WILL THEY FIGHT?

Provisional Government of the Islands Well As

"TO PREVENT ROYAL UPRISINGS"

They Have Trained Sharpshooters and Well Drilled Companies but Expect no Trouble.

Washington, Nov. 16.—Close secrecy is still maintained by the state department. Readers of the Associated Press dispatches can reasonably rely on the accuracy of their statements. Willis is instructed to use all his powers of persuasion to induce the provisional government to consent to retire in favor of the queen. He will try to induce the queen to grant amnesty to all the revolutionists and will seek to induce the members of the present government to accept office under the queen, but will not employ force to secure the attainment of his purpose without further instructions from this government.

It is learned that the forces of the provisional government of Hawaii, though small, are well organized and disciplined, and most of them sharpshooters. It is said 2,000 picked men are provided with arms at Honolulu and enrolled in drilled companies. They have been trained for two months past as a safe guard against any royalist uprising in the islands. These companies are made up of white men, largely. Eight rapid firing guns are included in the militia, the equipment being Winchester rifles. This force would be superior to what the men-of-war at Honolulu could put ashore. But no one seems to believe that any resistance will be made should the marines actually be landed.

Upon being asked by an Associated Press reporter for his opinion upon the attitude of the present administration towards Hawaii, Senator Dolph said that he had fully outlined his position upon the subject in his speech in the senate towards the close of the 52nd congress, soon after the receipt of the news of the revolution in Hawaii, in which he advocated annexation. "The present government of Hawaii," he continued, "is an existing government, recognized by foreign powers, and it would appear as though any attempt to overthrow it would be an act of hostility on the part of the administration towards a friendly government, unexampled in our history, and unwarranted by the constitution."

San Francisco, Nov. 16.—Congressman Loud was interviewed today regarding the impressions he received on a recent trip to Honolulu which he took for the purpose of studying the annexation question. "I arrived in Honolulu," said Congressman Loud, "a few days after Commissioner Blount got there. He went down there with the idea that he had the weight of the United States on his shoulders. His investigation, I have no doubt, took a very narrow range. There is no doubt of the high character of the provisional government. The men at the head of it would command respect anywhere. The business community is practically united in support of the present government. Should a republican president make a demand that Lilloikalani be re-established on the throne, I would say that he would be impeached by public sentiment in the United States, if not by congress. Should the queen be restored by force, she certainly would be deposed again, unless a show of force is maintained. Naturally, my sentiments as an American, incline me to favor annexation."

OF INTEREST TO SAILORS.

San Francisco, Nov. 16.—The ship owners' association today commenced a new deal in shipping sailors for coasting vessels, and from present appearances it is likely that considerable benefit will result, not alone to sailors, but to owners of vessels. Briefly told, the plan is to secure for coasting vessels the very best sailors that can be obtained. Men will be rated according to the work that they perform, and if they prove acceptable sailors, they are compensated not only in wages, but given rank which insures their speedy employment on other vessels.

STILL THEY COME.

Washington, Nov. 16.—A woman claiming to be a niece of Queen Victoria called at the White House this morning and asked to see the president.

BANK OF ENGLAND TROUBLE.

London, Nov. 16.—The Bank of England officials continue to maintain silence regarding rumors of had financial condition upon its part. It is stated on good authority, however, that the bank's connection with bad financing is practically limited to its transactions in South America and the Mexican company, which has been ventilated in the courts, and, in fact, that there the irregularities have been confined to allowing favored customers to substitute less desirable securities for those upon which money was originally lent.

London, Nov. 16.—The Daily Telegraph, in its financial article this morning, says: "The stated total loss to the Bank of England through Chief Cashier Mays by advances on unsound securities, will not exceed \$100,000. There is no reason to expect that there will be any important reduction in the next dividend."

SIBERIAN REFUGEES.

Chicago, Nov. 16.—There will be a fight for the release of the ten Siberian refugees jailed at San Francisco. The Society of Americans for Russian Freedom have engaged able counsel to go to San Francisco and defend the prisoners. J. A. Hourwich, professor of political economy, of the University of Chicago, and a gifted lawyer, is one of these. Other attorneys are of this city. Hourwich is a Russian, familiar with the methods of his government, and has an authentic list of 500 political exiles of Siberia. If the prisoners in San Francisco are named on this list, it will be, in counsel's judgment, a sufficient demand for their release. If not, it is hoped the prisoners will be identified by prominent Russians in this country. The Lloyd Garrison, of Boston, and various other Russian societies of the United States and England, are co-operating with the defense.

WHOLESALE MURDER.

An Italian Kills His Wife, His Cousins, and Himself.

Omaha, Nov. 16.—A special to the Bee from Deadwood, South Dakota, says: "One of the most horrible tragedies known in the history of the Black Hills occurred at noon today in Saw Fit gulch, two miles west. Joseph Tha, an Italian, was married a year ago to his cousin, Josco Tametta. A few months after his wife left him and made her home at her cousin's. This today went to the house considerably influenced by liquor, and shortly after shots were heard. Nothing was thought of it, however, until a peddler rapped at the door and getting no reply, but hearing groans from within, he entered. Lying around the room lay Mrs. Tha, shot through the mouth, Tametta with a bullet in his breast, and Mrs. Tametta with a frightful gash in her forehead, inflicted with an axe, all still in death. In the woodshed Tha lay gasping for breath with a bullet through his head. In the midst of all this bloody horror Mrs. Tametta's two little children were playing. They lived only a few hours. The others were probably killed instantly."

PORTLAND NEWS.

Committee for Midwinter Fair Selected—Blum Missing.

Portland, Nov. 16.—The Midwinter Fair committee of the chamber of commerce met today and organized by the election of the following officers: Chairman, Geo. T. Myers; vice-chairman, William Kapus; secretary, E. C. Masten; treasurer, R. L. Durham; superintendent, R. W. Mitchell. Chairman Myers was authorized to appoint five commissioners, three from Portland and two from the state at large outside of Portland. A plan for raising funds to carry on the work will be reported at the next meeting.

Nat. Blum, who is under indictment by the federal grand jury for smuggling, is missing. Blum is under \$8,000 bonds.

Chas. A. Bowker, ex-preacher, was convicted of manslaughter in the circuit court tonight on a charge of having killed Helen Wilson by a criminal operation in connection with Mrs. Van.

KNIGHTS OF LABOR QUARREL.

Philadelphia, Nov. 16.—The row in the ranks of the Knights of Labor was continued with great bitterness today and tonight. No evidences of amicable settlement are apparent. Bitter addresses were made by A. W. Wright and John Devlin, of the general board, disclaiming Hayes' charges. Wright accused Hayes of having a false system of book-keeping, and if any unlawful expenditures were made it was owing to that fact. He intimated that Hayes had been carried away by his enmity to Powderly to the extent of deliberately falsifying the accounts so as to mislead delegates. "Tomorrow the executive board, it is said, will formally demand Hayes' resignation. The important questions referred to the committees today were the amalgamation of all labor bodies in one powerful organization and recommending political action by organized labor."

TRIAL TRIP OF THE COLUMBIA.

Boston, Nov. 16.—The Columbia started on her trial trip early this morning in a heavy and increasing wind. She attained a speed of 23.34 knots, and might have increased it, despite the unfavorable wind, had not she gone two miles off the course owing to the fact that the Keenargo, which was acting as a mark, drifted some distance to leeward. The trial was then declared off. It is stated now that the maximum speed published of her initial trial yesterday was incorrect and that the Columbia then made an average of 24 1/2 knots for a distance of seven knots instead of 23.7.

NO REAL ESTATE IN HIS.

Washington, Nov. 16.—Cleveland and Lamont arrived from New York this morning. The president appeared in excellent health notwithstanding reports to the contrary. Persons in a position to know say that the president went to New York to consult a party of friends and incidentally to look after some private matters. Lamont has authorized an emphatic denial of the report that he and the president went there in connection with some real estate speculation.

SEMINARY BURNED.

Madison, Wis., Nov. 16.—The Edgewood Dominican female seminary was burned tonight. Margie Stack, aged 6, and Margie Rice, aged 7, were burned to death. One of the sisters was badly burnt and may die.

THE SOUTH PROTESTS

Southerners Want No Tariff Reform.

VIGOROUS PROTESTS ARE MADE

Strong Arguments are Presented to the Committee by Southern Democrats.

Associated Press.

Washington, Nov. 16.—The New South sounded a warning in the ways and means committee this morning. Representatives of manufacturing interests of Alabama and Tennessee made an informal argument before the democratic members of the committee. As delegations were present, also democratic in politics, the conference was amicable until near the close, when the chief spokesman of the Southerners already intimated that if iron ore, coal, lumber, rice, and sugar all be placed on the free list, "Democrats of the South might cease to kiss the hand that smites them." W. G. Bush, president of the Mobile and Birmingham railroad, and also of the Clifton Iron company, protested against the injustice of placing iron ore or coal on the free list.

"In case of free ore, would you be distressed by it, and where would it come in competition with you?" replied Wilson.

"We would be cut out of sale of any iron in Eastern states. The effect would be to restrict our market to the South. In the East we would have to meet the low competition of Cuban Indian Spanish ore. If this committee as reported," continued he, "is to put lumber, rice and sugar, coal and iron ore on the free list, then the South might as well give up, as it will be the death-blow to Southern prosperity. We are democrats from principle," concluded Bush, "and do not expect to suffer in the house of our friends. If we do, the natural question to ask is, how long will we continue to kiss the hand that smites us."

It is said that Senator White, of Louisiana, will oppose vigorously the tax on sugar and abolition of the sugar bounty. He asserts that to fix the policy which is being formulated will disrupt the democratic party.

MCKINLEY'S MOVEMENTS.

New York, Nov. 16.—Governor McKinley, of Ohio, arrived here today accompanied by Mrs. McKinley. The trip is one of recreation and calculated to benefit the health of Mrs. McKinley. They are visiting the governor's brother, Abner McKinley. The party went to Abbey's theatre to see Henry Irving this evening. They were the guests of H. H. Vohsheit, of the Chicago Inter-Ocean, and Melville E. Stone. In an interview after the performance Governor McKinley said: "The vast majority rolled up in Ohio shows conclusively that the working men learned something since the vote last year, and now see the folly of their course. They are clearly dissatisfied with the course of the present administration." In reply to a question about the campaign of 1896 he said it is no use to speculate about that now, but the tariff undoubtedly will cut no small figure.

CLEVELAND'S SPECULATION.

New York, Nov. 16.—A special to the Mail and Express from Washington says: There is as much mystery in regard to the president's flying trip to New York today as there was yesterday, but it is pretty well understood that it was for the settlement of personal financial matters. During the last few days there have been rumors here in financial circles relating to a little coterie which have been favored with tips. It was whispered among knowing ones today that a lot of railroad stock was about to be unloaded and that the president's signature was necessary to the documents. A congressman in authority for the statement that the president lost \$100,000 in Chicago and transferred the property to cover the loss.

AT THE SAME OLD STAND.

Berlin, Nov. 16.—Emperor William formally opened the Reichstag today.

ECKLES' FINANCIAL SCHEME.

Washington, Nov. 16.—Mr. Eckles, comptroller of the currency, expects to have his report finished by the end of the week. It is expected among other things that he will recommend a sys-

tem by which national bank currency may take the place of all others in existence, the purpose being to allow national banks to deposit in addition to bonds, gold and silver and treasury notes and certificates, and to issue bank notes at par value with all deposits in the treasury.

CAN'T FIGHT IN JACKSONVILLE.

Jacksonville, Fla., Nov. 16.—This afternoon the mail from Tallahassee brought this short but significant letter from the office of the chief executive of Florida to N. B. Broward, sheriff of Duval county: "Dear Sir—The governor directs that you will take proper precautions to prevent any 'prize fights,' or so-called 'glove contests' in Duval county. (Signed) D. E. Land, Private Secretary."

A BIG COMPANY GONE UNDER.

Pittsburg, Nov. 16.—It is officially announced that the National Plate Glass Association agreement having expired by limitation, it has been decided not to renew it, and the members thereof will be at liberty to make whatever prices seem to them best. The association had a capital of ten millions, and was one of the strongest trusts in the country.

HARD TIMES FOR KNIGHTS.

Philadelphia, Nov. 16.—The report of the general executive board of the Knights of Labor was given out this morning. The past year has been one of trial to organized labor, owing to the steady stream of immigration and the industrial depression. The falling off in the per capita tax is ascribed not to the falling of a belief in the order's principles, but to the sheer inability of its members to pay dues.

ANOTHER WRECK.

Birmingham, Ala., Nov. 16.—A passenger train on the Eastern Alabama railroad was derailed and wrecked near Lafayette this morning. The coaches caught fire, and Thomas Dryster, a passenger, was burned up in the smoking car, and two others fatally injured. Those most injured were all residents of Alabama.

CHINESE ORDERED RELEASED.

Washington, Nov. 16.—Solicitor General Maxwell, who is acting attorney general, has authorized the release of Chinese held at Los Angeles for deportation, except those, if any, who have been convicted of some felony. The marshal of the northern district has already released those held by him.

EMBEZZLER ARRESTED.

Seattle, Nov. 16.—Post-Intelligencer special from New Westminster, B. C., says: "P. M. Isensee, city treasurer of New Whatecom, Wash., was arrested at Yale today on a charge of embezzling \$60,000 of city funds. Isensee will not insist upon extradition formalities, but will return with the officers tomorrow."

FORTY ANARCHISTS CAUGHT.

Marseilles, Nov. 16.—At midnight an attempt was made to blow up the official residence of General Mathelin, commander of the Fifteenth Corps, with dynamite. The building was badly damaged. The police have arrested forty anarchists, including ten foreigners.

ONLY A PRIVATE TRIP.

New York, Nov. 16.—Assistant secretary of the treasury Jordan has sailed for Europe. It is said on purely private business. It is denied that his visit is connected with negotiations looking to a sale of bonds or for any purpose of the treasury department.

NEW STEAMBOAT LINE.

Victoria, B. C., Nov. 16.—Captain Scott and L. B. Seelye, of Portland, are here with a view of placing the steamer Flyer on the Victoria-Tacoma route. Seelye says they can leave Tacoma at 8 a. m. and be back at 6 p. m. calling at Seattle and Port Townsend.

MINE EXPLOSION.

London, Nov. 16.—An explosion of rarified gas in the engine room of the Sumner-Kirkwood mine at Air Brie, Scotland, set fire to two shafts. Fifty-two miners are entombed in the pit and in danger of being suffocated, as the ventilating fans have stopped.

OUR LILLIAN AGAIN.

New York, Nov. 16.—In the superior court today Lillian Russell, the famous burlesque actress, was granted a divorce from Edward Solomon and given custody of her child.

SAFE, SURE, AND SPEEDY.

No external remedy ever yet devised, so fully and unquestionably met these three prime conditions as successfully Alcock's Forous Plasters. They are safe because they contain no deleterious drugs and are manufactured upon scientific principles of medicine. They are sure because nothing goes into them except ingredients which are sweetly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities go right to their work of relieving pain, and restoring the natural and healthy performance of the functions of muscles, nerves and skin. Do not be deceived by misrepresentation. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
