## THE WAKE OF THE STORM.

The Loss in Some Localities not so Great as at First Reported.

The damage wrought by the recent high waters on the ranches along the Walluski was not so great as at first reported. The dyke on Theo. Christian's place, above the Little Walluski, was not broken, and Mr. J. Christians, who was in town yesterday, states that no harm was done on any portion of the ranch.

J. W. Reith says the tide up the Lewis and Clarke was the highest ever known, but at other points it is claimed that on one occasion the water rose at least six inches higher. D. K. Warren states that ten years ago he remembers a tide that rose six inches higher than the recent one, and in support of the claim says he marked the height of the tide on the wharf at that time. The recent high waters did no harm at Mr. Warren's, nor has the dike around his property, which was erected in 1873-3, ever been broken since.

## THE COMING ELECTION.

A Correspondent Expresses Himself on the Political Situation.

The following communication will explain itself:  
Astoria, Nov. 25, 1893.

Editor Astorian:—  
There seems to be a solemn if not painful silence regarding the coming city election. To a casual observer, it would appear that there is a lack of interest, but the apparent lack of interest has a more ominous meaning. Several politicians are making a vigorous still hunt. Republicans may look upon the "citizens'" movement with indifference, or with favor in some instances, but it would seem that anyone can readily perceive that it is a democratic movement, pure and simple, and illy disguised at that. It is nothing more than an attempt of certain shrewd democrats to capture the city government completely. A genuine citizens' movement is all right, under some circumstances, but republicans surely do not care to vote the city into the hands of a dangerous democratic machine. It would be no better than the alleged republican ring that was routed by the citizens two years ago. There were some dangerous and corrupt men called republicans, in city politics then, without a doubt, but they are driven clear out, away from the city, in most instances. Now, the record of the democratic party in politics in the various cities, is rather bad, from Tammany on down. It is safe to say that all of the vicious element in this city is in favor of the so-called "citizens'" ticket. There are some good men on the citizens' ticket, and many well-meaning citizens will vote that ticket. However, a few good men are placed on the ticket to catch republican votes. The parties who are doing the wire working for the "citizens'" were careful to put mostly democrats on the ticket. With the council and police commission in their hands, they expect to control the city for a long time to come. They don't care particularly about the other offices at present. Those matters will be attended to later on. The object at present is to get in a position to levy a corruption fund from the gambling houses and other resorts, and to use this corruption fund to keep the democrats in power in this city—all to be done in the name of the "citizens," and it is expected to catch republican votes on this bare hook! Those who vote the citizens' ticket through good motives will receive no consideration when the machine gets the city government in its iron grasp. There is a class in this city whose votes are influenced by boodle. Republicans, you should notice how they are voting, before you cast your vote for the so-called citizens' ticket.

## REPUBLICAN.

## THE MIDWINTER FAIR.

Praiseworthy Efforts to Have Clatsop Properly Represented.

A. J. Johnson, who was assistant superintendent of the Oregon Forestry department at the World's Fair, left last evening for Portland for the purpose of attending the meeting of the chamber of commerce of that city, and of the various committees that have been appointed to look after the matter of preparing a suitable exhibit. The meeting will be held today. It is Mr. Johnson's intention to secure, if possible, choice samples of vegetables, including cabbages, pumpkins, turnips, beets, etc., in addition to cuts from the finest spruce, cedar, fir and hemlock trees that can be found. A section 2 1/2 feet long from each variety is desired. Any one who can give information where suitable trees can be most easily secured are requested to send word to the office of the Astorian. The exact location is desired, in order that the chamber of commerce can select the largest. The exhibit from the state in general will doubtless be a great success, but it is the intention to make the exhibit from this county one which will properly represent our vast and varied resources.

## IT MAY DO AS MUCH FOR YOU.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for several years, with severe pains in his back and also that his bladder was affected. Electric Bitters is especially adapted to cure of all Kidney and Liver troubles, and often gives almost instant relief. One trial will prove our statement.
