Advertising rates can be obtained on application to the business manager. This paper is in possession of all the telegraph franchises, and is the only paper on the Columbia river that publishes genuine dispatches.

The Daily Astorian's circulation is five times as great as that of the combined circulation of the other daily papers of Astoria.

The Weekly Astorian, the third oldest weekly in the state of Oregon, has, next to the Portland Oregonian, the largest weekly circulation in the state.

Subscribers to the Astorian are requested to notify this office, without loss of time, immediately they fail to receive their daily paper, or when they do not get it at the usual hour. Consul-General Patrick Collins is credited by "Daily America" with declaring—to a London audience, presumably—that "we do not make tariffs in America for the benefit of England."

But why does Mr. Collins say "we?" How long since he was authorized to speak for the republican party? If by "we" he means the democratic party, the pro-English party to which he belongs, he must have forgotten a great deal about it since he has been away from this country. Every time the party has had a chance—and the courage—it has done just the very thing the Irish representative of the English interests declares, by implication, has not done. It is true that this time the English are not as much pleased with the Wilson bill as they expected to be, for the plank of the Chicago platform which stood so firmly and protuberantly for free trade (or tariff for revenue only) has dwindled down to a thin strip of veneering, that will not hold up even the lightest democratic car that ever made political acrobatics a practice. It is just democratic enough to be dangerous to American interests, but, as before remarked, not even a light-weight democrat could consistently take his stand upon it. It is the product of a desire to do something different from the republicans, crossed by the fear of doing anything.

Experiments with glass building bricks were begun in 1891 by M. Falconier, an architect of Lyons. These bricks are hollow, being blown like bottles, and are given forms—such as cubes, hexagons, etc.—that permit of ready laying. A bituminous cement, with a base of asphalt, is used with them. The bricks serve as double windows, giving protection against both cold and heat; they are good insulators of humidity and noise; and they lend themselves readily to the decoration of buildings, either by their form or their color. Many applications are foreseen. The bricks are neater than marble in meat markets, and are especially adapted for bath halls, hotel-houses, hospitals, refrigerating establishments, and buildings in which absence of windows would be an advantage. A hot house of glass bricks is of about ordinary cost, saves fuel, and resists hail.

The venerable Senator Morrell has made a successful debut as a humorist. His resolution referring to the tariff, internal revenue and income tax, together with that part of his message relating to the hard struggle for tariff reform, to the committee on finance, was a hit. Even Senator Hill smiled.

Not the least entertaining thing about the trial of the "Midway Plaisance" dancers in New York, for giving an immodest exhibition, was what might be called the visible testimony of a stout police officer, Detective McMahon, who endeavored to illustrate to the court the fascinating wickedness of the situation "dame de ventre." The ample-waisted enemy of sin succeeded so well that the magistrates on the bench promptly pronounced it sinful—meaning the original, of which Mr. McMahon

presented, in propria persona, a sworn copy, as nearly as he could hit it. Captain of Police Berghold had tried it, but failed; he lacked the proper abandon, which was supplied by Denis McMahon, and the result was that it cost the naughty dancers \$50 each.

The first six names of the committee of ways and means of the present congress are: Mills, of Texas; McMillan, Tennessee; Breckinridge, Arkansas; Breckinridge, Kentucky; Turner, Georgia; Wilson, West Virginia. The rest of the committee need not be named.

There are two Northern democrats, and six republicans. The solid first had control of the committee. The committee now consists of Wilson, West Virginia; McMillan, Tennessee; Turner, Georgia; Montgomery, Kentucky; Tarnsey, Missouri; Breckinridge, Arkansas.

There are two Northern democrats and the republican minority—the Solid South in the saddle.

There is great anxiety manifested so far on the part of the democratic members of congress that the president should be treated with courtesy in regard to the Hawaiian incident. But the president is not treating the American people with the respect due them as citizens of a great republic.

Illinois criminal lawyers have almost abandoned the idea of carrying cases to the supreme court and there asking for new trials. Instead, they prefer submitting "fresh evidence" to Mr. Altzeld, when their clients have been convicted of penitentiary offenses.

The football associations of Princeton and Yale divided thirty thousand dollars clear cash, proceeds of the Thanksgiving game.

THE BEST IN THE WORLD.

Senator Henry C. Nelson, of New York writes:

"On the 27th of February, 1893, I was taken with a violent pain in the region of my kidneys. I suffered such agony that I could hardly stand up. As soon as possible I applied two Allcock's Poreous Plasters, one over each kidney and laid down. In an hour, to my surprise and delight, the pain had vanished, and I was well. I wore the plasters for a day or two, as a precaution, and then removed them. I have been using Allcock's Poreous Plasters in my family for the last ten years, and have always found them the quickest and best remedy for colds, strains, and rheumatic affections. From my experience, I believe they are the best plasters in the world."

A GOOD WORD.

Mr. J. J. Keil, Sharpshooters, Pa. Dear Sir: I am glad to say a good word for Krause's Headache Capsules.

After suffering for over three years with acute neuralgia and its consequent insomnia (which seemed to haffle the efforts of some of our best physicians) you suggested this remedy which gave me almost instant relief. Words fail to express the praise I should like to bestow on Krause's Headache Capsules. Gratefully Yours,

MRS. E. R. HOLMES, Montrose, Pa.

A DISOBEDIENT HUSBAND.

He pounded on the carpet till his back was nearly broke;

He hung up window curtains till it ceased to be a joke;

He wrestled with the kitchen stove till he was black and blue;

He mended all the broken chairs and down in the glue;

He put her chronon up and tied his arms into a knot;

And prayed to be beneath it when he dug her old grass plot.

He labored on the woodpile tree, his back refused the test;

He polished up the silver till his spirit longed to rest;

Her ran her shopping errands, raising blisters on his feet;

He tugged home tons of samples with a meekness hard to beat.

But when she asked him to select a Mother-Hubbard gown

He craved his evening one evening and quietly skipped the town.

TOO OFTEN THE CASE.

INTERESTING PROOFS.

A young society lady, after a round of gaiety, becomes suddenly conscious of an unusual sensation. She has frequent attacks of dizziness, her back aches, and she feels blue and generally run down.

Mothers, look well to your daughters! Daughters, look well to yourselves!

Let the first symptom denoting the approach of disease receive your instant attention. Healthy women are the hope of the race, and it is well-nigh criminal to neglect anything which promises relief.

There is hope for all sufferers from Nervous Diseases. Read what follows:

Mrs. Jennie C. Davis, a fine artist and an accomplished authoress, of Westfield, Wis., had been subject to headache ever since she could remember. So severe were her attacks as to cause at times temporary delirium. All treatment had failed to relieve her, but after using Dr. Miles' Restorative Nervine she writes: "My record is to me, at least, satisfactory. No headache, constantly increasing appetite, and a consequent gain in weight of two and a half pounds in just one week."

Six weeks later she writes: "Have read and sewed immediately of late, but my headaches do not return."

Mrs. John B. Miller, of Valparaiso, Ind., was attacked three years ago with turn of life in its worst form. It finally went to her head, and all indications were that it would result either in insanity or softening of the brain. Her husband thus writes: "It would be impossible for me to attempt a description of her sufferings during all this time. She was treated by our very best local physicians, with but temporary benefit. She has taken four bottles of Dr. Miles' Restorative Nervine, and is cured. She has gained twenty pounds in weight. I tell you, she often blesses you for what you have done for her."

Recollect that for the cure of all Nervous Diseases there is no remedy which approaches Dr. Miles' Restorative Nervine. It is free from dangerous drugs and opiates. Sold by all druggists, on a positive guarantee, or Dr. Miles Medical Co., Elkhart, Ind.

OUT OF THE FRYING PAN

Has come not a little knowledge as to cookery—what to do, as well as what not to do. Thus we have learned to use

COTTOLINE,

the most pure and perfect and popular cooking material for all frying and shortening purposes.

PROGRESSIVE COOKING

is the natural outcome of the age, and it teaches us not to use lard, but rather the new shortening.

COTTOLINE,

which is far cleaner, and more digestible than any lard can be.

The success of Cottoline has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLINE, and be sure that you get it.

Made only by N. K. FAIRBANK & CO., ST. LOUIS AND CHICAGO NEW YORK, BOSTON.
