The Astorian guarantees to its subscribers the largest circulation of any newspaper published on the Columbia river.

Advertising rates can be obtained on application to the business manager. This paper is in possession of all the telegraph franchises, and is the only paper on the Columbia river that publishes genuine dispatches.

The Daily Astorian's circulation is five times as great as that of the combined circulation of the other daily papers of Astoria.

The Weekly Astorian, the third oldest weekly in the state of Oregon, has, next to the Portland Oregonian, the largest weekly circulation in the state.

Subscribers to the Astorian are requested to notify this office, without loss of time, immediately they fail to receive their daily paper, or when they do not get it at the usual hour. By doing this they will enable the management to place the blame on the proper parties and to insure a speedy remedy.

Handley & Haas are our Portland agents and copies of the Astorian can be had every morning at their stand on First street.

TIDE TABLE. For the Week, Beginning Today. Table with columns for DATE, HIGH WATER A.M., LOW WATER A.M., HIGH WATER P.M., LOW WATER P.M.

YESTERDAY'S WEATHER. Local weather for the twenty-four hours ending at 6 p. m. yesterday, furnished by the U. S. Department of Agriculture weather bureau.

TODAY'S WEATHER. Portland, March 10.—For Washington and Oregon: Rain; warmer; gales on the coast.

In accounting for the prevailing low price of wheat, the Chicago Herald says there are any number of causes, and advances the proposition that a new level is about to be established for wheat, beyond which it is not likely to rise except by the boldest manipulation, and then only for brief periods.

There is more talk of reconvening an international monetary conference, Sen. or Romero, the Mexican minister to the United States, having stated that the secretary of the treasury of the Mexican government informed him by a personal letter dated recently that according to private advices the German government was leaning toward a policy regarding silver which would prove favorable to that metal, and that it was almost sure that the international conference would convene again with better chances of favorable results.

It appears likely that before the end of the Wiman affair is reached some very interesting matters will be made written history. What the public does not know about commercial agencies will in all probability be better understood when all the dirty linen is washed that is about to be handled in the New York courts.

interesting developments principally by the aid of those who had grievances against the system and of unwilling witnesses. Now, however, when it has become a case of war to the knife between Mr. Wiman and Mr. Dun, the former may feel inclined to be a little more communicative than he might be were the circumstances different.

The democratic party persists in tariff reform on the ground that the people demanded it in 1892. The vote in that year certainly justified such a conclusion, but not any more so than the result of the recent elections show beyond the peradventure of a doubt that the people have changed their minds.

Whoever succeeds the G. O. M., assumes a heavy load. It seems as if Billy Astor's scoop was genuine after all. The chicken thief certainly makes his living by fowl means.

It is the popular belief that many dairymen are milk and water fellows. It's no wonder that Mr. Cleveland feels desperately like shooting something. Colorado will not succeed in seceding, but she will suck sorrow from the scandal.

Thoughts that burn, as the editor said when he lit his cigar with a rejected poem. Wife (coldly)—I can't live on \$5,000 a year. Husband—I don't insist on your living.

Teacher—What is a tangent? You may answer, James. James—A gent who runs a tan yard. The charivari, the grand jury system and several other bad things should be abolished.

It is not at all necessary for one to be a grand statesman in order to evolve a presidential boomlet at this period. Rimple—Does your wife obey you, as she promised to do at the altar? Simple—Well, the fact is, I've never dared to test her.

Johnnie (seeing his twin cousins for the first time)—Isn't it funny mamma? Mamma—What, dear? "Why, this baby is a philopona." Professor—How long should a man's legs be to be in proportion to his body? Mr. Lowstand—Long enough to reach the ground, sir.

The man who hanged Secretary Morton in effigy has been fined \$500. An infinite quantity of good turnip seed might be bought with that amount of money. The senate is the great stumbling block these days in the way of business prosperity, while as a political boomerang it is entitled to first premium at an Australian fair.

W.—Do you believe it is bad luck to open an umbrella in the house? S.—Well, I should say so. I opened one the other day and the owner happened to be there and recognized it.

MAPLE FLOORING.

That Wood Being Used to a Considerable Extent in the East.

Among the noteworthy features of recent lumber trade developments in the east is the rapidly increasing demand for maple flooring. Improvement in the method of manufacture has kept pace with the growth in demand for product, or perhaps it is more exact to say that the recognition of maple flooring has been forced on the attention of consumers by the enterprise of manufacturers in turning out a perfected product and urging it on public attention.

The supply, however, is far from inexhaustible, but eastern men can find consolation in the fact that the Pacific Coast forests will supply the best fir in the world for many generations to come, and the fame of Clatsop county will yet be heralded to the world as the greatest lumber-producing county in Oregon.

HEED THE WARNING

Which nature is constantly giving in the shape of boils, pimples, eruptions, ulcers, etc. These show that the blood is contaminated, and some assistance must be given to relieve the trouble.

GET WELL. I have had for years a humor in my blood, which made me dread to shave, as small boils of pimples would be cut, thus causing the shaving to be a great annoyance. After taking three bottles of my face is all clear and smooth as it should be—appetite splendid, sleep well, and feel like running a foot all from the use of S. S. S.
