#### WHERE ARE WE AT?

We fear the state department of our great and good administration is getting into the most sorrowful entanglement. The Van Allen incident characterizes it so brilliantly that the whole country understands the underlying patriotism and self-sacrificing solicititude. course, the diplomatic service has been elevated. We have just raised our first for an ambassador is \$50,000. A secretary of legation has just been supplied to Mr. Bayard, and the "fee" was \$10,-900. There is a fresh assistant secretary from the Peninsular state taking the place of the illustrious Quincey. This is in the nature of reform. The gentlenan may be a friend of Mr. Dickinson, administration on its legs, and then has treated it with ostentatious neglect. One of our admirals entered the harbo of Rio de Janeiro and found one admiral affoat there flying the Brazilian flag, and saluted him-as much as to say good morning and tip the silk hat What is a fellow to do about the flag of Brazil? Admiral Stanton has been rebuked. Our secretary of the navy has a prejudice against rebels, and will not have them saluted when they are flying the flag of their own country When our statesmen became insurgents under the sacred shield of state soy creignty, they got up a flag of their own that there might not be erroneou flag was furled forever, and belongs to history, though a pleasing incident few years ago was the manufacture of thousands of confederate flags in New There is much trouble as to We are informed that there is a certain Monroe doctrine that Euro peans must respect or take the conse quences. If it means anything in particular, it is that we, the people of the United States, have placed ourselves at the head of an American confederacy, and do not propose to allow monarchs to be planting their cloven hoofs upon our soil, dedicated as Patagonia, Chili-Urazil and Canada are especially to freedom. Holding these high principles in as deep reverence as a democrat does the Chicago platform, we are sensitive when a flock of ships flying monarchial flags infest the harbor of a capital city of a sister republic. That is to say, if the British and German and Italian navies do not look out how they approach our shores, with the colors of kingly powers flamboyant, we shall skin and flaunting it in the face of the foreign foe. What does the patriotic heart suppose would be the effect of

in the deserted fields of Germany? John C. He may have had a faint suspicion that we could get along just as well by minding our own business as form of political campaigning in South doctrine is nebulous. We are told the splendid warship New York, is to go somewhere soon; and perhaps her errand is to see that European fleets shall not flourish their flags in American waters unless according to the doctrines of our daddles-It might be an agreeable diversion for

her to pause by the way and give Eu-

We refer to the admonition received by Napoleon III, after Appomattox, that it would be judicious to get out of Mexico, and the retirement suggested took place. This was exceptional. The conquest of Mexico by France was a part of our South ern Rebellion. The break-up of the accomplished, and with France commanding the American Mediterranean the Gulf of Mexico-the Southern confederacy was to come under her genial influence. Imperialism and confederate provincialism did not work, and Grant, Sherman, Sheridan, and the men they epresented had an idea that an arm rganized out of the veterans of both ddes, seasoned in our war, could chase the French out of Mexico, and set up the Monroe doctrine in great shape The French were, however, ready to go home, and the Mexicans looked after Maximilian. The attempt to put an There is this much about the Brazilian sputtering along the coast will not destroy a republic, overturn a dictatorship, or establish an empire, no matter what flags they carry, whom they salute, or what telegrams they send or receive; and we need not go away from home to find something to worry about,

We hope that the coming fight will be a clean and manly one. We will, in a few days, give our opinion of the situation and honors at the hands of the electorate.

Mr. Bayard has been speaking at Sheffield. The cutlers there are for American free trade, and Bayard, the ambassador, posed as a patriot. One passage of the ambassador's speech is

"You have all heard that trade follows the flag. I believe that man's heart follows the flag, whether it be the Stars and Stripes, so dear to me or the Union Jack, so dear to you." Mr. Bayard's devotion to the Stars and Stripes had an intermission of some years, however.

### Heart Failure

HOW TO AVOID IT.

The epitaph on many a tombstone is "heart failure." No wonder, when we consider the immense strain which is put on that small organ. Marvelous as it is, beating 100,000 times and exerting a force equal to 5,184,000 pounds daily, it has its limit-its endurance often is too severely tested. So common are diseases of the heart—though often for a considerable time without the suspicions of the afflicted person being in the least excited—that it is stated that one There is this much about the Brazilian business—the Brazilians had better look Miles, of Elkhari, Ind., has for years made after it for themselves. A few ships a special study of all diseases of the heart, and his remarkable success has made his name a familiar one in all parts of our land. He has found the most common symptoms of heart disease to be pain, distress or tenderness in the chest, back, atomach, bowels, left shoulder and arm, shortness of breath, smothering spells, fainting, etc.
Mr. George R. Smith, of Barnes, Yates

Co., N. Y., writes: - "DR. MILES' NEW HEART CURE has worked wonderfully on mind and budy at I can do a good day's work. Ifeel ten years young r and take more interest in affairs. I had shortness of breath, palpitation, pain under left shoulder blade, pair around the heart, I could not sleep on my right side. Since I have taken Dr. Miles' New Heart Cure I s'rep well, and have no palpita-tion. It has made my heart stronger. I wish you would print this, because I want all to know what Dr. Miles' Heart Care has done for me.

"For months my wife suffered with palpi-"For months my wife suffered with palptation, snothering spells, and was unable to sleep on her left side. She tried several doctors without relief. Your Heart Care was recommended. After taking three bottles, she fully recovered her health. Your medicines do what you claim."—CHAS. CHRISTMAN, Toledo, O.

#### Kitchen Extension.

University Extension is good, but Kitchen Extension is better. Wider knowledge of better cooking processes means better health and comfort for everybody. Science can never do us better service than by the multiplication of the cooking schools which make healthful means and methods available for even the most modest home.
