Senator Peffer said recently that he "hopes to speedily see the day when every woman will have every right, every privilege and every advantage" that he has.

The executive committee of the national board of steam navigation was called to Washington, D. C., last week to take action on a bill presented to congress providing that no engineer or pilot of a boat should be allowed to work more than ten hours a day.

The genial Dr. Oliver Wendell Holmes, the "Autocrat of the Breakfast Table," and the only autocrat the American public will tolerate, is recovering from his recent illness, which was an attack of grip, but which, on account of his advanced years, caused much apprehension.

Miss Etta Minor, of Heppner, by mistake took a dose of morphine last week, thinking it was a headache powder.

The people of Albany are again enjoying their street railway, the motor that was partially destroyed by fire having been rebuilt.

The butter at Baker City this season is the worst ever known. The dealers lay it on the weather.

New candidates are springing up like mushrooms in Union county. It is now thought that the list will run up to 50.

Huntington has a skating craze, but fortunately for the health of the people attacked, the skating is done with steel on ice in the open air, and not on roller-skates in skating rinks.

An exchange is authority for the statement that a new party has been formed in the southern part of the state called the "Poor Man's Party," and that it is spreading rapidly.

Lieut. Gov. Sheehan, of New York, one of the men who promised Geo. Goss the necessary financial aid to build the Astoria and Portland railroad, pretends that his only aim in public life is to leave an unblemished reputation to those who will come after him.

stultifying "old glory" for the "meteor flag." This is all very sad, but the funniest thing is that he "points to the present depression in the United States as a reason for abiding by the present policy of the government" of Canada.

Attorneys in Oklahoma, who make a specialty of securing divorces, are mailing circulars setting forth that "service of summons upon defendant may be made personally or by publication. There is no statute requiring corroborative proof, as in South Dakota." This illustrates forcibly the need of action to prevent the enactment of loose divorce laws by states and territories.

According to the Boston Herald, John Sherman is to be credited with twice aiding the democratic administration to overcome the democratic party "upon such momentous commonplaces of public honesty" as the stoppage of the purchase of silver and the timely issue of bonds—both measures meaning the preservation of the national credit by the continuance of the "policy of specie payments. The Herald says: "His position is one in favor of as infrequent changes in the tariff as possible in the interest of business, and it is a good one. We hope it will be carried out by refraining from changing the tariff that shall be adopted this year for several years in the future. We think it will be." This is a highly cultivated case of presumption, for the people in the states where there are diversified industries and real elections plainly mean to smash the democratic tariff policy when they elect the next congress.

Trains overland have all been late the past week in Eastern Oregon on account of snow blockades.

exhausted. The library is not for the benefit of any particular set, or sect, or faction of people, but for all.

As was stated in a former article, the ladies canvassing committees found so many people out of town, or being out of their places of business, that they missed seeing them last summer, and in consequence their list of monthly donations were not as large as they otherwise would have been.

Please don't pass this by, but give this matter your earnest consideration, and do your utmost to help the library association in this their hour of need.

Are the sensations experienced by the nervous and dyspeptic. Unaccountable palpitation, buzzing in the ears, flushing of one side of the face, odd taste and thrills in the mouth, constant restlessness, ringing in the quiet, and sinking of the stomach, acute sensitiveness to slight sounds that magnifies them tenfold, low spirits—these are only a few of the charming experiences of the invalid who suffers from combined nervousness and indigestion—a team that usually travel together. Their gay and festive career is, however, brought to a full stop by that greatest of stomachics, Hostetter's Stomach Bitters, which also overcomes their ailments—constipation and biliousness. This potent remedy fortifies those who use it against malaria, chronic rheumatism and kidney complaint, restores nervous quietude and promotes appetite, vigor and sleep.
