TOWED TO SEA AT LAST.

Marshfield, Or., Dec. 16,-The cigarshaped pile raft which has been beset by so much ill-luck in Coos Pay was successfully towed over the bar this afternoon by the tug Lovey and the steamer National City, and started for San Francisco. The raft contains 3 355 piles of an average length of 70 feet. The entire raft is 620 feet long, and will it is thought, reach San Francisco in a week. It grounded twice in Coos bay, and narrowly escaped destruction both times, but it is believed the project will be a success financially.

DUALITY OF THE MIND.

The idea is held by Dr. B. W. Ricaardson that the Two lobes of the cere trum give every person two distinct brains; and that any cangregation of human beings must be reckoned at twice its individual number before its mental constitution and strength can be properly appraised. The two brains are never exactly balanced. They sometimes work together, sometimes diversely; and when one is disordered there way be tendencies to insanity, with lucid intervals if the other is sound. Complete change of personality may result from weakening the stronger or strengthening the weaker,

A NEW ELECTRIC CLOCK.

The General Electric Company of Berlin proposes to adopt the new clock of Herr von Hefner-Alteneck, which may be placed in the same circuit with incandescent lamps, and is claimed to solve the problem of providing an inex pensive yet effectual system of controlling clocks electrically. The current keeps the clock wound at an annual cost not exceeding that of oue 16 candle lamp lighted for 10 hours pernaps or 10 cents. Should the circuit be inken, the clock will run without the current about 12 hours. The control can be operated by hand from the dynamo-room or automatically from an observatory, and consists of a momentary lowering of the circuit rotential by 6 to 10 volts once every 24 hours. the effect being to set all clocks in the circuit exactly together. The lamps are not appreciably affected.

IRREVERENCES OF INFANTS.

(Mamma explaining to her little girl, aged five, that everything she does is written down in a large book in heaven.) She asks: "Are all the naughty things, too?" Mamma-"Yes, dear." Child (pensively)-"Then I think I'll take a piece of India rubber with me." A little five-year-old interviewed his mother the other day upon the subject of angels having wings, and, on being told that there was reason to believe that they were so equipped, exclaime !. "Oh, manima, how funny they must look when asleep, roosting like turkeys."

A little girl of six, who complained of being left alone in the dark after she was in bed, was told by her mother that she need not be afraid, as God was with her, although there was no light. Whereupon the child replied: "Mother, dear, I'd much rather you took God away and left the candle. A child of three and one-half years had been taught by his mother a text ir the morning: "Make me a clean beart, O God, and renew a right spirit within me." At night, at the end of his prayer, he, unasked, repeated the text in the following form: "Wash my heart, O God, and hang it out to dry."

A boy of five, after haveing been wheeked to no purpose by his mother for tensing her when slie was busy, was thus addressed: "My dear little boy, if you leved mother you would try and please her by doing what you are told." Whereupon replied the boy: "Muther, I'm trying to please God; I can't please everybody, hot hos
