## THE NATIONAL CAPITOL

### Debate on the Tariff Bill Resumed by the House.

### PROBABLE ISSUE OF BONDS

### Democrats and Populists Petition Congress not to Pass the Wilson Tariff Bill.

#### Associated Press.

Washington, Jan. 16.—The president's message and correspondence on the Hawaiian matter was laid before the senate. Hoar gave notice that after routine business was completed he would address the senate on the subject.

Manderson presented a petition against the passage of the Wilson tariff bill. He stated the majority of the signers were democrats and populists.

An amendment to the sundry civil bill, providing for the appropriation of \$25,000 to the geological survey for a careful examination of the gold bearing sands in the rivers of California, Washington, and Oregon, was presented by Mitchell, and referred to the committee on appropriations.

After the conclusion of the meeting Mr. Voorhees, as chairman of the committee, handed an Associated Press reporter the statement given below. In making it he said he did not assume that it represented the views of the entire committee, and yet he knew of no opposition in the committee to the opinions expressed, having submitted the statement to the full committee before giving it to the public. It is as follows:

"The embarrassed condition of the treasury and the necessity for prompt action for its relief are fully realized. There is not the slightest ground, however, for any apprehension that the public credit will suffer or be endangered, for the reason that ample authority already exists by law for the secretary of the treasury to strengthen the coin reserve to any extent required, and to meet every demand that can be legitimate. The power of the secretary to issue bonds needs nothing beyond what is given by the act of January 14th, 1875. The only desirable object to be attained by new legislation at this time is to make a shorter time bond with a lower rate of interest, yet the secretary feels assured that he can negotiate bonds issued under the act of 1875, running only ten years, on practically a three-per-cent basis."

"It seems therefore that it will be wiser, safer, and better for the financial and business interests of the country to rely upon the existing laws to meet the present emergency, rather than to encounter the delays and uncertainties always incident to protracted discussions in the two houses of congress. The senate finance committee authorized Voorhees to introduce Carlisle's bill in the senate.

The Hawaiian controversy was again brought to the attention of the senate today, and there was a half-hour's spirited discussion between Senators Hoar, Gray, and Daniels.

The bill repealing the federal election law coming up in regular order, Mr. Palmer opened the discussion in an argument in favor of the bill. "I have read the minority report," said he, "and have given attention to the historical statement made by it. I have no sympathy with the state legislation to which the report alludes, for I believe the only way in which a constitutional government can be made effective is to give the fullest effect to the principles of the republican form of government. I have no doubt if the colored people of the South had been treated with confidence, they would have seen their interests were identical with those of their late masters, but now the relations between the lately enfranchised and their neighbors are better. I was always in favor of protecting the negro in the right of the ballot."

### IN THE HOUSE.

Washington, Jan. 16.—The house resumed consideration of the tariff bill. Wilson immediately began offering the committee amendments. The first was to reduce the duty on furs for hatters' use from 20 to 10 per cent.

The next amendment was to place on the free list, in addition to books printed over twenty years, hydrographic charts. It was also agreed to. An amendment changing the rate on sugar of milk from twenty per cent ad valorem to two cents per pound, occasioned considerable debate, republicans declaring it was a new industry inaugurated in 1850, and the proposed reduction would ruin it, and protesting against the bringing up of our children on imported articles. Brookbridge defended the committee amendments.

Very little progress was made with the amendments to the tariff bill. The republicans, under the leadership of Mr. Burrows, made another struggle to secure the right to offer amendments

alternately with Wilson, but the chairman held, in view of the precedent of procedure when the McKinley bill was under consideration, that Mr. Wilson, on behalf of the majority of the committee, was entitled to perfect the bill before it was thrown open to miscellaneous amendments. Several minor amendments were agreed to. Almost the entire afternoon was spent in a discussion of the date upon which free wool and the corresponding reduction on wool should go into effect. No conclusion was reached.

The amendment to the tobacco tax restricting an increase in the tax on cigarettes from 50 cents a thousand to \$1.50 to those wrapped in paper, was agreed to.

Mr. Wilson offered an amendment to make the free wool schedule go into effect August 1st, 1894. This was vigorously opposed by Mr. Johnson, democrat, of Ohio, and Mr. Warner, democrat, of New York, but on different grounds. The former claimed the amendment delayed the benefit to come from the latter amendment. Warner contended if the woolen manufacturers did not have free wool in time to give the people cheaper woollens next winter he was in favor of allowing the present duty to stand in order to give the farmers a market for wool during the coming season.

Mr. Bowers, republican, of California, asked if he had not claimed that free wool would increase the price of wool.

Mr. Warner replied he did, if wool went on the free list in February, but if it could not go into effect the market should be retained this year. This precipitated a general discussion. Mr. Wilson then tried to obtain a vote on the question, but without success. Without action on the pending amendment the house took a recess until tonight.

### ADVERSE TO INTERFERENCE.

Mitchell Condemned by the Citizens of Jacksonville.

Jacksonville, Jan. 16.—Sheriff Broward is reported having said that if the governor orders out the militia to stop the fight, he (Broward) would consider it a personal insult and resign his position. Tonight a great crowd of citizens thronged Metropolitan hall, called there to protest against the intended action of Governor Mitchell in calling out the militia to prevent the contest. Speeches of a fiery nature were made by some of the most prominent men in the city. The following resolutions were adopted.

Whereas, It is currently reported the governor has instructed a number of military companies throughout the state to report in the city of Jacksonville on the 25th inst. for the purpose of preserving and maintaining the peace, and

Whereas, There are no indications of any breach of the peace with which the civil authorities of the city and county are not fully able to deal; and

Whereas, We deem the massing of troops in this city unwarranted and a serious reflection upon the character of our citizens; therefore, the city of Jacksonville and Duval county, in mass meeting assembled, do resolve as follows:

First—We earnestly protest against the threatened massing of troops in our city, we having ample confidence in the civil and local authorities and their ability to fully preserve the peace and dignity of the city and county.

Second—We individually and collectively pledge ourselves to aid the sheriff in all lawful efforts to discharge his duties and maintain and preserve the peace and fully enforce the laws.

Third—We earnestly protest against such rumored action on the part of the governor and most respectfully request he desist therefrom and leave the conduct and guidance thereof to the civil and local authorities.

Fourth—That a copy of these resolutions be forwarded to the governor.

From the sentiments expressed by prominent citizens after the meeting, it seems that should the militia be ordered out, serious trouble will certainly follow.

### WILL ISSUE BONDS.

Carlisle Will Endeavor to Restore the Gold Reserve.

Washington, Jan. 16.—It is reported on fairly good authority that Carlisle intends to issue on February 1st enough bonds to restore the gold reserve. It is said he will issue 5 per cent bonds, as they are of shorter term than 4's and 4 1/2's. The issue will probably be about \$40,000,000. Fifteen separate offers aggregating \$40,000,000, to take bonds should the secretary issue them, have been received at the treasury department. One offer to take a block of \$25,000,000 has been received from a New York firm this morning.

### FOUGHT SIX ROUNDS.

San Francisco, Jan. 16.—Jack McAuliffe, champion light weight of the world, bested Jim Ryan, who claims to be the champion middleweight of Australia, in six rounds tonight at the Grand Opera House. McAuliffe was winded, but the referee awarded the bout to him because he did all the forcing.

## LAWYERS IN SESSION

### Meeting of the New York Bar Association.

### A SPEECH BY SENATOR DOLPH

### Vice-President Stevenson Makes an Eloquent Address on the Science of Government.

#### Associated Press.

Albany, N. Y., Jan. 16.—A distinguished body of men assembled in the state assembly chamber tonight to attend the annual meeting of the State Bar Association. Among those present were: Vice-President Stevenson, United States Senator David B. Hill, United States Senator Dolph, and ex-United States Senator Hiscock. Vice President Stevenson was introduced by President Firo and said:

"Politics has been defined as the 'Science of Government.' In the highest sense it is the science of human affairs. I dissent from what I conceive to be a pernicious teaching that a lawyer must hold himself above politics, which means that to hands other than his own must be committed his dearest interests. Such teaching can be justified only upon the supposition that money is the highest aim of those who enter upon this noble profession. If material gain be his only purpose in life, then undoubtedly there open before him paths which promise greater rewards than can be hoped for in the profession of law."

Senator Joseph N. Dolph was next introduced, and spoke on the subject of "Law Reform." He said "Law is a necessary element of civilization, and there can be no civilization without it. It is the handmaid of progress and the best evidence of man's advancement in social intelligence." Referring to the legal profession, he said: "They should exercise a powerful influence in promoting a general improvement of society; in elevating the moral, intellectual and physical condition of the race; in alleviating abuses, and in creating public sentiment."

### SMUGGLER IN THE TOILS.

Fifteen Thousand Dollars' Worth of Opium Captured.

Spokane, Jan. 16.—An opium smuggler doing business on an extensive scale was arrested today and \$15,000 worth of opium captured. The prisoner gave the name of S. B. Davis, but admits it is not his true name. His actions excited the suspicions of two baggage men at the union depot. Officers were summoned, Davis arrested, and four trunks seized. He admitted his guilt, and the trunks were found to contain more than 1000 pounds of opium. He was held for trial in \$5,000 bail. Davis' method has been to pass through British Columbia as a traveling man, with four large trunks labeled "hardware." The opium was loaded at a point on the coast and taken east to the Kallapel river, then down into Montana to a point on the Great Northern. The baggage men who made the discovery will get a reward of about \$7,000.

### PLAN TO PAY PENSIONS.

Washington, Jan. 16.—Sibley, democrat, of Pennsylvania, has prepared a bill to pay pensions in a new issue of two per cent bonds. The bill is designed to give pensioners the benefits usually accruing from bonds and give the government ready means of meeting pension obligations. The plan is to make them of denominations of \$30 to \$100, and make them legal tender, which would allow them to circulate as money. His plan contemplates an issue of such bonds until the amount reaches \$50 per capita for the population of the country.

### LOSS BY A SNOWSLIDE.

Union, Or., Jan. 16.—A snowslide occurred yesterday at the mining camp of Cornucopia. The slide started near the Whitman mine, carrying away tramway station No. 1, and partially wrecking the terminal, also the side of the concentrating department of the mill, which was crushed in. Two stables, the bunk house, and blacksmith shop, were carried away. The damage is not great. The principal loser is the Oregon

Gold Mining Company. Another slide started above the Red Jacket mine, missing the Davis mill by about ten feet. The snow is over eight feet deep in the camp.

### BATTLE WITH ANARCHISTS.

Rome, Jan. 16.—The most sensational news is received from Carrara. The inhabitants were terrified by the sound of heavy firing in the hills near Tirano, where a band of 600 to 1000 anarchists are reported fighting a pitched battle with a force of infantry and gendarmes sent against them.

It is believed the loss of life was great, as the infantry, according to report, had been firing volley after volley at the anarchists. The latter are said to have taken a strong position behind rocks in the hill, and to have made a desperate resistance. It is reported that they were finally defeated and fled, leaving their dead and wounded on the field.

Official advices state that eight anarchists were killed and forty to fifty wounded. The people of Massa claim that at least fifty quarrymen were shot during the engagement.

### TIRED OF LIFE.

Baker City, Jan. 16.—An old prospector named John McCloud was found dead in bed last night. He left a letter stating that after careful deliberation he had decided to take his life, which he had promised to call cowardice, but that he would rather be called a dead coward than a living bum.

The Chinese have commenced registering, about 65 names being enrolled up to the present time.

### OUR FORCE AT RIO.

Washington, Jan. 16.—The navy department is informed of the arrival of the cruiser New York at Rio. The government now has at Rio the New York, San Francisco, Newark, Charleston, and Detroit. This is a stronger force than any other two powers, and is a stronger force than the United States has had in foreign waters at any time since the Civil War.

### MITCHELL DETERMINED.

Tallahassee, Fla., Jan. 16.—Governor Mitchell today said, speaking of the Corbett-Mitchell fight: "I am going to prevent this prize fight; Corbett and Mitchell cannot fight in this state." H. M. Flager, who owns nearly all of St. Augustine, says: "The Corbett-Mitchell fight will not come off in St. Johns county if I can prevent it."

### BLOW AT THE CIGARETTE HABIT.

Emporia, Kan., Jan. 16.—The city council has passed an ordinance placing such a high license tax on cigarettes that their sale is effectively stopped in this city. It prohibits their sale to children under 16 years. A recent investigation showed not only that most boys, but a large number of girls, are addicted to the habit.

### GREAT STORM IN CALIFORNIA.

Eureka, Cal., Jan. 16.—The greatest storm of the season commenced Saturday. Over four inches of rain fell and the Eel and Mad rivers have broken their banks and flooded the country. The entire Eel River Valley is one sheet of water. Houses and barns are surrounded by water and considerable stock has perished.

### GERMANY'S FINANCES.

Berlin, Jan. 16.—Emperor William opened the Prussian diet today. In his address he said the growing deficiency in the estimates could only be removed by reorganization of the finances of the empire, and an adequate increase in its resources.

### A REVERSE FOR MELLO.

Rio de Janeiro, Jan. 16.—The United States cruiser New York arrived today. The renewed firing between the rebel ships and the forts is said to have resulted in considerable loss of life on the insurgent vessel, which retired.

### CARLISLE'S BOND SCHEME.

Washington, Jan. 16.—The senate finance committee today had Secretary Carlisle's letter suggesting an issue of bonds under consideration, but adjourned without action.

### GEAR ELECTED SENATOR.

Des Moines, Ia., Jan. 16.—Gear was formally elected United States senator today.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
