## IT IS STILL IN DOUBT

### Minister Willis Has Two Sets of Credentials.

### NO TROUBLE IS ANTICIPATED

### Cleveland's Policy Regarding the Queen Seems to Be Determined.

Washington, Nov. 15.—An official of the administration who is acquainted with all that has been done about Hawaii and speaks by the card as to the sentiments and opinions of those who have brought about the changes, said to an Associated Press reporter today: "The action of the administration will go down in history as one of the glorious acts of the United States—a righting of wrong."

"But if this restoration of the queen has to be maintained by force of arms, would it not subject the administration to severe criticism, even if the justice of the restoration were acknowledged?" was asked.

"That is a feature of the affair I do not feel at liberty to discuss," he replied, and he then went on to say that the theory of the administration was this: The provisional government was established merely to exist until the island was annexed to the United States. The United States has refused to annex the island, and the provisional government has ended. This statement is explanatory of the understanding that Minister Willis has two sets of credentials one to the provisional government, the other to the queen. The provisional government is recognized until the treaty of annexation is rejected, when it is assumed that it has ceased to exist, and the old status is naturally resumed. Minister Willis will bring to the provisional government the first official information of the rejection of annexation. Having made this known to President Dole it is assumed the provisional government would have no further standing or existence, and Minister Willis would then recognize the government of the queen, and that would end the matter. In other words, the administration position is this. The government has not thrown down any government but merely, upon one government's ceasing to exist, it recognizes the old regime.

Chicago, Nov. 15.—In an interview Jeff Chandler, of Missouri, an eminent lawyer, said that Cleveland has no more right to inquire into the methods by which the provisional government had been established in Hawaii and to use military power of the United States to overthrow that government than to destroy any other government whose minister he found accredited to the United States and recognized by this government, when he took the oath of office.

Washington, Nov. 15.—Although the state department expects to hear nothing from Hawaii until Saturday, it is generally anticipated that everything is settled in the islands and that the restoration of the queen has been accomplished without bloodshed. It is understood that Minister Willis' instructions provide for the protection of the people instrumental in the forming of the provisional government by the proviso that the queen shall grant amnesty to all engaged in her overthrow. The ground on which this position is taken is that Minister Stevens led them into a revolt and that this government therefore is bound to protect them to the extent of assuring amnesty.

Washington, Nov. 15.—Minister Thurn of Hawaii has not demanded his passports. His relations with this country are still, to all appearances, at least, most friendly. The fact that this is so after the conference he had with Secretary Gresham yesterday is considered significant that the relations between the Hawaiian legation and state department will remain undisturbed. It is scarcely possible that orders can have been given to restore the queen by force while the department of state is still seeking to maintain friendly relations with the legation here.

### BASEBALLERS MEET.

The League is now Clear of all Doubts.

New York, Nov. 15.—The board of directors of the baseball league met here today. Matters with which they had to do were chiefly routine. President Young had in his satchel all the notes of the national league given when the league bought out the assumed obligations of the American Association, two years ago. All the notes were cancelled, showing that the league had entirely paid off the debt that had accrued in this transaction, and also that the league had had a prosperous season. Considerable business was transacted at the meeting of the league itself during the afternoon, the first of which was the report of the board

of directors which was received and accepted. Much time was taken up with unimportant additions to the by-laws of the championship rules. The following directors were elected: N. E. Young, chairman; A. H. Soden, A. B. Talcott, C. H. Byrne, James A. Hart, W. W. Kerr, and John T. Brush. President Young appointed a committee of one to prepare a schedule for 1894. A. H. Soden, C. H. Byrne, and N. E. Young were elected members of the national board of arbitration.

### A NEW SCHEME.

To Make the National Banking System Safer.

Washington, Nov. 15.—Congressman Wm. M. Springer chairman of the committee on banking and currency is preparing a bill to remedy the deficits in the National Banking system. He will propose that the bonds of states, of counties, and of certain municipalities with proper regulations and under government supervision, shall be utilized for the purpose of securing circulation, and all banks, state as well as national, depositing such securities, shall be permitted to take out currency to at least 90 per cent of their par value. The government is to assume the sole responsibility for the redemption of such in coin on demand, for which purpose it should keep a coin reserve of at least 20 per cent of the outstanding circulation. This should relieve the banks of keeping bank reserves or withholding any part of currency issued from circulation among the people.

### ALL ARE CAUGHT.

The Murderous Bomb Throwers Will Meet Their Deserts.

Barcelona, Nov. 15.—It is stated that Judge Dumeneca has in his possession the names of all the persons who are connected with the bomb outrage at the Lyceum theatre, and the culprits are already in custody. The plan was one which, if successfully carried out, would have involved a wholesale destruction of life. Each of the plotters was to carry a bomb into the theatre and station himself in a different part of the gallery. One of the number was deputed to turn off the gas lights, and at a signal the bombs were to be thrown. The man who was to put out the lights failed to find the meter, and one of his companions, growing impatient at waiting so long for darkness, threw his bomb.

### NATIONAL GRANGE IN SESSION.

Syracuse, N. Y., Nov. 15.—The annual session of the National Grange of the Patrons of Husbandry opened today and 800 delegates from various states were present and more are expected tomorrow. In the annual address, Worthy Master J. H. Bingham said: "In some states there are large additions, in others there are small losses to the order." The master urged the farmers to insist on their rights and a fair share of profits. He said the present secretary of agriculture was a disappointment to the farmers, unsuited to the position, and not a true friend of the agriculturist.

### THE INDIANS IN POSSESSION.

Kansas City, Mo., Nov. 15.—A special to the Journal from Silver City, N. M., says: "The Tomachi Indians are in possession of Palomas, Mexico. They have taken the custom houses and have driven everybody off. A messenger was sent to the Mexican consulate at Deming, N. M., asking for assistance. The consul has telegraphed to the Mexican authorities for troops. Governor Thornton, of New Mexico, has been requested to ask the war department for troops to aid in the protection of Americans. Serious trouble is anticipated."

### A VANDERBILT FIGHT.

Chicago, Nov. 15.—Beginning with Sunday the Michigan Central and Lake Shore railroads will run from New York to Chicago in 26 hours, one hour longer than at present. This will demoralize their connections with western trains, and threatens the disruption of the trans-continental time tables. It is not known what action will result, but the Vanderbilts insist on a change, and the western roads are equally opposed to it.

All the western roads announce their intention of meeting the action of the Union Pacific in paying commissions on round trip business from California points.

### KILLED BY CARELESSNESS.

Marshfield, Or., Nov. 15.—Herman Nil, a native of Finland, accidentally shot himself this afternoon while duck hunting. His gun was accidentally discharged, while he was taking it out of a boat, and a full charge of shot took effect in his right breast, passing clear through his body. He was able to crawl out of the boat into a rafting scow, but died a few moments later.

### MURDERED BY BURGLARS.

Chicago, Nov. 15.—Thomas Prunt was shot and killed and two of his children, Sadie, and Peter wounded by burglars who entered his house last night. The burglars escaped.

## THE MIDWINTER FAIR

### Oregon, Washington and Idaho Will Be Called on.

### IT WILL BE A GRAND SUCCESS

### Senator Mitchell in San Francisco Looking out for Oregon's Interests.

San Francisco, Nov. 15.—Senator Mitchell, of Oregon, is in the city with a view of lending his aid toward perfecting the arrangements for an Oregon exhibit at the Midwinter exposition. The senator says that there is \$25,000 left over from the Oregon World's Fair appropriation, but that it cannot be diverted directly to the use of the Midwinter exposition. There is a sentiment, however, among the people of Oregon towards the raising of a fund which would subsequently be made good by a diversion of this appropriation through the medium of the next legislature. Oregon intends to bring her entire exhibit here, which she had at the Columbian exposition.

Craige Sharp, commissioner at large for the Midwinter Exposition, starts for the north this evening to encourage the people of Oregon, Washington, Montana, and Utah in the work that they have already begun in this connection, and there is every prospect, judging from the correspondence of the executive committee, that all these states will be well represented at the fair. In less than two weeks' time the exposition grounds will be enclosed by a fence, the contract for the construction of the same having been let and the work commenced. It will take nearly two miles of fence to enclose the grounds.

### A BIG ROBBERY.

Treasurer of a Railroad Sandbagged and Plundered.

Chicago, Nov. 15.—A local paper says that J. A. Drake, treasurer and paymaster of the Indiana, Illinois & Iowa Railroad was attacked by footpads this morning near the company's office, sandbagged, and robbed of a satchel containing a large amount of money which rumor puts at between twenty-five and forty thousand dollars. As far as known there is no clue to the robbers. Drake is said to be badly hurt, but the officers of the road refuse to divulge his whereabouts.

### WAITE ONCE MORE.

Denver, Nov. 15.—The "Times" this evening says that Governor Waite has made up his mind to issue a call for a special session of the legislature before Christmas. The continued low price of silver and the fixed opinion of Waite there will be a further decline to sixty cents, and a consequent paralysis of the silver industry in the state, is the reason assigned for the call. Just what measures the governor will recommend for aiding silver he would not say.

### THE PROPER COURSE.

Chicago, Nov. 15.—The coroner's jury investigating the Rock Island wreck at 71st street on November 8th, today returned a verdict holding the company responsible for criminal neglect. Conductor Freeman, Flagman Orton, and Collector Porter, of the wrecked train, are held to the criminal court for negligence.

### A LONE HIGHWAYMAN.

Ukiah, Cal., Nov. 15.—The overland stage was robbed this morning at 11 o'clock, 5 miles north of Ukiah by a lone highwayman, dressed in blue overalls, and a cotton mask. He carried a double-barrelled shotgun. The amount of treasure aboard is impossible to ascertain. The passengers were unharmed.

### THE BANK OF ENGLAND.

London, Nov. 15.—The Times, this morning, referring to rumors adverse to the Bank of England, says: "The investigation of certain irregularities with regard to advances on securities is proceeding, but it is probable that the losses will be much less than have been alleged and reports of the retire-

ment of directors are erroneous. While it is difficult to fix the blame upon individual directors, we are of the opinion that there must be a serious fault in the system under which the irregularities occurred. Though the bank is a private corporation, it is also a national institution, and therefore ought to reassure the public when uneasiness has been created by false rumors."

### HIS AIM WAS SURE.

Grant's Pass, Or., Nov. 15.—L. Vance, an old resident of this county, was found dead in his bed at Wilderville, ten miles south of this city, yesterday, having committed suicide. He made a sure aim, shooting himself through the heart with a 44-calibre revolver. The deceased had evidently been dead two or three days before he was found. He was a member of the Masonic order and the I. O. O. F., of this city. He was over 60 years old, and a bachelor.

### THEY CAN STAY HERE.

San Francisco, Nov. 15.—Acting on a telegram from Attorney General Olney at Washington, Marshal Long has released from custody twenty-one Chinese ordered deported by federal judges for failing to comply with the provisions of the Geary registration law.

### FLOUR MILL DESTROYED.

Fergus Falls, Minn., Nov. 15.—The Page Flour Mills and Elevator, with 40,000 bushels of wheat, a cooper shop, warehouse and a large amount of stock, was burned this morning. The loss is \$100,000.

### WHERE IS THE MYSTERY.

New York, Nov. 15.—The Evening World says: President Cleveland unexpectedly arrived here early this morning. He came alone. The object of his visit is a mystery.

### A MONARCHY AGAIN PERHAPS.

New York, Nov. 15.—A private cablegram announces that a monarchy is proclaimed in Brazil. Mello has hoisted the imperial flag.

### FOX AND CROMWELL.

One day Fox, riding into town from Kingston, caught sight of Cromwell's coach near Hyde Park, and pushed towards it. The guards would have driven him back, but the Protector recognised him and shouted to them to let him pass. The two men talked together earnestly till they reached St. James' when they parted, with the promise from Fox to attend next day at Whitehall. "I can give you good news," laughed the Protector, to one of his wife's maids as he entered the palace. "Mr. Fox is come to town." When they met next day, the stern old warrior was in one of his playful moods, into which, as troubles thickened about him, he less and less frequently lapsed. Seated carelessly upon the edge of a table, he bantered the Quaker unceasingly, and dismissed him with the laughing, but extremely true reflection that his self-satisfaction was by no means the least part of him. A year or two later Fox saw him for the last time. He met him riding into Hampton. "Before I came to him," he writes, "as he rode at the head of his Life Guards, I saw and felt a waft of death go forth against him." A few nights later, while a terrific storm was raging over London, the strong spirit passed away. Fox had lost a sincere and powerful friend.

### THE LARGEST DRUG STORE.

The pharmacy of Kari J. Ferrein, of Moscow, Russia, is the largest in the world, it is thought. It puts up daily more prescriptions than any other. As many as 1200 prescriptions are put up in a day. The dispensing is done in a glass-domed room, where twenty-four or more apothecaries are employed, and a clerical and apprentice force nearly as numerous, gives a portion of its time to the reception, entering, and delivery of the goods ordered and prepared. If poisonous ingredients enter into the composition of a medicine to be prepared, the checking of weights is done by a weigher specially appointed for that purpose. Two hundred and ninety-three men and boys find employment in the retail and wholesale departments of the establishment. The average number of prescriptions is not far from 300,000 annually. The founder died in 1837, but the two sons perpetuate their father's name and methods of business.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
