One effect of the naval scare in Eng land is seen in orders for thirteen vessels of the Havock type of torpedo destroyer, but ten feet longer for the sake of better accommodations for the crew. The Havock is boasted of as the fastes! efficient war vessel afoat in the world. It is stated to be better in speed than our Columbia by nearly four knots The Columbia on November 18 attained a mean speed of 22.81 knots, but for a brief period made over 25 knots. Against this the Havock's performance is remarkable. In a trial of three hours at sea during unfavorable weather, and with all her weight in armament and stores on board, she attained a mean rate of 26.78 knots per hour, equivalent to over thirty-one land miles. The intention of such a vessel is to go with a Hiram Brown, to contribute some 3 fleet and to chase torpedo boats into feet of water frontage owned by him shallow water and destroy them. Th Havock is seaworthy for a long voyage but, of course, at slow speed. She carries a 12-pounder Elswick gun, with breech mechanism which closes or opens with one movement and cannot foul.

The Chicago Tribune says that if Editor Stead can "establish regular telegraphic communication between Ri-Janeiro and the United States he car command his own figures. There's mil lions in it." But judging from his re cent experience in Chicago, it seems there would be an improvement in the present situation if Mr. Stead could establish a closer connection with London. He is rather too radical a person for a republican form of government He does not seem to think American: are informed about their own condition, and in all probability his experiences are likely to be unpleasant if he does not moderate his transports.

The torturing of a nego in Mississipp to extort a confession anent a horrible murder was at last successful in getting at the truth, but the danger of such methods of judicial procedure was shown at the cutset. He endeavored t implicate others in his horrible crim -at first a white man and then other colored men-but finally acknowledged that he alone was responsible. Mob law is not a thing to be encouraged, and the burning of this victim has no justi fleation. His death could have been made sufficiently frightful and deterrent by simple hanging.

There are two new democratic candidates for the next presidency Cov. Stone, of Missouri, and Senator Voorheer, of Indiana, Both seem to rely a good deal on silver. It will take Stone a long time to become a national character; and then he will be nipped like Russell, Flower, Pattison, and Boies. Mr. Voorhees is too eloquent a sentimentalist to become president. There never were but two orators elected to the presidency-Garneld and Harrison.

Kats Field, who knows, or professes to know, all about Utah and the Morsnon business, says that owing to politfeel complications. Utah will become a state, and then, tholding the balance of power in Wroming Idaho, and Odorade, with an averatelming majority in Utak, the following of Joseph Smild

will have reason to ask whether certain prophecies are not being verified. Add the Mormons of Arizona and New Mexico to the cight thousand of Idaho, plus sumption being that sympathy is born, Utah, Wyoming and Colorado, Montana and California, and they will control the heart of the continent." The complication is that both parties hold they have a show for the Utah senators and representative.

"Gentlemen:—Please send Krause's Headache Capsulea as follows: Two boxes to Flora Seny, Havanna, N. Dak. Two boxes to Lillie Wilcox, Brookland, N. Dak. I have always been a great sufferer from headache and your Capsules are the only thing that relieves me." Yours very truly, Havana, N. Dak.

The public securities in the custody of the Bank of France, of the value of \$,000,000,000 francs, have been removed to an exceptionally strong room for

safety. The largest mass of gold ever collected in the world is in the Bank o France at the present time, and the precautions taken to make it safe are not mentioned.

The annual production of the Omah: and Grant smelter works, of Denver, has been made known. The general result is that the silver production show: a slight falling off in value, while the gold production shows an increase. And that is all there is of Teller's tale of woe and Peffer's panic.

The ways of a great man are gener ally full of sorrows. Mr. Wilson, o West Virginia, is to contest his dis trict for the next congress with John W. Mason, a strong and popular man who will pretty certainly beat him by

THE OPEN SWITCH.

AN ESTABLISHED SAFEGUARD. Anybody who travels by care knows what is meant by "an open switch." It is the terror of railroad men, and the dread of the traveler. Its victims—killed, horribly mangled or mainted for life-are numbered by the score each year. Yet even the dreaded "open switch" is not

so widely fatal as is a certain disease, which without ceasing its activity for an instant, 1 laily filling hundreds of graves.
What is that terrible ailment? you ask It is Heart Disease! "But," you reply, con

idently, "I haven't any heart disease—m, heart is all right." Are you SURE? Dr. Franklin Miles, of Eikhart, Ind., the distinguished specialist in diseases of the heart and nervous system, states that disor ders of the heart are as common as those o the lungs, liver, stomach, bowels or kidneythough often unsuspected. The reason per ple are not aware of this important fact is pecause symptoms of heart disease are not usually recognized as proceeding from this organ, but are attributed to some other ource. If you have shortness of breath flattering or palpitation, pain or tendernes in left breast, shoulder or side, oppressed choking sensation, fainting or smothering

spells, your heart is affected.
