His actions under the circumstances were entirely regular and according to diplomatic custom. The statement that the land-ing of the troops from the Boston was inexcusable and unnecessary is unqual-ifiedly false. Blount's own report shows that there was reason to expect a disthe United States. Inspired with such a feeling, and confident that no disorder would ensue. I directed the removal of the flag of the United States from the government buildings and the return of the American troops to the versel." Commissioner Blount says the causes of the dethronement of the queen and the establishment of the provisional government were both remote and proxthat there was reason to expect a dis-turbance and bloodshed, endangering the lives and property of peaceful government were both remote and prox-imate.
