Cardinal Gibbons, it is announced, has receded from his stand in favor of dividing the public school funds in the dinal found too much healthy Amer-Ican sentiment opposed to his reactiondeclining to follow him, and publicly denouncing and protesting against the policy he proposed. They saw that, once the door were opened on such a pretext as the cardinal gave, there would be no stemming the tide. There would, indeed, have been no reason why those of the Jewish faith should portion of the money. But they have proper places. The public schools would not survive such a proposed div sion. The tendency of the secular schools is to Induce toleration for the religious beliefs of all good citizens, and that should satisfy any American.

Scarcely a day passes that additional testimony is not forced upon the public attention of the widely prevailing des titution and suffering throughout the country. Of course there is always suffering when the winter comes, but this season is exceptional for the extent and severity of the misery. To begin with work has been slack, and the great houses upon whose activity numbers of workingmen have depended for their daily employment and the means of earning their daily bread, have been forced by the laws of self preservation to move with extreme caution, in many instances declining t start their machinery except on specific orders. Then, in utter disregard of this condition of things, those who con trol the movements of organized labor have not hesitated to order strikes for real or fancied grievances. It has often happened, to paraphrese the popular motto, that the fancied injury of one is the real injury of another who has no concern in their grievances.

The French are taking energetic measures to cope with anarchistic plots and propaganda. It is a proper step when foreigners are caught dabbling in bembs and incendiary leaflets, to send them across the fronties, but these suspects doubtless avoid their own country and go somewhere else to hatch more mischief. They would have no reason to complain if they were delivered to the tender mercles of their own people when they frightfully abuse the rights of asylum. But there should be strict proof that they are not being deported for other offenses,

A WONDERFUL ENGINE.

Cannot Be Surpassed.

An engine exerting surpassing power is always a source of wonder, and yet how many are entirely forgetful of the existence within themselves of an engine more powerful and enduring than any ever invented. Not perhaps until they experience irregular pulse, heart fluttering, asthmatic breathing, tenderness in shoulder and arm, swollen ankles, weak and hungry spells, amohering, short breath, or pain in side, when its existence is no longer to be denied, as the possessor must know he has heart disease. Mrs. LeBar, Fitchburg, Mich., had heart disease fifteen years; had to hire house help; lived on liquid food, used Dr. Miles' Heart Cure and all symtoms left her. Continued use cured her. Sold by Chas. Rogers on a guarantee, who will give you a doctor's book free.
