The Weekly Astorian, the third oldest weekly in the state of Oregen, has, next to the Portland Oregonian, the largest weekly circulation in the state. WOMAN SUFFRAGE.

Miss Susan B. Anthony has evolved a wise and practical plan for converting men and women in New York state te woman suffrage. If her plan should prove successful, women in that state are likely to vote for President in 1896. Wonders have come up in a night, but woman suffrage is no longer a wonder Miss Anthony wants a petition of one million names presented to the constitutional convention which meets next May. She wants the state canvassed by election districts, and wants the woman canvassers and other workers to be paid for their work. This is her plan, in brief, as she presented it before the State Woman Suffrage Association, which has just closed its annual conthe plan without unnecessary debate. At the last public meeting of the convention over \$500 were raised as a starter for a campaign fund. This encouraged Miss Anthony, and she now believes that the fifty thousand dollars which she wants will be raised without extra effort. The character of the audiences at the meetings is highly spoken of, and indicates that woman suffrage is becoming popular. When such conservative women as Mrs. Russell Sage, Miss Helen Gould, and Mrs. S. Van Rensselaer Cruger come out for woman suffrage, the day cannot be far away when all women, or a majority of them, will want to vote. Make woman suffrage fushionable, and it is sure to come. The men who say they will vote to give woman the suffrage when "all" women ask for it, must be classed with those Christians who are willing to send the gospel to the heathen when "all" heathens ask for it.

One of the most gratifying results of the late election is that the very fools of politics who have been running Kansas and succeeded in destroying very largely the credit of the people and bringing the state into contempt, have been halted. The republicans have resumed. The corncob statesmen who think paper money helps poor people, and the way to get money at low rates is to destroy credit, have been sent back to attend, so far as possible, to personal affairs. The resuit is told by the Topeka "Capital" in these words: "Loaners of money have called in their loans. Renewals have been rendered difficult, if not impossible Immediate liquidation has necessitated not only extraordinary economies, but has thrown upon the market a vast quantity of real estate and depressed the price of the property of our people."

Ex-Speaker Reed has produced a book on parliamentary law, entitled. "Reed's Rules." He says of it: "It should be understood at once that this manual has nothing to do with the political differences which have existed as to the rules of the house of representatives, except so far as any treatles would incidentally refer to them. The object of this book is to present the rules of general parliamentary law. in such a way that the system can be comprehended by persons who may be called upon to preside over meetings

of deliberative bodies and by those who may desire to participate in the proceedings. The aim has been to so explain each motion that it may be understood by Itself, and also in relation to other motions." The publisher of the work remarks that one of its chief points of value will be found to be its explanation of the history and reason The Astorian guarantees to its advertisers the largest circulation of any newspaper published on the Columbia Advertising rates can be obtained on application to the business manager. This paper is in possession of all the telegraph franchises, and is the only paper on the lower Columbia that publishes genuine dispatches.

The Dally Astorian's circulation is five times as great as that of the combined circulation of the other daily paters of Astoria.

> There is one man knows it all about Wall street. His name is Peffer. He has all along suspected that there was ed, was a great find for Peffer. When he wraps himself in his hair and lies down to pleasant dreams, having lived so that he goes to his couch not as a sinner scourged, he will think that vast and gloomy problem out. We do not doubt he will spend his leisure in this month preparing his acceptance of the populistic nomination for the presideney, and jot down the outlines of his inaugural address. Peffer is a fore handed man in politics.

Democrats have been bellowing for years about war taxes, and now they have come to the conclusion to establish an income tax. They have two reasons for doing it-one is to destroy protection as fast as possible, and the other is to cater to the stupid theories of conceited persons who profess feeble forms of socialism. The income tax will be costly and insufficient, a cultivation of perjury, a practical swindle and it will drive a great deal of capital out of the country. It will be a hardship for honest men, and easy as an old shoe on rascals.

STRICKEN DEAD. TRUSTWORTHY STATEMENTS.

A recent New York dispatch reads: "James C. H——, a fine looking and apparently healthy man, was observed to stagger while walking on Fifth Avenue this afternoon, and after taking one or two uncertain steps fell to the sidewalk. When wisked a physician or picked up he was dead. A physician examined the body, and pronounced heart disease the cause of death. A pecu iarly sad feature of the case is that Mr. H——was on his way to Maine, to settle in the home of his bo, head. He had passed the previous ten years in the western mining country, and had amassed a fortune. If YOU have any of the symptoms given in the following testimonials
