Ingalls writes the Astorian from Sutton, Quebec, that he intended to leave there with his family for Boston today and concludes his letter by saying: "We will stay in Boston a week—long enough to get all the baked beans we want, and then we start for home. The old Leinenweber cannery, says the Headlight, went down in the storm Saturday night. This was an old landmark in Tillamook Bay, having been built about 14 years ago. The piling have been in bad shape for a long time many of them being eaten off by land lice, and as parts of the building have been going down at different times during the past six months, none were surprised to hear that it had all gone down. The machinery was sold to the Elmore Packing Company about a year ago and all taken away. The building lodged against the Hobsonville wharf, and if the tide does not carry it out to sea the Elmore will tow it over to Garibaldi.

Then he went down to the Portals where Satan reigns Supreme. But Satan also could have nothing to do with the Young Man. But he said to him: "Verily, if I let you come in here, you will try to run me out. Take this Brimstone and some matches and start a little Hell of your own." And, behold, the Young Man did so. And, after One Moon had gone by, the Fire he had himself made burned him up. So that only Ashes remained. And lo, he was remembered among men as the Disgruntled Political Bug, who would neither be Fish, nor Flesh, nor good Red Herring.

Hon. Benjamin H. Stark was a caller at this office yesterday, having just come from his Connecticut home on a visit to this state. He is staying with his friend, Rev. W. S. Short. Col. Stark, after whom Stark street in Portland, is named, is a pioneer of Oregon pioneers, and first cast anchor off this city in the year 1845. He was one of the founders of Portland, and his life from young manhood to the present time has been bound up very closely with that city's prosperity. From the days, nearly fifty years ago, when he used to buy produce from the farmers of Clatsop, he has had unbounded faith in the future greatness of Astoria, and believes that in a very short time Portland's increasing prosperity will force this city into very great prominence as

a seaport of magnitude and splendid advantages. Years are creeping on the Colonel fast, but his bearing is as erect as that of any young man. He was delighted yesterday when he met many old-time friends whose fathers were boys with him. It is probable that he will visit the Columbia River jetty today, going on to Portland tonight.

Mr. J. W. Welch has sent the following communication dated today, to Mr. G. Wingate, chairman of the republican city central committee: "I have been notified by the secretary of the republican city committee of my nomination for councilman in the second ward. While I certainly appreciate the high honor conferred, I am compelled to decline the nomination. I have served as councilman from the second ward for six years, with satisfaction to myself, at least, and I hope to the taxpayers of the city of Astoria, and I believe I have discharged the duties of the office to the best interests of the city. The nomination coming from the republican party is certainly a still higher honor which I appreciate as a recognition of my past services. With best wishes for the success of the party, and hoping you will be able to find a good man for the position, I remain, very respectfully, your obedient servant, Jas. W. Welch."

A magazine is usually satisfied with one strong feature for the month. The Cosmopolitan, however, presents for November no less than five very unusual ones. William Dean Howells gives the first of the letters of the traveler, who has been visiting this country from Altruria. We have read Mr. Howells' impressions of the Altrurian; but in this first letter we have the Altrurian's impressions of New York, with some comments upon our government and society, calculated to awaken the most conservative minds. The second feature of the Cosmopolitan is the portion of the magazine given up to color work, no less than ten superb colored illustrations being presented for the first time in magazine history, accompanying an article by Mrs. Roger A. Pryor on "Changes in Women's Costumes." The third feature is "American Notes," by Walter Besant, who was recently in America and is doing the United States for the Cosmopolitan in a Dickens. The fourth feature is an article by General Badeau on "The Forms of invitation Used by the English Nobility." The article is illustrated by the facsimile of cards to the Queen's drawing-room, to dinner parties, to dinner at the Princess of Wales, and to many leading houses of England. Finally, we have a new and very curious story by Mark Twain, called "The Esquimaux Maiden's Romance." It is in his happiest vein, and is illustrated by Dan Beard.

The curtain at Utzinger's theatre will in future rise at 8 o'clock p. m., promptly, every evening, instead of at 9 o'clock as heretofore.

SAFE, SURE, AND SPEEDY.

No external remedy ever yet devised, has so fully and unquestionably met these three prime conditions as successfully as Alcock's Porous Plasters. They are safe because they contain no deleterious drugs and are manufactured upon scientific principles of medicine. They are sure because nothing goes into them except ingredients which are exactly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities go right to their work of relieving pain, and restoring the natural and healthy performance of the functions of muscles, nerves and skin. Do not be deceived by misrepresentation. Ask for Alcock's and let no solicitation or explanation induce you to accept a substitute.
