positive guarantee by all druggists. It is safe, effective, agreeable, and does cure." Dr. Miles Medical Co., Elkhart, Ind.

THE QUESTION is a simple one—easily decided by reason and common sense.

COTTOLENE —the new scientifically prepared shortening—is made from pure beef suet, and highly refined vegetable oil. SWIFT'S SPECIFIC is totally unlike any other blood medicine. It cures eczema, the blood and skin by removing the poison, and at the same time supplies good blood to the wasted parts. Don't be imposed on by substitutes, which are said to be just as good, it is not true. No medicine has performed as many wonderful cures, or relieved so much suffering. "My blood was badly poisoned last year, which got my whole system out of order—diseased and a constant source of suffering, no appetite and no enjoyment of life. Two bottles of SWIFT'S SPECIFIC brought me right out. There is no better remedy for blood diseases." JOHN GAVIN, Dayton, Ohio.
